Hoofand's German Medicines. ONE MILLION OF LIVES SAVED!

It is one of the remarkable facts of the remarkable ago, not—merely that to many persons are the victims of dyspepsia or indigestion, but its willing victims. Now, we would not be understood to say that any one regards dyspepsia with flavor, or focial disposed to reak it among the inxuries of life. Far from it. Those who have experienced its forments would securize the late. All dread it, aim would gladly dispense with its unpleasant fundiarities. Mark Tapley, who was folly under all the trying circumstances in which he was placed, never had an attack of dyspepsia, or his joility would have speedily forsaken him. Men and women sometinics suffer its tortures uncomplainingly, but whoever—heard of a person who enjoyed them?

Of all the multifactions diseases to which the human system is Lable, there is perhaps no one so generally prevalect as dyspepsia. They are diseases more acute and paioful, and which more frequently prove fatal; but none, the effects of which are described to the healy. If there is a wretched leding in the world it, is

A CONFIRMED DYSPEPTUC.

But it is not our intention to descant on the horrors of Dyspepsia. To describe them truthfully is siziply an impossibility but it is possible to point cut a remody. We have said that dispopsia is porliaps the most universal of human diseases. This is emphatically the case in the United States. Whether this general prevalence is due to the character of the food, the method of its preparation, or the heaty manner in which it is usually swellowed, is not our province to orphain. The great fact with which we are called, to deal is this:

DYSPEPSIA PREVAILS

almost universally.

Nearly every other person you meet is a victim, an aparently willing one; for were this not they are they so many sufferers, when a certain, speedy and safe remedy is within the easy reach of all who desire to wall themselves, of it? But the majority will not. Blinfed by the prejudice, or deterred by some other unexplained influence, they refuse to accept the relief proffered them. They turn a dear car to the testimony of the thousands whose sufferings have been alleviated, and with strange infatuation, appear to cling with desperate determination to their ruthless tormentor. But says a dyspeptic what is this remedy to which we reply: This great alleviator of human suffering is almost as widely known as the English language. It has allayed the agenies of thousands, and is to-day carrying comfort and encouragement to thousands of others. This acknowledged paraneae is none other than

DR. HOOFLAND'S GERMAN-BITTERS. -

nest of all, that HOOPLAND'S GERMAN BITTERS is not a run beverage.

They are not alcoholic in any sense of the term. They are mot alcoholic in any sense of the term. They are camposed wholly of the pure judge or vital principle of roots. This is not a more assertion, the extracts from which they are compounded are presented by one of the ablest of German chemists. Chikk any other Bitters in the market, they are wholly free from spirituous ingredients. The objections which hold with so much force against preparations of this class, namely—that a desire for intoxicating drinks is stimulated by their use, are not valid in the case of the German Bitters. So far from encouraging or inculeating a taste or desire for inchriating beverages, it may be confidently asserted that their tendency is in a diametrically opposite direction. Their effects can be irst of all, that HOOFLAND'S GERMAN BITTERS

In all cases of the billary system. Hoofland's German Bitters stand without an equal, acting promptly and agorously upon the later; they remove its property of the property o

cleaning the vital fluid of all hurtful impurities and sopplanting them with the elements of genuine healthfulness. In a word, there is scarcely a dis-case in which they cannot be safely and beneficially employed; but in that most generally prevalent distressing and dreaded disease, Dyspepsia, THEY STAND UNRIVALED.

DR. HOOFLAND'S GERMAN TONIC

has been secually prepared. It is intended for use where a slight alcoholic stimulant is required in connection with the well known Tonic properties of the pure dietuman Bitters. This Tonic contains all the ingredients of the Bitters, but so diavored as to remove the extreme bitterness. This preparation is not only palatable, but combines, in modified form, all the virtues of the Gorman Bitters. The solid extracts of some of Nature's choicest restoratives are held in solution by a spirituous agent of the purest quality. In cases of languor or excessive debility, where the system appears to have become exhausted of its energies.

acts with almost marvelous effect. It not only stimulates the flagging and wasting energies, but misjorates and permanently strengthens its action upon the Liver and Stomach thorough, perhaps less prompt than the Bitters, when the same quantity is taken is none the less certain. Indigestich, Billionsness, Physical or Narvous Prostration, yield realily to its potent inducence. It gives the invalid a new and stronger hold upon life, removes depression of spirits, and impires cheerfulness. It supplants the pain of discase with the case and comfort of perfect health. It gives streight to weakness, throws despondency to the winds, and starts the restered invalid upon a new and gladsome career. But Dr. Hoofman's benefactions to the luman race are not confined to his relebrated.

stimulating its functions and causing to make its billiary secretions in regular and prefer quantities. The injurence results which invarious follow the near of mercury is entirely avoided by that mae But it is a tupon the Liver only that their powers are extract. The extract of Mandares contained in them is ski itally combined with four other extracts; one of which acts upon the stomach, one upon the upper, lawyls, one, upon, the lower bowels, and one provopts from griding effect, thus producing a pill that influences the entire digestive and admentary systemyth an equal and harmonious manner, and its agilob entirely free-from nausey, comiting or griding pains common to all other purgatives.
