stock of lumber, in the yards of A. H. Bi A. H. BLAIR. DR. W. D. HALL.
DRSS. MARY L. HALL. Office and residence 37 South Hanover street, Carlisle, Pa. Rooms strictly private. Consultation free. Drss. Hallmakes the treatment of female diseases a specialty. . . . 1de706m SPECIAL NOTICES. DR. SCHENCK Advises Consumptives to go to Florida in Winter. in Winter.

Having for the last thirty-five years defeited my whole time and attention to the study of lung discusses and consumption, I feel tight I understand fully the course that ought to be pursued to restores tolerably bad ease of diseased lungs to healthy sound-near. The first and most important stop is for the patient to avoid taking cold, and the best of all places on this continent-for, this purpose in winter, is Florida, well down in the State, where the temperature is regular, and not subject to such variations as in more. Northern latitudes. Palatas is a point I can recommend. A good botch is kept there by Paterman. Last winter I saw several persons there whose lungs had been budly diseased, but who, under the healing influence of the climats and my medicines, were getting well. there whose lungs had been badly diseased, but who under the bealing influence of the climate and my medicines, were getting well.

One hundred inles farilier down the river is a point which I would prefer to Palatka, as the temperature is more oven and the air dry and bracing Mellonvillo and Enterprise, are located will be foreigned at 5003/2c. Receipts 10,000 head.

Hose were in demand. Nates of slop-fed at the temperature is more oven and the air dry and bracing in the better and patients cate and inspire the better and patients cate a return of appeality increased in the state of the reaching the commended to consumptive in winter. My reasons for saying so are that patients are less liable to task cold there than where there is a less even temperature, and it is not necessary to say that where a consumptive person exposes himself to frequent colds he is certain to die shortly. Therefore my advice it, so will some the state out of the reach, of prevailing east winds and fogs. Jacksouville, of Minest any other of the localities I have named, will benefit those who are troubled with a torpid liver, a discrete and the state out of the reach, of prevailing east winds and fogs. Jacksouville, of Minest any other of the localities I have named, will benefit those who are troubled with a torpid liver, a discrete first of the localities I have named. For fifteen years prior to 1603, I was professionally in New York, Boston, Baltimore, and Philidelphilactery week, where I-shaw and examined on at available praces of the brick point of 160, I was professionally in New York, Boston, Baltimore, and Philidelphilactery week, where I-shaw and examined on at available praces of the brick, but of the work and the state of the localities of the southern point is carnestly recommended.
For fifteen years prior to 1969, I was professionally in Now York, Boston, Baltimore, and Philadelphiaovery week, where-I-saw and camined on an avorage five hundred patients a week. A practice so
extensive, embracing every possible phase of lung
disease, has enabled me to understand the disease
fully, and hence my caution in regard to taking
cold. A person may take vast quantities of 'Schenck's
Pulmonic Syrup, Seawed Tonic and Mandrake
Pilis," and yet die if he deer not avoid taking cold.
In Fiorida, nearly everybody is using Schenck's
Mandrake Pilis, for the climate be more likely done
it is a well established fact that natives of Florida
rarely die of consumption, especially those of the
southern part. On the other hand, in New England,
one-third, at least, of the population die of this terribie disease. In the Middle States it does not prevail
so largely, still there are amony thousands of cases
there. Wh ta wast percentage of life would be
saved if consumptives were as easily alarmed in regard to taking fresh cold as they are about exarlet
fevor, smalt pox, &c. But they are not. They take
what they term a little cold, which they are credulous enough to believe will wear off in a few days.
They pay no attention to it, and hence it lays the
foundation for another and another still, until the
lungs are diseased beyond all hope for cure.
My advice to persons whose lungs are affected even
slightly it, to lay in a steck of Schenck's Pulmonic
Syrup, Schenck's Seawed Tonic, and Schenck's
Mandrake Pilla, and go to Fiorida I recommend
these particular medicines because I am thoroughly
acqualitud with their action. I know that where
they are used in strict accordance with my directions they will do the work that is required. This
accomplished, nature will do the rest. The physician when prescribes for cold, congh, or night dweats
as any will be a sure to have a corps on his hands
before long. necessary. My object is to give tone to the stoma hetog at year a good sign when a patient begins to grow hunery. I have hopes of such. With a relight for good and the gratification of that religh comes good blood, and with it more flesh, which is closely followed by a healing of the lungs. Then the cough loosens and abutes, the creeping chills and clammy night-weats no longer presented and annoy, and the patient gets well, provided he avoids taking cold.

Now there are many consumptives who have not the meanest og to Florida. The question may be asked, is there no hope for auch? Certainly there is. My advise to such is, and layer has been, to stay in a warm room whiring the winter, with a temporature of about seventy degrees, which should be kept regularly at that point, by means of a thermometer. Let such a patient take his exercise within the limits—of the room by walking up and-down as much as his trength will permit, in order to keep up a healthy circulation of the blood. I have cured thousands by this system, and can do as again. Consumption is as easily cured as any other disease if it is taken in time, and the proper kind of treatment is persued. The fact stands undisputed on record that Schenck's Pulmonic Syrup, Mandrack Pills, and Seaweed Tonic have cured very many of what seemed to be hopeless consected from the very javes of death by their use.

So far as the Mandrake Pills are concerned, every be almost certain to find some poor consumptive wen has been rescued from the very jaws of death by their ase.

So far as the Mandrake Pilis are concerned, everybody should keep a supply of them on hand. They act on the liver better than coloned, and leave none of its hurful effects behind. In fact they are excellent it all cases where a purgative medicine is required. If you way partaken to freely of fruit and you. If you are subject to all handrakes will care you. If you are subject to all handrakes in the you. If you are subject to the handrake and to you. If you are subject to the handrake and to you. If you are subject to the fact of a change of water, or the too free indulgence in fruit, take one of the Mandrakes overly night or every other night, and you may then drink water and eat watermelons. Pears, apples, plump, peaches, or every other night, and you may then drink water and eat watermelons. Pears, apples, plump, peaches, or corn, without the risk of being undo sick by them. They will protect these who live in damp situations against chilfs and fewers. Try them. They are perfectly harmless. They can do you good only.

I have abandoned my professional visits to Boston and New York, but continue to see patients at my office, No. 16 N. SIXTH Street, Philadelphia, every Saturday, from 9 a. m. to 3 p. m. Those who wish a thorough examination with the Respirometer declares the exact condition of the lungs, and patients can readify learn whether they are curable or not. But I desire it distinctly understood that the value of my medicines deponds outlierly upon their being taken strictly according to directions. medicines depends success, who wirely according to directions.

In cohecusion, I will say that when persons take my medicines and their systems are brought into a healthy condition thereby, they are not so liable to take cold, yet no one with discused lungs can bear a saudion change of atmosphers without the liability of greater or less firthation of the bronchial tubes. of greator or less irritation of the bronchest that of greator or less irritation of the bronchest my full directions in all languages accompany my modicine, so explicit and clear that any one can use them without consulting me, and can be bought J. H. SCHENCK, M. D., 10nov706m No. 15 N. Sixth stree t, Philadelphia May.7-70-1y. Other kinds in their season BE WISE, S. .. "SAFH, SPEEDY, AND SURE.".

Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hairis thick ened, falling hair checked, and baldness often, though not always, cured by its assoft. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this main can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean, and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations denogrous and injurious to the hair the angerous and injurious to the hair t igor can only beneat but not harm f wanted merely for a -HAIR DRESSING.

Containing neither oil or dye, it does no oil white cambric, and yet lasts long, on the hair, giving it a rich glossy lustre and and a grateful perfume. Prepared by Dr. J. C. Ayer, & Co., Practical and Analytical Chemists, PRICE #1.00.

FTER MONDAY, DECEMBER 19,

A FTER MONDAY, DECEMBER 19,
1870, Passenger Trains of the Pennsylvania
Railroad com; any will depart from Harrisburg and
arrive at Philadelphia and Pittaburg as follows:

EASTWARD

where many other machines require six and cleanty horses.

The Cumberland Valley Threshor and Cleaner was tried on the grounds of the Cumberland County Agricultural Society at the Fair of 1870, a large crowd of farmers being present to witness; its jogotation. The trial was completely successful, and the machine proved its ability to thresh, clean, and separate grain in the most satisfactory mainer. All who witnessed their approval in the witnessed their approval in the most satisfactory fundamer. All who witnessed their also present their approval in the Landers of the satisfactory fundamer. The satisfactory fundamer was a successful to the satisfactory mainer. All who witnessed their satisfactory mainer in their report, escoulty recommending it. The Cumberland Valley Threcher and Separator has also been recently used by Col. William M. Hendorson, athis farm near Carlisle, in directing and cleaning a large crop. So fully is he satisfied of its great merits that he allows us to use his name as a reference. Farmers who wish further, and fuller particulars as its other working qualities of this new meditive are therefore respectfully referred to Col. Hendorson, ode of the most widely known farmers of Cumberland County.

The Cumberland Valley Thresher will always be land, Arkansas, Red, Colorado, Bratis, Pearl, Alatama, Mobilo, Savásnah; Robnoke, James, and many
others with their vast tributuries, during the Subm
mer and Antuum, and remarkably so during seasons
of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach
and liver, and other abdominal viscers. There are
always more or less obstructions of the liver, a weakalways more or less obstructions of the liver, a weakrisburg at 12 45 p.m. 355—Harrisburg Accommodation leaves Harris-F burg at 3 55-Harrisburg Accommodation leaves Harris-F burg at 3 55 p. m., and arrive at Philadelphia at 11 9 40 p.m. 4 land county. The Cumberland Valley Thresher will always be well and substantially built, of the best material, solidly framed in every part, and presenting a handsome external appearance. Price, of machine, with 30 inch cylinder, \$200, without wagon. A great advantage of this machine is that it can be readily repaired at any good slop without trouble.

sating a powerful influence upon tuess various gans, is easentially necessary. There is no catheration the puryose equal to Dr. J. Walker's Vinegar itters, as they will speedily remove the dark-not-red viscid matter with which the B wels are saded, at the same time stimulating the socretions of the liver, and generally restoring the healthy unctions of the digestive organs. The universal popularity of this valuable, remedy in regions subject to missmatic influences, is sufficient vidence of its power sax a venedy in such cases.

For Skin piscases, Eruptions, Tetter, Salt Rhenn, Blotches, Spots, Pinples, Pustules, Boils, Carbuncles, Sing-Worms, Scald Head, Sore Eyes, Eryspiedia, Itch, Scurfe, Discolorations of the Skin, Humors and Discases of the Skin, of whatever name or nature, are litterally due up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.
