NEW POSTOFFICE BOXES.—Mr. A. K. Rheem, the energetic and accommodating postmaster at this place, has procured, and placed in position on Thursday last, 21 of the Yale Patent Postoffice Lock Boxes. These boxes are very simple in their construction, and the glass front is protected by two brass rods. Each box is furnished with three small keys, each of bees. All selected stock. made of a thin piece of steel with corrugated edges, they are perfectly burglarproof, and cannot be counterfeited by an ordinary-locksmith. Over 5,000 of these boxes are at the present time in use in the city of Boston, and they are J. W. SMILEY'S, No. 33 North Han being rapidly introduced into all the firstclass postolices in the country. Mr. Rheem procured the boxes at his own expense, while the Government derives all the revenue arising from the rental

of them.

SUCCESSFUL SURGICAL OPERATION. It will be remembered by many of our readers, that Mr. Lewis Bosh, of the late firm of Cornelius & Bosh, of this place, had his foot crushed by a car on the C. V. R. R., at Bridgeport, this county, on the thirty-first day of October, 1869. On the same day Mr. Bosh had an amputation performed. This, in surgery, is called Choparts' operation. It consists in going down through the articulations of the foot, leaving the heel for a stump ; but as this case was one where the whole front of the foot was crushed, no flap to cover the wound could be obtained, and as the surgeon wished to leave as much stump as possible, he performed the operation without any flap, endeavoring to heal the wound by granulations from the edges. This hope, unfortunately, was a vain one, as the wound was converted into a sloughing ulcer, necessitating a second amputation, which operation was performed in the surgical rooms of the University of Pennsylvania,

This operation was successfully per formed by Prof. D. Hayes Agnew, M D., Demonstrator and Surgeon, on the fifteenth of October last. One week from the time the operation was performed the patient was able to sit up, and from the first showed no evidence of shock or prostration. As a surgeon Prof. Agnew stands second to none in the United States.

These operations are all performed by Dr. Agnew, assisted by Dr. C. T. Hunter, chief of staff, and Drs. Markoe, Millard, and Richardson. The patients at this University are

nursed and taken care of by details of students who have already attended one or two courses of lectures, thus rendering them competent to carry out any directions that may be given by the Sur-

These operations are performed free of charge. If the patient possesses the means, he is charged for his board, (at a reasonable rate,) but no other charge is allowed to be made by any one. The on some of the best persons in the country, as the medical faculty deem it their duty to promote science, by allowing the medical class to witness the operations performed; and, also, as they are conducted in quiet, without interruption or inconvenience. There are also special days in each week set apart for operations for cancer diseases of the eye, ear and mouth.

The University was founded in 1765, and since then has been recognized as the leading Medical College in the coun-.try, having graduated over 10,000 of its students. It is located on Ninth street, between Market and Chestnut. Announcem

It was this the prompted me to use yobr remedy. As you advertises that it was composed of buchu, cubels, and junipo berries, it occurred to me and my physician as are excellent combination, and, with his advice, after at oxamination of the article, and consulting again with the druggiest. I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the boneficial offect, and after using it three weeks, "was able to walk out. I felt much like writing yeu a full wratement of my-case at that time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a relief to you, and inore sail-factory or my different and my one for three months, and feel as well in all respects as I over did.

Your Buchu being devoid of any unpleasant taste and odor, a nice toule and invigorator of the system, I do not mean to be without it whenever occusion may require its use in such effections.
