

THE EMPIRE MUTUAL
UNEXAMPLED!
THE EMPIRE MUTUAL
LIFE INSURANCE COMPANY
OF NEW YORK,
In the first Fifteen Months of its existence has issued
OVER FORTY-FIVE HUNDRED POLICIES!
INSURING OVER \$8,000,000.00
and taking in Premiums \$500,000.00
being the largest continuous business ever done
by any company in the world!

THE REASON FOR IT
Ordinary whole life policies are absolutely non-
forfeitable from payment of first annual premium.
Special Insurance non-forfeitable after two annual
premiums.
All policies nonforfeitable for usual causes, and
absolutely nonforfeitable after two annual premiums.
All ratifications upon Travel and Loan are
made on a first demand.
No accumulation of interest on Loans or Deferrals.
Resumptions and increase of annual payments
any class of policies.
One-third of the premium paid to the party in-
sured, if desired, and is not required.
Dividends on the progressive plan, and also upon
the guarantee interest plan.
Business of the company conducted on the Mutual
Plan.
Policy simple and fair in its provisions.

Incontestability of Policies.
It is the purpose of The Empire to fulfill all its
contracts, the evidence of which is that its policy has
no convenient refuge by means of which it can
escape a first demand. From fraud, on the part of
the insured will always intrude a policy. An-
nuities, if committed previous to the payment of the
second annual premium; or death caused by engaging
in any specially hazardous business within the first
two years. But after the expiration of two years
the policy will be held incontestable for all causes
except fraud.

Non-Forfeiture of Life Policies.
No policy of Insurance paid continuous payments
for life will be forfeited or become void by the non-
payment of premiums thereon, until the full paying
power of the premiums has been exhausted. The
language of the policy is:
"That if any premium after the first annual pre-
mium shall have been paid, shall not be paid on the
day when due, and the said insured shall, within
thirty days thereafter, give notice in writing of in-
solvency, or of any other cause of forfeiture, and
the policy shall be continued in force under the following
conditions: Then and in such case this policy shall
be kept in force until the expiration of the term of
the said premium due thereon, until after the
expiration of a period, to be determined as follows,
to wit: The net value of this policy when the pre-
mium becomes due shall be determined by actuarial
calculation, and after deducting from such net value
the loans upon said policy made by its holders,
and any indebtedness to it. Company, four-fifths of
what remains shall be considered a net single
premium of temporary Insurance, and this policy
shall be continued in force during the term for which
it will insure, according to the age of the party at
the time of the lapse of the premium."

**Example of the Non-Forfeitable Plan of
the "Empire."**
Age of party insured, 55, ordinary whole life policy.
First annual premium \$100.00, paid.
Two annual premiums will continue the policy in
force 2 years and 12 days.
Three annual premiums will continue the policy in
force 3 years and 10 days.
Four annual premiums will continue the policy in
force 4 years and 10 days.
Five annual premiums will continue the policy in
force 5 years and 10 days.
etc., etc., etc., etc., etc.

COMFORTS OF HOME.
THIS AMERICAN BASE-BURNER.
—"At Home," "Sweet Home."
O'er mountain and moor, though we ever may rove,
Our hearts turn with fondness back to that Stove,
Where we sat last winter, warming our feet,
And found merry "centric" haunts its old time seat.
Stove, Stove, Base-Burning Stove,
Stove, Stove, American Stove,
Forced to suffer by another, we quickly revive,
O, give me the American that is the shrieve,
Alone with him in his snug rooming,
And keep ourselves comfortable way down to our feet,
Stove, Stove, American Stove,
Had I this Stove placed before me to test by my choice
For the first fire in America I'd raise loudly my voice,
For with the fuel in his "bell being so near"
And keep you warm and pleasant down to your feet,
Stove, Stove, wonderful Stove,
There's up Stove like there, American Stove.

JAMES MCGONIGAL,
NO. 83 SOUTH HANOVER STREET,
(Adjoining Blair & Son's Greasy Store),
CARLISLE, PA.
After an experience of over thirty years in the Stove and Tinware trade, and having been long acknowledged food confidence that his recommendation of the best Stoves and wares with the community, His own offers the celebrated
EMPIRE GAS BURNER, which he feels proud to be the best Gas Burner in the market. It is handsome, throwing a cheerful light around the room; there are no smokers even in the coldest weather, and it is controlled off the floor and strikes the feet instead of the face; the gas is entirely consumed; all dirt carried off by a back-pipe; it has a ventilating damper by which rooms may be kept so close that no draft is felt; and it produces as great heat from as small a quantity of coal as any other burner.
It also offers the "Cozy Light" and the "Raccoon Light," both Gas Burners, which are recommended by all who have used them. All these Gas burners are furnished with a patent safety valve, which does not work satisfactorily may be returned. Also the following well known
COOK STOVES:
Nimrod,
Farmers,
Diamond Slat,
and others. These are all varnished and are guaranteed to burn clean. Hundreds of them have been put up by me in this community, and their popularity is universal.
All these Stoves may be seen at my establishment, and references can be given, to parties using them.
SHEDDING AND ROOFING, attended to in town or country.

WILCOX & GIBBS'

SEWING MACHINE.

We have secured the Agency of the Wilcox &
Gibbs Sewing Machine, a little farther arrangement
no one seems willing to do with after having seen
one in operation. The Wilcox & Gibbs Single
Thread Machine, and claims superiority over all
others in its class. It is simpler, and less liable to get out of
order than any other machine in its class. It re-
quires no running thread or foot, and it runs
easier; it runs faster. It has the best action for pro-
cessing the heaviest work with less noise. It re-
quires less mechanical skill to operate it. It requires
less strength and endurance to run it. It is the
most certain and reliable in its operations. Its
sewing is neat, and it holds the needle so tight
that it never needs to be turned. It is so simple
and self-winding, that no matter what renders it
out of order, it can be repaired in five minutes.
The spool, thus doing away with the tedious opera-
tion of winding the thread directly from the
skein. It is better adapted to sew cloth than any
other machine. It is better adapted to sew
cotton, than any other machine. It is better
adapted to sew woolen, than any other machine.
It is better adapted to sew silk, than any other
machine. It is better adapted to sew linen, than
any other machine. It is better adapted to sew
all kinds of work, than any other machine. It
does not heat, either. It has the best hammer;
it has the best foot. It has the best treadle;
it has the best frame. The Wilcox & Gibbs has
been in the market for a little more than eight years, during
which time upwards of sixty thousand have been
made and sold, a number by fifty per cent larger
than were sold of any Double Thread Machine in
the same number of its earliest years. Such success
is sufficient to warrant the sale of this Machine wherever
it has an owner, without the tedious evidence of
testimonials, of which there are enough to fill up
the columns in the land. These Machines are on exhi-
bition at our store.
