CARLISLE, MARCH 3, 1870.

An attempt was made, a few nights since to enter the residence of 'Squire Smith, on Pomfret street, but before effecting an entrance the burglars were been so well received and appreciated frightened away.

iest weighing 480 pounds, the next 440, porkers were not yet sixteen months old.

On Saturday evening of this week a musical entertainment will be given at seats. The committee inform us that Kingston Hall, New Kingston, by Mr. two-thirds of the hall has been already John A. McKeehan and E. M. Dunlap, the popular soloists and balladists. The good people of the neighborhood wish- of this distingushed lady's life in our ing to enjoy an evening of mirth and next issue. good music have an opportunity. Admission, adults 20 cents, children under twelve years 10 cents.

The examination of the Churchtown been under the supervision of Mr. J. ner in which the pupils responded to all the questions interrogated, is sufficient it was accidentally discharged. evidence that they have been thoroughly drilled in their respective branches, and that no means have been spared on the part of their teachers, to have them properly understand everything they do. Mr. Zeamer imparts a great deal of information to his pupils not found in the text books of the common schools. This of horned cattle, and ten head of hogs. shows that his ideas of school teaching are not so contracted as these of many engaged in the profession of teaching, and gives pupils attending this school advantages over many others.

A number of compositions, written by different members of the school, were read during the day, some of which showed marked sixns of genuis in the cows, &c. art of composition. Several declamations and dialogues, of an amusing character, were recited by some of the smaller | cows, &c. members of the school, and were received by all present with loud applause. At the close of the exercise of the afternoon, G. M. D. Eckles, of Kingston, delivered then adjourned and all returned home, feeling well pleased with the exercises of the day.

The subscribers to stock in the Norma School project, met on Tuesday evening, and received the reports of the different committees. As we were absent from town on that evening, we are unacquainted with the proceedings. We believe, however that \$20,000 have been subscribed, and further efforts are being made to increase the amount to \$30,000 -Ship. News.

A citizen of this place gives us the following: An iceberg was seen off the southern cosat of Greenland, in the spring of 1864, two and a half miles long, of the same width, and one mile deep; how many tons did it contain? Answer .-It contained 24,839,604,400 tons, which at one dollar per ton, is sufficient to pay all the debts of the nations of the earth including national, corporation, and individual liabilities. If Pennsylvania could secure a fraction of this mammoth iceberg, the "damage claim" would be all right.

Below we publish a copy of a letter hundreds of which are flooding the country. We have been creditably informed that some of the money is now circulating in this vicinity, and persons who are supposed to be highly respectable, are engaged in this business:

"DEAR SIR :- Believing you to be "true blue," we will introduce, for your consideration, a matter which will be the means of putting many thousands of dollars in your pocket, in a very short time, We have on hand, now ready for circula tion, \$850,000, in \$1, \$2, and \$5 bills. They are the best counterfeits ever put on the market, and we defy the Treasury experts, themselves, to detect them. They are of the same size as the genuine, are printed on first class paper, are correctly numbered, and are so exceedingly well executed, in every respect, that they cannot possibly be detected, even by the aid of a powerful microscope. We have them put up in packages of \$500 each. We will sell you \$500 of the \$1 or \$3 bills for 100 ;\$1000 for \$180. We shall charge you \$200 per \$1000 on the \$5 bills, as the engraying of the-plate cost us considerably more than for the others. If you desire to feel your way before in vesting largely we will send you \$500 upon the receipt of \$5 or \$10, whichever you see fit to send us, and you may pay the balance within 15 days after receiving the bills, or we will wait until you arrive. Any rail road ticket agent will take them because he cannot detect them. National Hotel, corner of South Han-Don't show more than \$50 dollars at a time in a place. You can well afford to bedding, carpeting, tables, looking remit the balance in two hours, but we | glasses, stoves, bar room chairs, &c. will give you plenty of time. You may form some idea about the quality of our stock, by reading the inclosed extract cut from the Herald. The stock is in a safe place, and we defy the sharpest de- sive carpet store, in the store room of the burg, Pa. tectives in New York, unless you blow "Bentz House." They intend to keep on us, which we know you will not do. Always send money by express or registroil cloths, window shades, wool, flax, tered letter. We will do the same, and carpet chain yarns, floor coil cloths Then nothing will be lost' in the mails, matting, window shades, looking glasses, and everything will work handsomely between us. ALL OF THIS IS TRUE. Some one has said that it is harder work to keep money than it is to make it. This is too true, particularly if your valuables are deposited in any other than Herring Safe, with the last invaluable improvement added, which consists of a succession of offsets on the casing of the door, and a corresponding number on the door itself, all of which are padded with gutta percha, and when it is closed becomes perfectly secure against "wedging," the last and most successful plan of "cracking," which the footpall practices at the present day.
