A RUBII meeting is now in progress at Possom Hill, about seven miles west of last, and will continue until Sunday evening next. The meetings, we believe, are well attended. HUNTER'S RUN PICNIC GROUNDS.

We are informed that the Mechanicsburg Zouaves intend going into an encampment at this place, on Saturday next. There will be an extra train to the picnic grounds on Sunday morning at nine o'clock, and return in the afternoon. Fare fifty cents for round trip. Extra trains during the day between Holly and the picnic grounds.

ARRESTED AT CAMP MEETING .- Sheriff Thompson arrested two young men answering to the names of Henry and Kennedy, respectively, at the Methodist camp meeting in progress at Red Barn, on Thursday night last. It being the last night of the meeting, and the Committee of Arrangements having dismissed the police force on the morning of that day, they determined to take advantage of their absence, and have a "high old time of it," in general, and they succeeded in "raising the wind," finally but they were soon checked in their mad career by Sheriff Thompson, who arrested them, and committed them to jail, in default of bail, on three separate charges, viz: Assault and battery, disturbing the meeting, and malicious mischief. They will be tried at the August term of our Quarter Sessions.

Horse Shoeing .- We presume there is no part of the treatment of the horse which is so important and necessary to M'Lanahan, Stone & Isett, Hollidays his usefulness as the shoeing. Certainly not less than half the lamenesses which rain so many horses is occasioned by the ignorance or stupidity of the blacksmith

For years past the U. S. Government recognizing this fact, has been in search of a method of shoeing which could be practiced by any ordinarily intelligent blacksmith, and which should serve as a protection to the horses' feet, instead of as had been the case with the old lack of system, doing the animal infinitely

nore harm than good. About a year ago, through the influence of Mr. Robert Bonner, Mr. Alexander Dunbar, a Canadian, who has devoted the greater portion of his life to the study of the horse, and particularly to a correct method of shoeing, received a commission from the War Department, directing him to visit the several military posts in the country where horses were employed, and instruct the farriers there-

at in his system. So fully impressed was Mr. Bonner with the excellence of Mr. Dunbar's method of shoeing, that in his letters to the War Department, he states that had it not been for his knowledge of the benefits to be derived therefrom, he would never have purchased the celebrated Dexter, whose feet, at that time, were so contracted, from ignorant shoeing, as to render him quite lame.

Mr. Dunbar visited Carlisle Barracks soon after the receipt of his commission, and at once applied his knowledge and experience to the treatment of the horses othere. In an incredibly short space of time a marked improvement in the condition of the animals' feet was observed, and up to the present time the system has been practiced with the most gratifying results. At Mr. Dunbar's depart. ure, Mr. John Kiernan, a. most skillfulfarrier, was appointed to the charge of call solicited the instruction of the farriers at the post, and to have general supervision of the entire shoeing department. His success has been so marked, that he has been induced to publish a work, giving his views and practice, which is destined to become standard authority on the

acter, Conduct and Results." By Hon. Alexander H. Stephens, is the title of a valuable work just issued by The National Publishing Co., Philadelphia, call and inspect my large assortment.

Five years have elapsed since the close of the bloodiest and most gigantic war known to modern history, and in that Interval men have had an opportunity of thinking over the events which passed before them in such quick succession that reflection was impossible; and as a natural consequence each section has manifested a great desire to hear what the other has to say of its motives and conduct in the great struggle. This has led to the production of numerous histories and narratives on the Northern side, but until recently no authentic or really meritorious history had appeared on the side of the South. The demand for such a work was keenly felt, and there was a ing. very general feeling of satisfaction experienced throughout the country, when, three years ago, it was announced that the Hon. A. H. Stephens, the Vice-President of the late Southern Confederacy. dent of the late Southern Confederacy, was about to issue a history of "The kinds of machinery. War Between the States." The promise then made is now fulfilled in the second and concluding volume of his great his- TO STOREKEEPERS GENERALLY tory, which lies before us.

Mr. Stephens was, for many years, a prominent actor in the scenes of legisla- receive them, and who may give us his address tion, which immediately preceded the war, and knows much of the secret history of those stirring events which pre-, of our prices with Chy quotations for good goods. cipitated the great struggle upon us. The character of his mind, his habits of thought, and splendid powers of analysis, together with his great lionesty. and truthfulness as a statesman, rendered him in the eyes of the whole country the him in the eyes of the whole country the proper historian of the events in which he acted so conspicuous à part. The indomitable energy which, in the midst of failing health, he brought to the preparation of this work, was remarkable, and has resulted in the production of the best history of the war, we have yet seen, and the only Southern history of real merit that has yet appeared. It is for sale by subscription only. Agents are wanted in every county.
