VERY RAPID THRESHER, PERFECT SEPARATOR AND CLEANER

had 25 years experience but saves all that goes through the machine, and separates entirely the chaff from the straw. It is an easy running machine, and will do be work the name of the chapes machine, in the narket. The HORSE-POWER,

which we furnish to run the Cumberland Valley Thresher is also new and entirely different in construction from wheteve have herefore built, securing much greater power and speed with lighted form the transport of the first property of the form and the first property of the form and the first property of the Cumberland Valley Thresher and Cleaver was tried on the grounds of the Gumberland County Agricultural Society at the Fair of 1870, a large, crowd of farmers being present to witness its operation. The trial was completely successful, and the machine preved its ability to thresh, clean, and separate grain in the most satisfactory manner. All who witnessed the trial expressed their approval in the warmest terms. The Committee on Agricultural Implements also gave the machine a special notice in their report, strongly arecommending it. The Cumberland Valley Thresher and Separator has also been recently used by Col. William M. Honderson, at his fain near Call ie, in threshing and cleaning a large crop. So fully a he satisfied of its great merits that he allows us to use his name as a reference. Farmers who wish further and fuller particulars as to the working qualities of this new machine are the refore respectful y referred to Col. Henderson, one of the most widely known farmers of Cumberland county.

and connerrand valley Thresher will always be well and substantially built, of the best misterial, solidly framed in overy part, and presenting a handsome external appearance. Price of machine, with 30 inch cylinder, \$200, without wagon. A great advantage of this machine is that it can be reachly repaired at any good shop without trouble.

THE CUMBERLAND VALLEY PATENT SELF MOWER AND REAPER. We will also build this new machine, with changes and improvements, fully reniedying the defects and weak points of these built last season. Our aim is to supply farmers with a good home-unde machine, which, if not superior in all respects to those brought from a distance, will nevertheless prove in all essential point is a good and reliable harvester. All we ask for it is a fair-trial.

The Willoughby Patent GUM SPRING GRAIN DRILL. We build this well known Orain Drill now, with or without Guano Attachment, and the showels to straight or zigzag rows, just as the furmer prefer-We now have, also, a new and improved plan of statching the gam tubes, for which we have obtained latters Patent, which, with other improvements, makes the Willoughby the most complete and per-fect Drill manufactured in the country.
