WHAT THE COMMISSIONERS ARE DOING.

AT last the investigation is over. The Auditors have adjusted the accounts ofthe County Treasurer and made their recolumn. It will afford the general reader and dea of the financial workings of the county government; and it will show the amount of money received and paid out, but it will hardly give any adequate conception of the trials and temphave the management, of our county affairs. This can only be made testimony taken before the Auditors. therefore, be necessary to give the be presperous. facts developed as they are produced from the memory of those who heard them. We will give a resume of the matters, developed as far as they have been reported to us, holding ourselves any omissions, as soon as the specific

facts are at hand. Let it be known then, that during the cluded, for substantial reasons, to give in dispensing charities. it to the company which was to furnish the iron. When they came to this conclusion they found a difficulty in the way.. The gentlemen who had the promise of the woodwork considered the contracts theirs, and refused to give them up. The Commissioners, or one of them, entered into negotiations with the contractors, and offered to give them what would amount to the profits of their contracts, if they would withdraw and in order to fix the papers right they would take the receipts for extra This arrangement, however, didn't carry out, but the Commissioners awarded the contracts to the iron bridge company. The iron bridges were accordingly-constructed and that contractor paid promptly. Messrs. Jacoby and Gracey, then employed counsel, and proposed to bring an action against the Commissioners, for damages on account of the unfulfilled contracts. In the meantime the board of Mr. Hale, whose term had expired, In order to get rid of the suit, Rhoads Treasurer of the county, for \$1,400 in a most conscientious and sagacious officer, as will be shown hereafter, protested against this arrangement, and made his objection before the Auditor, to the allowance of this voucher in the settlewas the origin of the trouble that has kept the happy family in hot water for some time past, and which I made

> THE Louisville Courier Journal is by o means a radical paper, but it cannot conceal its disgust for the party, with which it has for many years acted. Here is a comparison between the two parties, which will be read with interest. The

Courier Journal says : "The great instrumentality through which Radicalism attains place and power is Mind, with a little assistance from money; the great instrumentality payments, made for the building of the through which Domocracy attains the same ends is Ignorance. Wherever Radicalism prevails, there Learning lifts her classic head, and from her arabrosial locks scatters intellectual light and loveliness abroad; wherever Democracy obtains a foothold, there Ignorance erects her shripes and her altars, before which her blind and ragged votaries prostrate themselves in the dust and sing preaus in her praise. It is 'not strange, then, that the Democrat who is true to his changed, Mr. Rhoads taking the place principles and his partynever approaches a school house without instinctively feeling in his pockets to see if he has such a thing about him as a box of matches or a can of nitro-glycerine. It is to the when he tells us that where ignorance is bliss it is folly to be wise."

> "WE are of the opinion that the paynent of the \$800 to Mr. Jacoby was the mistake and misunderstanding made of several Republicans, who were perby the Commissioners in their contract with the bridge company."-Auditors' Report.

HARRISBURG LETTER.

HARRII URG, February 7, 1871. As the session advances abusine nereases in amount and importance, and the last week has witnessed the introduction and debate of one or two matters which are of great general interest. The session of the joint convention to award the contract for State Printing, adjourned over for two weeks without taking any action. It is manifestly the intention of the Legislature, not to make a contract until they have passed a law, which will prevent any printing to be paid for, at greater rates than those named in the contract. There is great need for such a law

to have a record of the Legislative proceedings printed, that there was an end of trouble on that score. But this is not the case. Having a printed journal would be useless, unless it is distributed to the people. To dathis, requires post-to the people. To dathis, requires post-to the people. To dathis, requires post-to the people of triumvirate of Hessrs. Hale, Floyd and what kind of fare and lodging they age stamps and wrappers, and these Harris, men who were selected by that grand old Democratic party for their integrity, prudence and capacity, to county, how much butters an appear on the proof of the proof o integrity, prudence and capacity, to county, how much butter a pauper conmanage the affairs of the county, it besumes per week, and whether or not the will be made to the members, for the of land, the roost valuable over conferred

partment of the Soldiers' Orphans', may be regarded as virtually at an end. For a very long time there have been seri ous charges made against Col. McFar lard, the Superintendent, but although there have been two investigations into his official business, he has been honorably acquitted of all charges. At the last session, however, when he was renominated by the Governor, the Senate refused to confirm his nomination. As this was at the close of the session, no other nomination was made, and after the expiration of his commission, Col. McFarland continued to act as Superintendent ad interim. On Wednesday last, Mr. Brooke, of Delaware, introduced a bill transferring the control of the Soldiers' Orphans to the Department of Common Schools. This bill was referred to a committee, which reported it next went to a third reading. At this point Treasurer of the county, for \$1,400 in favor of Jacoby and Gracey, in satisfac- Democratic party the English poet refers of Thursday, the Senators ventilated debate came up; and during the whole their opinious concerning the management of the Soldiers' Orphans' Department. It was evident, from the first, that the bill would pass. The Demomade with the intention to save trouble cratic Senators were unanimously in ment of the Treasurer's account. This fact is fully attested by man and beast. The pasturage of

his belt is a marvel to travellers. The cota and Washington Territories range out all winter, and are fat in March. Mexican horses, brought here by Indians, nium on account of Indian depredations are turned out to shift for themselves on the range from latitude 45 to 53, and come in fat and strong in the spring. Portions of this road will pass through the winter-homes of buffalo, elk, deer and antelope, which are always fat in spring. Trains of pack-mules thrive hrough the winter without forage while subjected to considerable service

There is no question as to the mildne of the climate, the richness of the soil, and the feasibility of operating daily trains over this road the year through without interruption by snow.

Besides the agricultural resources cellent quality and inexhaustible quantities cross this route in various places. Iron and other ores are also found in abundance; and timber of the most valuable species and of all varieties, in quantities beyond computation, abound along the belt of country through which this great North Pacific Road will pass. Such, then, is the general character of

the climate and productiveness of the land, and the certain assurance of operating the road at all seasons. The Trustee are required to keep and have at all times under their control, as security for the first mortgage bondholders, at least five hundred ucres, of average land to every thousand dollars of outstanding bonds, besides the Railroad itself, with its equipments and franchises.---We heartily commend these securitie

o our readers .- New York Independent. [For THE HERALD.] ASHLAND, NEBRASKA. January 26, 1871.

MR EDITOR :- I will endeavor to jo lown a few scattering ideas of mine, i regard to the condition and prosperity of our new central State-Nebraska." Nebraska is geographically located i the central part of the United States, and is not so far west as some folks imagine it is, although it extends from the Big Muddy river, to the base of the great Mississippi Valley, one of the most fertile and productive valleys in the world. Many of your readers have but a vague idea of our new and flourishing State-Nebratka. They have not forgotten their dreams during their school days, of the Great American Desert, which, doubtless, was looked upon as a second Sahara. But such ideas have been discarded by every one who has ever crossed

the Big Middy river. Many persons in traveling through the State, sursing their preconceived ideas of it, are often heard to exclaim. 'how different ;" instead of looking out on a barren desert, they behold a rich rolling prairie, which sends up a luxurint growth of vegetation.

The surface soil is a rich, dark loam presed mostly of decomposed vegetation, while the subsoil is of Alight brown omposition, with a sufficient quantity of sand in it to prevent it from eaking after a heavy rain, and has the peculiar property of resisting both extreme wet and continued drouth.

The winters are short, and milder than elsewhere in the same latitude. The atmosphere is light, dry and bracing, and with the constant freezes peculiar to this section, -which in summer time s cooled by the icy drafts of the Rocky Mountains, and in Autumn is lapt to warmth by the red tongue of the prairie fires, which are seen nightly in est any direction, conspire to make I it one of the most salubrious and healthy States in the Union.

Lincoln, the capital, is situated on the B. & M. R. R. in Nebraska, fifty-five | prices. miles W. S. W. of Plattsmouth, on the Missouri River, and sixty-seven miles S. W. of Omaha. It is adjacent to the most beautiful little streams of the great West. viz Salt Creek, the waters of which are as the name indicates. Lincoln has

see a city, with nearly every branch of and the neat and rural dwellings of the

pioneer farmers. Most of the State buildings are located cultural College, the Asylum for the tate House, a large substantial structure, occupying a sightly eminence, overlook-

ing the city. The public buildings are put up in a good, substantial style, and speak well or our infant capital. The facilities for railroad communicaion are good, and Lincoln will doubtless

be at no distant day, the great railroad enter of the West. The B. and M. R. R., in Nebraska, is completed, and in running order, to Lincoln, since July, 1870, and is graded to De Witt, twentyeight miles farther, which will be laid and finished the present year.

The Midland Pacific will intersect the B. and M. here, of which fifteen miles are already completed, running from Nebraska City. The B. and M. is to run from Plattsmouth, on the Missouri river, to a connection on the U.P. R. R., at or near Fort Karney, a distance of one hundred and ninety miles. It is virtually a continuation of the B. and M. in Iowa, having the same President and Treasurer, but separate as a corporation, management, and practical workings. The route as far as graded, is through Cass, Saunders, Lancaster and Seward counties, the towns and stations being. Plattsmouth, Omaha Junction, Louisville, South Bend, Ashland, Greenwood, Waverly, Newton, Lincoln, Denton Highland, Crete and De Witt, the last named eighty-four miles from Plattsmouth. The road is doing a very fair

business, and is in excellent running order. As a new road, it cannot be excelled in the West, for its bridges, culverts, station houses, and smoothness of the track. Quite frequently can be heard, passengers remarking one to another in reference to the evenness of managed, is due to its worthy Superin-

THE adjourned election of the Cumberland County Agricultural Society for President and three Managers, was held on Tuesday last, with the following result: For President-Judge Watts, 253; H. K. Peffer, 204. For Managers -W. B. Mullin, 423; Dr. Geo, S. Searight, 196; Wm. Peffer, 200; Dr. W. D. Hall, 178; A. P. Henderson, 244. Mr. HARRY CROUSE, the gentlemanly

clerk of the Franklin House, has our thanks for the favor rendered a few days ago. At the same time, we would nmend the hotel to the consideration of the traveling public; and assure them landlord,

The rumor is current on the streets, that a number of non-commissioned officers and privates, at Carlisle Barracks, have been implicated in the stealing of soldiers' clothing from the post; and selling them to individuals in the town. Some arrests have been made, and probably more will be arrested. As the affair is to undergo a judicial investigation, we refrain from comment.

THEODORE TH.TON, having retired McCommon, in Dickinson township, onefrom the Independent and the Brooklyn half mile north-east of the Stone Tavern, Daily Union, proposes, hereafter, to devote his entire editorial labors to the Golden Age, a new weekly Journal, devoted to the free discussion of all living questions in Church, State, Society.
