VOL. 70. NO. 15.

OOSE STATEMENTS --- IF NOT WORSE. Every person whom experien bservation has taught anything at all. knows how much public opinion is manufactured by simple assertions and charges, unsupported by even the semblance of a probability. As an illustration of this, we make the following extract from the leader of the last Volun

"It is a humiliating fact that Grant has become so avaricious and grasping that er of which is so highly charged that a he thinks of nothing but the accumulacommon jack knife, drawn a few times then of wealth. That he is connected across the iron heading to the tube will with rings and communities is an estion of wealth. That he is connected pick up an eight penny nail. Pitchers tablished fact, and that he gives information to these rings and combinations which enables them to invest and speculate understandingly, is equally true. United States Marshal served a writ Grant is a cormorant, and can be induced upon Ellison for the surrender of the to pursue any policy or do any act, City Hall, but Ellison paid no attention | provided he is first satisfied that it will to it. Saturday and yesterday affairs | pay. A beauty is he co be the President of the United States.

"As a commentary on Grant's wealth, (it is said he is worth at least a million from the City Hall, in which event he of dollars), we may mention the fact that every President of the United States, A letter from Port au Prince says that | from Washington down to Lincoln, lost Wiener, the American Consul, recently money by holding the office. Washingarrested by the insurgent leader Jacquet, ton, John Adams, Jefferson, Madison, Monroe and John Quincy Adams, according to their biographers, went out Consuls at Port au Prince have taken of office much poorer than when they up the matter, and three war vessels, one first entered upon their duties. Jackson English and two Haytien, have been was literally rained, and had to borrow money from F. P. Blair to take him The experimental brig Nevelty, con-structed simply as an iron tank to hold wealthy when elected, but was in very molasses in bulk, arriving in Boston from straightened circumstances when his term of office expired. Mr. Buchanan told us himself that he was \$20,000 and hose, direct into the reservoir of a poorer the day his term expired than he was on the day it commenced. Lincoln was the first man to accumulate wealth from the office of President of the United States. He saved his whole salary! How he managed to do this is Radical secret. But Grant-stupid. reticent Grant-he went into the Presi-

dency a little over a year ago worth nothing, and to-day he is worth a million of dollars! Well done, Ulysses. "It is a singular fact—no, not so sin gular either, when we consider their ound to contain 0.06 grain, while a gal. | politics-that the only two Presidents who made money by holding the office nours in the lead pipes of the chemist's were' Radicals-Lincoln and Grant. This is a way Radicals have, however. A printer's "imp" in Detroit, sandy Give them office, no matter what their haired and speckled faced, working for salaries are, no matter what expense they are at, and they will "make their pile." This is a principle with the "trooly loil," from Beast Butler down to Grant. "

Now just mark the assertions which are by this, time believed implicitly by all the Volunteer's readers, and then see on what they rest. First; Lincoln saved his whole salary as President and all en east of the Rocky Mountains are de- his predecessors lost money in that oftermined to put the charges for freight so low that there can be no competition estate footed up a little less than \$75,000. He died at an age not much less than has been formed for the hauling of meral sixty, after a life of close attention to his chandise from the railroad to the various private business, except the four years towns of Utah, Montana and Idaho. SOUTHERN INTERESTS AND THE TARIFF.

The friends of the tariff in the North will be glad to know, that since the destruction of slavery, the statesmen of the South are beginning to recognize the necessity of protection for the development of their own section. The following exace Maynard, sets forth the arguments on the subject in a very strong light:

"But it is especially as the Represen tative of a southern constituency-that - [advocate the policy of protecting and iron from \$0.00 to \$5.00 per ton. It fostering our manufactures. The opposite doctrine had prevailed for a whole one hundred members were absent or The Washington property was sold by him generation prior to the war; and during dodged the vote in some way. It is to the war we experienced the bitter conse- be hoped that on the final pass go of the and this furnished our neighbor a theme quences. Isolated from the rest of the bill this will be reconsidered, and the world, seaward by the blockade and land- duty allowed to remain at the old figure. What the cash value of the Philadelphia ward by the military lines, we endured and Galena residences is, we are not ad privations altogether incredible and to say nothing of a salary of \$19,000 and material in abundance, we had neiper annum for at least four years pre- ther ships nor seamen. With unlimited some chance that it may be removed. vious to the Presidency, and a Major supply of cotton, and wool, and hides, and oak bark, and falling waters, we had neither shirts, nor coats, nor blankets. We are not now at anything except and shoes. But for the household in by the wisdom of our lawmakers, and ascertaining facts. The propriety of re- dustry prevalent in the South beyond her ceiving gifts is so much varied by cir. parts of the land, not a few would have heen reduced to stark nakedness. Many ladies spun, and wove the material for their own dresses and for the clothing of their families; professional gentlemen made and mended shoes for their own

and their neighbors' children. "With vast deposits of coal and iron ore we produced nothing worth naming of which iron was the component matering and the Democratic party, may not | rial; notther rails, nor wheels, nor tires, meet our neighbors' approval, let them nor axels for our railways, nor nails, nor discuss that as much as they please, but screws, nor locks, nor hinges, nor hamnot stultify themselves by saying he mers, nor planes, nor saws, nor axes, nor was worth nothing when he became augers, nor chisels, nor plows, nor hoes, worth many thousands when he was exception of horse shoes and bowie elected, and they neither know nor bo-lieve that he is worth a million now. A for our common every day affairs. Our party that countenances or needs such salines had been so imperfectly developed, means of political warfare must be near under the cry of free, untaxed salt, that as soon as our external supply was cut off we endured untold sufferings through

rticles of prime necessity which we can produce ourselves, even at a disadvan-"This lesson is not likely to be un

heeded by the South. Already the effects of protection are felt upon all her industries. The closing of her ports and the military lines of circumvallation, pending hostilities, combined with the utter worthlessness of her currency to stimulate her manufactures as never before Iron, salt, saltpetre, powder, caps, arms, cannon, shoes and clothing were proluced in considerable quantities. In the construction of armored ships and in ubmarine warfare there was progress beyond anything in the previous history. of warfare. In short, it is not extrava-gant to affirm that the southern people in the railroad scheme may have been me out of the war greatly improved in all the mechanic arts and the manual skill necessary to independence and self The minor crimes consisted in divorce learners, through the teaching was, larsh reliance. They proved themselves apt at his office. The medical faculty are invited to a
