American Clothes Washer. THE AMERICAN WASHER! PRICE, \$5.50.

The American Washer Saves Money, Time, and Drudgery. The Fatigue of Washing Day no Longer Dreaded, but Economy, Efficiency, and Clean Clothing, Sure.

In calling public attention to this little machine, a few of the invaluable qualities, (not possessed by any other washing machine yet invented.) are here a few of the invalitation quarters, they prosessed any any other washing machine yet invented,) are here enumerated.

It is the smallest, most compact, most portable, most simple is construction, most easily operated.

A child ten years eld, with a few hours' practice, can theroughly comprehend and effectually use it. There is no adjusting, no serews to amony, no delay in adapting 1 It is a liways ready for use 1 It is a perfect little wonder 1 It is a minuture glant, design more work and of a better quality, than the most almorate and costly. One-half of the lafor is fully saved by its use, and the cleaks will lest one-hild for its lafor is fully saved by its use, and the cleaks will lest one-hild for its lafor is fully saved by its use, and the cleaks will lest one-hild will wash the largest hill have read been dear the will wash the largest hill have been considered to the control of the latest the latest and costly. One half of the save the latest and costly of the latest and the control of the latest and the control of the latest and the latest and the latest have the latest latest and the delay of the latest have been delayed in a word, the shiften when he was the condens, all doubts of its cleansing effects and utility are banished, and the doubter and detractor at once become the fast friends of the machine. We have testimonials without ond, sotting forth its numerous advantages over all others, and from humbooks who have the way naded the unwistedly uses.

But the act of Congress, under which this appointment was made, required that it be made in this form, and hence it was used. That act is as follows:

An act to indemnify the States for ex-

Be it enacted by the Senate and House f Representative of the United States of Imerica in Congress assembled, That the hereby, directed, out of any money in the Treasury not otherwise appropriated, to pay to the Governor of any State, costs, charges, and expenses properly subsisting, clothing, supplying, arming, troops employed in aiding to suppress the hands of the Governor, in the city the hearse. After the first one, no further report Governor, nor any, it is believed, to either of the accounting officers of the State, until that which was presented by the agent to the Governor on July 21, of the present year, and to those officers the subsect a few days afterward. And why, it will plained, naturally be asked, this failure to report? The following facts, supply the answer to this question. During the years 1868 '69 and '70, the agent had conversations with the Governor several times respecting the claims of the State. In those nterviews he stated the difficulties in the way of establishing the validity of the still unsettled portion of the claims that had been filed by Col. M'Michal, that he was doing his utmost to obtain the needed additional proofs, and hoped, with time and patience to succeed. And when in 1870 he had filed several installments of new claims, amounting in all to \$1,058,798.86—previous conversations on the general subject were, in substance. repeated, relating to the difficulties oxperionced in obtaining satisfactory certificates, the necessity of time and earnest effort; and as a special reason for the Executive, and for his refraining from any public official allusion to the subject, the agent alleged the following facts:

All the loval States, he said, had claims against the General Government. \$3,737 77 able and true and the Governor, at that tleman's car, and goes on about his husi- to this salary, each sovereign is furnished These sums added to that of \$120,070. time, having had no cause to doubt the ness ! and regret. This letter is already too long, but I daily who have any idea of the amount cannot close without inviting special

attention to the following facts and circumstances as herein disclosed: 1. That the reports, agreement and ton, we cannot appreciate the intricacy of detail. It is said that a man worked two whole months in engraving the head of Columbus on the back of \$5 greenbond exacted of the agent, though not required by the law, were evidently intended to supply manifest defects in the

backs. This seems like a somewhat improbable story, but it is doubtless true.
