Meetings have been held and committees been appointed to confer with the railroad officials, and lay before 'them such facts and circumstances, as they may be able to produce, with a view to inducing them to extend the route beyond the Potomac through Jefferson county. The natural avenue for travel and transportation between the North and South is through the Cumberland Valley and Shenandoah Valley, and the time when a continuous line of railroad will be laid throughout the whole length is not far distant. We know nothing as to the intention of the Cumberland Valley Railroad, Lut feel sure that it is not contemplated to stop when it reaches Williamsport. Let the citizens of Jefferson county, West-Virginia, push the matter, and we feel sure that it will not be a long time before they can make themelves independent of the monopoly of the Baltimore & Ohio road .- Chambersburg Repository.
