RAPID PROGRESS OF THE WORK. RAPID PROGRESS OF THE WORK.

The building of the Northern Paoliae Railroad, thegun July 1), is being rushed forward with great energy from both extremitties of the line; favoral thousand men are employed in the Minneyota and on the Paelike coast. The grade is nearly somplated 256 miles westward from Lake Superior; trains are running over 130 miles of finished road, and track laying is rapidly progressing toward the eastern boder of Dakota. Including its purchase of the St. Paul & Paelike Road, the Northern Paelike Company how has 413 miles of completed road, and by September next this wil be increased at a tleast 500.

AGOOD INVESTMENT. Jay Co-ke & Co, are now welling, and unhesitatingly recommend, as a Profitable and perfectly Safe investment; the Figer Carlings Land (trant toold londs of the Arthorna there are now to be a properly and the Railroad Company Thoy are one gold interest (more and the profitable of the Company of the Company

NEW MACHINES FOR 1871. Reaping! Seeding! Threshing!

We offer this new Thresher and Separator, (Casho, & Co's Putent,) to the farmers of Cumberland and adjoining counties, as fully equal, if not superior, to any machine new manufactured. It has the great advantage of being plain and simple in construction.

draft, so that our norses only with the relations where many other machines require, six and eight horges.

The Cumberland Valley Threshor and Cleaner was tried on the grounds of the Cumberland County Agricultural Society at the Fair of 1870, a large crowd of armers being present to withres its operation. The trial was completely successful, and the machine proved its ability to thresh, clean, and separate grain in the most assistanctory manner. All who warment terms. The Committee on Agricultural Implements also gave the machine a special notice in their report, strongly recommending it. The Cumberland Valley Threshoft and Esparately assain, at his farm near Carlisle, in threshing and resample that he allows us to use his name as reference. Farmers who wish further and fuller particulars as to the working qualities of this new machine as therefore respectfully referred to Col. Honderson, one of the most widely known farmers of Cumberland County.

THE CUMBERLAND VALLEY PATENT SELF-MOWER AND REAPER. We will also build this new machine with changes and improvements, fully remedying the defects and weak points of these built last geason. Our sign is to supply farmers with a good home-made machine, which, if not superior in all respects to those brought from a distance, will nevertheless prove in all essential points a good and reliable, harvester. All we ask for it is a fair trial.

The Willoughby Patent GUM SPRING GRAIN DRILE. We build this well known Grain Drill now, with or, without Guano. Attachmonf, and the shovels in straight or zigzag rowe, just as the farmer presers. We now have, also, a new and improved plan of attaching the gum tubes, for which we have obtained Letters Patent, which, with other improvements, makes the Willoughby, the most complete and per-fect Drill manufactured in the country.

The reputation this excellent medicine enjoys, is derived from his curse, many of which are truly marvelous: Invotorate cases, of Sicholaus disease, where the system, seemed saturated visit forruption, have been purified, and cured by it. Scruption, have been purified, and cured by it. Scruption, have been purified, and cured by it. Scruption, have been purified, and cured by it. Scruption and its order and marked by it. Scruption is the seemed by the state of the manufacture of the great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or users. Scruptious points in one of the most destructive enemies of our race. Often, this upseen and unfeit tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the akin or foul ulcerations on some part of the body. Hence, the occasional use of a bottle of this Scaraparilla is advisable, even when no active symptoms of disease appear.
