OUR COMMISSIONERS.

THE troubles in the Commiss of two of the Commissioners in the Quarter Sessions. Mr. John Hurris, about whom there were some unpleasan developments last winter, was convicted on one count in the indictment, charging him with corruptly proposing to allow uniust claims. A motion was made it arrest of judgment, which is now held under advisement. The point taken, we believe, is that an amendment was allowed in the indictment, when the case came to trial, which was necessary in order to make the act charged a crime, and that this was error, inasmuch as it practically gave the traverse jurors cogni-Varice of a case on which there had been no finding by the grand jury. If this view is sustained by the Court, Mr. Harris will go free. Mr. Rhoads who instituted the proceedings against Harris, was arrested for fraudulently taking pay for more days than he had served. On this he was acquitted. So out of all this prodigious fuss about the cleaning

out of the Commissioners' office, we will

be just where we started.

The only good growing out o all this investigation, is that it has given the tax-payers of the county some information concerning the manner in which their affairs are conducted by the gentlemen whom they elect as Commissioners.

"If there do a single voter in the transfer of a single with which Radical newspapers are filled, we would advise, him to make the following table as the single 1857. It came out on the trial, that since 1857 there have been no regular minutes kept of the proceedings of the board. The only record of the office, consisted of a time book, in which were marked the days on which the Commissioners were present. They may have had meetings luring all this time, but there is no evidence of it. When the county fathers met for business, or when they met for a nolitical caucus, or for gossip, or to watch a game of checkers between two brag players don't appear. The records are silent. During this time they dealt out the money of the people most lavishly for purposes legitimate and illegitimate, but kept no record of their doings, except marking the days which they made the county pay for their attendance. It. is almost incredible to persons, who have any conception of business matters, that for fifteen years the Commissioners of this county, should neglect to keep a record of the meetings at which they disposed of the money of the people. to an amount, of at least, ONE AND A HALF MILLIONS of dollars. It seems it never occurred to these gentlemen, that a record of their proceedings was necessary. They came to the Commissioners' office every day they hadn't anything else to do, and were particularly careful to charge their full time. They built a iail, an "Asylum for the insane for Cumberland county," quite a lot of bridges. and did many other things involving great outlay of money, but no minute exists of the meetings at which these matters were determined upon. Nor is of the Government amount to nearly this all. No commissioner has any right to pay for his service for any day, unless. there was a regular meeting of the Board, or a meeting regularly called. And yet, for fifteen years, these gentlemen have drawn their pay without any reference to-meetings, but merely because they saw fit for any purpose to come to the Commissioners' office, Now is it not high time, that an entirely different class of men be entrusted with the management of our county affairs.

There is no hope for a reform in this matter, except by the defeat of the party which is controlled by the Courty House ring. Here we have admitted and unblushing corruption among our county officials, and there is no cure or punishment. It is known from their own admissions, that the commissioners were partners in a contract for building ridges, and received their share of the "swag," and yet when one of them i indicted, it results in only a defective conviction for a conspiracy to cheat; The other partners in the transaction go unpunished. A large sum of money i wrongfully paid to some contractors, be cause they failed to get a contract, and yet this payment is allowed by the Auditors, and no one appeals from it. In short the commissioners' office is the most glaring illustration of stupidity, carolessuess, waste, mismanagement au corruption, that can be imagined, and yet the party in power in this county, are unable or unwilling to improve it There is but one remedy. Grvn us
