My plan is to give my three medicines, in accordance with the printed directions, ever pt in some cases, whore a freer use of the Mandrake Pills is necessary. My object is to give tone to the stomach—to get up a wood appetite. It is always a good sign when a patient begins to grow hunger. I have hopes of such. With a relish for food and the gratification of that relish comes good blood, and with it more fitsh, which is closely followed by a healing of the lungs. Then the cough loosens and abutes, the creeping chils and claumy night-waved so lunger prostrate and annoy, and the patient gets well, previded he avoids taking cold.

Now there are many consumptives who have not the means to go to Florida. The question may be asked, is there no hope for such? Certainly there is: My advice to such is, and even has been, to stay in a warm room c tring the winter, with a temperature of about seventy dee, ees, which should be kept regularly at that point, by means of a thermometer. Let such a patient take his exercise within the limits of the room by walking up and down as migh as his strength will permit, in order to knop up it healty circulation of the blood. I have cured thousands by this system, and can do so again. Consumption is associated in the curse of the text stands undispinced on record that Schenek's Pulmonic Byrup, Mandrake Pills, and Seawed Tome have cured very many of what seemed to be hopeless cases of consumption. Go where you will, you will be almost certain to find some poor consumptive who have been as the Mandrake Pills and concerned, every loss of the ast the Mandrake Pills and concerned, every loss of the ast has head and the second to be hopeless. It was this that prompted me to use yoby remedy. As you advertised that it was composed of buchu, cubebo, and Juniper berries, it occurred to me and my physician as an examination of the article, and consulting again with the druggist I concluded to try, it.
