## INFORMATION FOR OUR FRIENDS.

The Voter has tried its hand at figures, has become somewhat modified, and has applied to the Herald for information as the following will show:

"It is the great boast of Grant's administration that the public debt has been reduced about two hundred millions of dollars, in the two and a half years that he has been in office. But the radicals are not entitled to any credit, for the people reduced the debt by paying taxes for that purpose. The people ought to be thankful, however, that the radicals have not reduced the debt by paying taxes. During the time Mr. Grant has been in office, there have been paid into the United States Treasury, mostly from taxes, \$1,100,000,000. Admitting that \$200,000,000 have been appropriated towards paying the public debt, what has gone with the other \$900,000,000? Can the Carlisle Herald answer this question?"

First, it is necessary to get the figures about correct. The Treasury did not receive \$1,100,000,000 in two years and a half. The amount received was but little over \$1,000,000,000. The amount of debt paid was \$250 millions, instead of 200 millions. This sum is very important, still we think 150 millions is an item that should not be discarded in a calculation. There would then be about 750 millions to account for which were disbursed for the following purposes:

For the sake of brevity we will state the amounts in round numbers. There were paid for interest on the debt of the nation, during that period, some 320 millions, for pensions about 75 millions, for bounties about 15 millions, increased expenses of army and navy some 70 millions more. These items it will be remembered are the most results of the late rebellion, in which the Democratic party was somewhat conspicuous. These items make an aggregate of 480 millions of dollars, which leave about 270 millions of dollars to be accounted for. A scrutiny of the smaller items in the Treasury will show at least 50 millions more paid out for different objects connected with the settlement of the rebellion, leaving not more than 220 millions, which are not directly chargeable to the treason of the Democratic party.

But what was done with this 220 millions our neighbor's ask. It was used to pay the ordinary and necessary expenses of the government. But is this not tolerably strong? Perhaps it may be, and perhaps not; the question can only be determined by comparison. For ordinary expenses, Gen. Grant's administration for thirty months has expended at least 50 millions more paid out for different objects connected with the settlement of the rebellion, leaving not more than 220 millions, which are not directly chargeable to the treason of the Democratic party.

That place is in population, not more than four-fifths that of the territory covered by Grant's administration, and in territory has about one acre to fifty thousand of the National domain. Gentlemen, who care to draw comparisons concerning the relative costs of Republican and Democratic administrations, satisfy themselves that the Democratic party has not expended any other information concerning missing funds?

The New York fund business has been exceedingly lively within the last week. Judge Barnard has granted a permanent injunction, restraining the Tammany thieves from stealing by the usual processes—collecting taxes and issuing bonds. Controller Connelly has had the misfortune to have his office broken open and vouchers and warrants stolen to the amount of \$10,000,000. This no particular loss, however, to any one, only that it prevent the discovery of the confederates of the National domain. Hall has removed Connelly from office, and has written a letter to General McClellan urging him to accept the Controllership for the purpose of restoring confidence to the people and "preserving order." Thus the thing goes on. Every day shows that the funds have been hidden, the thefts more enormous, and the thieves more abundant in that terrible city government, than even the most bitter of their enemies has heretofore charged. Hall appears to be fearful that the people will overturn the government by force, unless something is done to restore confidence—hence his frantic letter to Gen. McClellan. What a magnificent fraud Democracy is to be sure.

GRANT'S administration has paid 250 millions of the National debt in two years and a half. This saves the nation annually FIFTY MILLIONS of dollars. The funding of the new loan so far as it has now gone makes an additional saving of two millions of dollars per annum. SEVENTEEN MILLIONS of dollars saved yearly is too large an item to the people to be disregarded. VOTE THE REPUBLICAN TICKET.

A Republican administration gives strength, honor and credit to the nation at home and abroad. A Democratic administration endangers our home interests, involves us in foreign difficulties, diminishes our credit, and, worst of all, involves the country in complete ruin. Can any patriotic man give his support to the Democratic party, when these things are known?

On Thursday last week, Judge Graham passed sentence on John Harris, one of the County Commissioners, who was convicted at the last court. The sentence was that he should be removed from office, and that he should pay a fine of \$100 and the costs. The fine will be paid, of course, and then the county will be whole—of a very small item, of the large amounts which have been squandered and stolen by the Democratic Commissioners of Cumberland county. It is not possible, and does not seem well informed man believe, that this is the only population committed in that office. At least, three other gentlemen in Cumberland were equally guilty with Mr. Harris, in the transaction which his sentence is supposed to atone for. Why, then, they have not been punished for?

The steady stream of Republican success, which, sitting in with Connecticut, has since flowed without interruption, has not been checked in its onward flow by a Republican defeat in Pennsylvania. We owe it to our friends in the States, which have so gallantly upheld our banner to stand by them, and keep Pennsylvania in the phalanx of Republican States.

We can do this only by cultivating a spirit of union and harmony, keeping up our local organizations actively, and working steadily and with a will to bring out every Republican vote. Everything depends upon organization and work. Our intelligence from all parts of the State is cheering and encouraging. All that is wanted now is a little close attention to the details of local organization. No political victory was ever won without attention to these details, and we rely upon your spirit, energy, and zeal to carry them out systematically, and render them effective.

Let the Republicans of the State be true to themselves and true to their cause, stand firmly by their State nominees and local tickets, and put their ward and township committees into vigilant activity, and we shall be able to send back to the State a full and fair representation of the Republican States a response as cheerful and gladdening as their messages of triumph have been to us.

THE Philadelphia policemen have been called upon for their contribution to the Democratic corrupt fund of the State. One hundred thousand dollars is to be collected from these gentlemen. This sum is a very important item in the Democratic Treasury, and secure a repeal of the Registry Act for Philadelphia, which will enable Bill McMillin and his gang to seize upon that city, as Tweed and his friends have seized upon New York. The poor policemen will be obliged to contribute to the support of the Democracy this time.

GEN. McCANDLESS declared some years ago that the post of honor was the private station. The people propose not to interfere in any way with a position which he means to exert, to show a private citizen and will so remain.

WHEN you wish to put a Democrat in a good humor, just ask him about the majorities in California, Maine, Wyoming and Colorado. If this has not the desired effect, ask him how he likes the "New Departure."

WE are informed that the County Commissioners still persist in giving out public work privately and without allowing any competition for it. How long will it take these gentlemen to learn?

A FULL vote in Pennsylvania next October, means a tremendous victory. Our majority will be counted by the figures of 1893 and 1896. It should be by those of 1890.

LET no Republican fail to have himself registered this week. Another week remains, of course, but delays are always dangerous.

THE Democratic Senatorial conference is still in session in Mechanicsburg, and have not yet made a nomination.

JUDICIAL CONFERENCE.  
The Judicial Conference of the Ninth Judicial District, composed of the counties of Berks, Lehigh and Schuylkill, met at Bridgeport, on Tuesday, the twelfth instant, for the purpose of nominating a candidate for the office of President Judge.

Both these victories show us the value and the necessity of thorough organization. They ought to inspire us with the most ardent zeal, and with a determination to imitate the example so worthily set us. We appeal to you, therefore, to be joining on the victory of your brethren elsewhere, to do as they have done, and secure by your systematic labors a victory as complete as theirs.

not be improved. There were three registers to supervise these lists, three inspectors to receive the votes, and three canvassers to count them. One of each of these boards was a Republican, and could stop all frauds if he pleased, but as the parties to be defeated were only those Democrats who were opposed to Tammany he shut his eyes with resolute determination. To begin with, gangs of repeaters were organized whose first duty was to have their names recorded in as many districts as possible, usually from a dozen to fifty; and it was curious with what childlike innocence the Republican register would receive the names of 100 men who assumed to reside at the private dwelling of some leading Tammany Ward politician, and who were ended to camp off on some vacant lot. The repeaters are enrolled, and I have had lists of them offered to me for sale at so much a vote when Tammany did not need them.

On election day these men went to the poll with gangs with their names, and marched from district to district like companies of soldiers. If one of them was challenged, the result depended upon the locality; in a respectable neighborhood, the challenger was knocked into the gutter, and probably locked up by the police for disturbing the polls. In a district where this would not answer, the accused was taken before the magistrate who sat all day to hear just such cases, and who let him out at once on bail, the necessary bail being set on hand for the purpose, and the repeaters went their way. Let the repeaters be assured that young men, who are not to be trifled with, have been through classical instruction. Mr. Hall's residence is at No. 70 South West street.

THE "RINGING" DOZEN.  
The manipulation of ballots—"Ringing" the ballot, as it is appropriately called—is a very beautiful operation, and is said by those who have tried it to be perfect. It is the now favorite plan, it is simple, inexpensive and effective. When one of your good innocent Republicans, we will suppose, is going to the polls to vote the wrong ticket or support the wrong man, as you are so fond of doing, your friends will be quick to assist him. The inspector holds in his hand the ballot you ought to deposit, and drops yours on the floor before he puts his in the box. This is a simple sleight-of-hand trick, easily learned and readily applied. If, however, you are suspicious, and watch the official, if the ballot is dropped, and you see it, or if a policeman seizes you and accuses you of having voted before. Of course ample apologies are immovably tendered for the audacity, the inspectors are indignant that so respectable a gentleman should be so indiscreet, and the rough or the policeman, who are about the polls, are great respect; but your ballots went down on the floor and the substituted got into the box. Repeating is expensive, false counting is troublesome, our Tammany men are not expert at arithmetic, and all figures are often troublesome, so our amiable Controller will accept of the "ringing" of ballots as a complete remedy. It is only necessary to buy a Republican inspector, and a small place or a few hundred dollars will usually do that.

FALSE COUNTING.  
The third plan is false counting. This is done generally by suffering the figures to be counted by a person connected with the Tammany party. If the Tammany candidate gets 100 votes, and Smith the opposition candidate receives 200, the 200 of Smith are transferred to Jones, who gives his 100 to Smith. This is an exquisitely simple process, but in great measure it is said to be a "ringing" of the vote. The Tammany party is not a political matter, we are informed, but a matter of "ringing" of the vote. It is only necessary to buy a Republican inspector, and a small place or a few hundred dollars will usually do that.

POLICE THIEVES.—Some hands on the following police items: A boy named Bell, was arrested on Monday, and placed in jail, for filling the boxes of 8 cars, belonging to Mr. Holmes Blair, with sand. Had it not been discovered in time, and the cars been placed upon the road, they might have been burned to ashes, by reason of the boxes becoming heated. He has since been released.

Rev. Ogden, residing on the corner of North and Bedford streets, had a valuable gold watch stolen, on Monday last. The thief has not been arrested.

Between 8 and 9 o'clock on Saturday evening last, some thief or thieves entered the residence of Mr. J. A. Smith, residing on North Hanover street, and stole a double-barreled gun, gun accoutrements and a valuable pair of boots. The barrel of the gun was very bright, and not bronzed as guns usually are. Perhaps some person had been in the house, and had borrowed the gun. Officer Sams is gunning for him.

PHILADELPHIA.—Three houses were burned on the line of the C. & P. R. R., on Saturday morning last. The following particulars of the affair have been given us: Between 8 and 9 o'clock, on the morning of Saturday, the residence of Mr. P. J. McGee was burned, and the burning spread around for a considerable time. The alarm was given, and the firemen arrived, but they were unable to do much. The house was a large one, and was filled with furniture. The fire was very hot, and the smoke was very thick. The firemen were unable to get near the house, and the fire spread to the other houses. The houses were burned to the ground. The fire was very hot, and the smoke was very thick. The firemen were unable to get near the house, and the fire spread to the other houses. THURSDAY, SEPTEMBER 24, 1871.

SEE that you are Registered.  
COMING—Thanksgiving.  
HENS—Moonlight nights.  
JACK FROST will soon be making frequent visits.

A LARGE number of persons from this place are in attendance at the State fair this week.

THE LAST—"Just as well and as hearty as ever she is in her life."  
JAMES D. BENT, executor of James Dunlap, deceased, will sell at public sale, on the premises, on Wednesday, October 13, 3 miles south of Newville and 3 miles west of Mount Rock, 100 acres of good limestone land.

APPOINTED.—Moses Bricker, esq., of this borough, the candidate for Commissioner on the Democratic ticket, has been appointed by Judge Graham, to fill the vacancy created by the removal of Mr. John Harris.

A MEETING of the Cumberland Valley Emigration Society will be held in the Good Will Hall, on Saturday evening, the twenty-third instant. Business of importance will be transacted, and the agent of the Society from Nebraska will deliver an address.

ALL voters must be registered ten days previous to the election. It is of the most vital importance, therefore, that all Republican voters are registered by this time. Next Saturday week, the thirtieth instant, is the last day on which this important duty can be attended to. See that your County neighbor has attended to this duty.

VOCAL AND INSTRUMENTAL MUSIC.—We are requested to state that Mrs. C. T. Hall, will receive pupils for vocal and instrumental music, the latter including piano, organ and harp. Mrs. Hall was formerly a pupil of Purcell, and has had for several years superior advantages in the study of music. She is a young lady, well educated, and receives thorough classical instruction. Mrs. Hall's residence is at No. 70 South West street.

RAILROAD COMPANY ORGANIZED.—We inadvertently gave notice of the organization of the York Springs, Olliburg and Mechanicsburg Railroad two weeks since, by the election of the following named officers: President—Hon. Frederick Watts; of Carlisle; Secretary—Hon. J. M. Biddle, esq., of Carlisle. The following gentlemen now constitute the Board of Directors: Messrs. George L. Shearer, C. Bender, Harry McCormick, Thos. B. Bryson, Henry C. Moser and E. M. Biddle. Mr. C. A. Arms, Chief Engineer of the road, has informed us that work will commence on Saturday next.

HOUSE STOLEN.—On Saturday morning last, a valuable man belonging to Mr. Benjamin M. Jones, of Shermansburg, Cumberland county, was stolen from the shed attached to Hall's hotel. Mr. Jones had placed the animal in the shed for feed, and shortly after it was taken from thence, without leave or license. Upon missing the animal, the owner placed a warrant in the hands of Officer Sams, for the arrest of the thieves. A short time after the animal was discovered in a stable in the neighborhood of the borough, and returned to the owner. It is said to have been stolen by two colored lads, who were desirous of attending ball meeting on the following day, and were opposed to pedestrianism.

STILL NEIGHBOR.—A great many inquiries have been made of late, regarding the neglected edition of the Court House square. The Monument Committee refrained from soliciting subscribers, and the impression that the gentlemen who owned the property would, at last, fix up the square in an appropriate manner to correspond to the Monument erected there. This is no political matter, we are informed, but a matter of "ringing" of the vote. It is only necessary to buy a Republican inspector, and a small place or a few hundred dollars will usually do that.

THURSDAY, SEPTEMBER 24, 1871.

A LARGE crowd of persons were in attendance at the bush meeting near Springville, on Sabbath last. The best of order was observed.

MR. CHARLES H. SMILEY, formerly of this place, but at present a resident of New Bloomfield, paid us a visit the present week.

IT is confidently expected that the Knights of St. Crispin, and all other employees of the Carlisle Shoe Factory Company will move into their new building, to-morrow, (Friday). We will give a full description in a subsequent issue.

VIOLATION OF AN ORDINANCE.—Every day we notice owners of vehicles, both town and country, violating an important ordinance, prohibiting the obstructing of crossings and sidewalks. We have repeatedly called attention to this fact, and yet it is daily violated. As it is an ordinance, and appears as such in the minutes of the proceedings of the Town Council, it is the duty of the High Constable to arrest every person violating the same, and see that its penalties are enforced.

MUSICAL.—What has become of the Carlisle Brass Band? We have not heard or seen anything of it for several months past. Carlisle has, certainly, our music-loving citizens, and enough to have, at least, two good bands. We would suggest the propriety of some young men, say from 18 to 25 years of age, forming themselves into an organization of this kind. We feel assured that it would not only be appreciated by our music-loving citizens, but would, in the course of time, also prove of great benefit to the members thereof, in a financial point of view. Let us have one good band, anyhow.

CHILD BURNED.—On Sabbath afternoon last, a little child of Mrs. Rose (colored), residing on Chapel alley, was burned severely. The little thing, about a year and a half old, it appears had been left in the house alone. A short time had elapsed, when the neighbors were alerted by screams from the child, when it was discovered to be in flames. The fire was extinguished, and medical aid immediately summoned, and everything done to relieve the little sufferer, but death put an end to its sufferings on the following day. It seems that the child had been playing with a box of matches, and from them its clothes had been ignited. Parents cannot exercise too much care over their children in this respect, as we have been called upon several times to chronicle the death of children from having access to combustible articles.

EXTENSIVE ESTABLISHMENT.—Having been notified by a person, residing at Lancaster, we visited the former establishment, Messrs. Wylie & Grist, editors and proprietors. We had often heard of the amount of work executed at this place, but we little expected to witness what we did. Owing to the increased business, the establishment had made an addition of 50 feet to the office. The building is five stories in height, and about 150 feet in length, making it, no doubt, the largest printing house in the State. To give some idea of the great amount of work "turned out," we will state that the Eastern city of Philadelphia morning paper, to say in his usual supply of Fall goods. Persons desirous of procuring bargains during the fair would do well to visit his establishment. Look out for new announcements in the next issue.

PAIRS.—In order to liquidate the debt incurred by the Union Fire Company in the purchase of a new steamer, the company determined to hold a fair during the month of December.

THE Cumberland "boys" will, also, hold a fair during the holidays, for a similar purpose. A valuable piece of ground and a horse are among the things to be "given away." Good citizens will be called upon in due time to contribute articles, and as there has been no fair for a couple of years, they will, no doubt, contribute liberally.

SUNDAY SCHOOL CONVENTION.—The Sabbath School of Churchtown, this country, will hold a Sunday School Convention in the Lutheran church of that place, on Sunday, October 8, exercises commencing on the evening previous. Efforts are being made to obtain the services of eminent Sunday School men for the convention, and the grand parade will come off to-day. A number of our citizens, members of the city and others, have left for Baltimore during the week.

THE FAIR.—A little over two weeks elapsed since the opening of the exhibition, and every manufacturer, mechanic and artist in the county to have some specimen of his handiwork on exhibition. Not only for the benefit which will accrue to his business, by presenting his name and art before so large a crowd as will be attending the exhibition, but also for the promotion of the cause of the Fall of 1871 totally eclipse any ever before held in this country.

ROUND THE WORLD.—For the information of persons desirous of taking a trip around the world, we would inform them, that the entire distance is about 23,636 miles. It would take about 78 days to make the circuit of the globe. The entire trip would not cost over \$1,000 in currency, and with a small additional expense, the traveler could visit the principal cities of Japan, China, India, Egypt, Italy, Spain, France and England. We would have no objections to taking a journey of this kind, providing we were furnished with a pass, and some kind friend to defray our expenses.

COUNTY FAIR.—As has been customary since the inauguration of agricultural fairs in this country, the Fourteenth annual exhibition will be held in this place during election week—the twelfth and thirteenth days of October. From the efforts being put forth on the part of the managers, we are led to believe that this will be one of the most successful fairs ever held in this Valley. The grounds have been prepared for the exhibition, and the fair will be held in the afternoon, was anything but encouraging, as 84 grown persons and about 100 children made up the audience. But this was a very small crowd, and was not a fair representation of the average of the fair. COAL has advanced 35 cents per ton since our last issue. Flour, also advanced 25 cents per barrel, during the past week. It now sells at \$7.25 per barrel.

TITMOU SOLZMAN, the elephant attached to Handenberg & Co's Circus, made an inefficient attempt to enter the barroom of the Cumberland Valley Hotel, on Friday last. He was prevented from doing so by his keeper.

MR. JOHN THOMPSON, proprietor of this borough, showed us an apple, the other day, that weighed 20 ounces. It was taken from a tree on Mr. T's lot, and will sell household and kitchen furniture.

THE AMERICAN NEWSPAPER REPORT, by George P. Rowell & Co., of New York, makes its welcome appearance regularly every Monday morning. It is a full and interesting information, of untold value, not only to beginners, but to disciples of the "art preservative" generally.

COLLARS, NECKTIES, &c.—Mr. James P. Neff, No. 23 West Main street, extends his compliments to a generous public, and announces that he has just received one of the most handsome collections of neckties, ever brought to this town. An endless stock of collars, T. bacco and segars a specialty. Ned, his popular clerk, is always in attendance.

THANKS.—Mrs. Wetzel, landlady of the Franklin House, will accept the thanks of the employees of THE HERALD office, for several pitchers of sweet oil. In the language of the poet, we would say, "A little more oil, too, we would say." Mr. George Wetzel, of the Franklin House, also, surprised us with a dozen of interesting cards. They were heartily enjoyed by the employees of OUR OFFICE.

A NUMBER of young ladies and gentlemen purpose giving an entertainment at Rheem's Hall, in this borough, on Friday evening next, the twenty-second instant. The performance will consist of *tableaux vivants*, and other interesting scenes. Price of admission 35 cents, on tickets admitting two children under 12 years of age.

WE would caution our readers to be on their guard against a coarsely executed counterfeit ten dollar bill, which is being extensively circulated at the present time. The poor printers need not be cautioned, as their eyes are so unaccustomed to the sight of currency, that it is not to be supposed that they can distinguish between genuine and counterfeit money.

DISOLUTION OF PARTNERSHIP.—By reference to the *n* advertisements, it will be noticed that a person, residing at Spangler, boot and shoe merchant, has been dissolved by mutual consent. Mr. Spangler, retiring from the firm. The business will hereafter be conducted by Messrs. David Strubm and J. W. Strubm, under the firm name of Strubm & Co. They solicit a share of the public patronage.

LEFT.—Mr. J. H. Wolf, the popular and enterprising wholesale and retail merchant on North Hanover street, left for the Eastern city on Wednesday morning last, to say in his usual supply of Fall goods. Persons desirous of procuring bargains during the fair would do well to visit his establishment. Look out for new announcements in the next issue.

A number of our citizens, members of the city and others, have left for Baltimore during the week.

MR. AVERETT, of Philadelphia, Illinois, paid us a visit yesterday forenoon.

JAMES D. REA, administrator of Wm. Dunlap, deceased, will sell at Orphan's Court sale, on the premises, three miles south-east of Newville, and two miles west of Mount Rock, 144 acres of excellent limestone land. On Tuesday, October 17, 1871.

The guardians of the minor children of Joseph Rhinohart, deceased, will sell at public sale, on the premises, in Boiling Springs, two lots of ground. Also, at the same time and place, Alfred Rhinohart, administrator of said deceased, will sell household and kitchen furniture.

CROWDED OUT.—Owing to the crowded state of our columns, several communications, and an account of a recent trip to Puno Grove, are unavoidably crowded out.
