WONDERFÜL MACHINE! Mrs. Wm. Fridley, is the Agent at Carlisle, for the Franz & Pope knitting machine, manufactured at Bucyrus, Ohio. This machine has taken the premiums and diploma at every State and County fair, where it has been introduced. It has been in competition with every other knitting machine in the market, and has in every case won the laurels. It is cheap-simple and durable, any child can operate it with perfect case. It is no complicated machine, therefore is not liable to get out of order as other inventions of this kind. A sock knit, heel and toe complete, without the first of January, 1872. If not attaking it off the hooks, in seven minutes. H. D. Lee & Co., York, Pa., are the General Agents for Ohio, Pennsylvania, Maryland and Virginia. 2no713t

LEIDICH & MILLER. CHEAP COAL FOR THE FALL TRADE.

The undersigned respectfully announces to the public, that he is furnishing Coal to families and limeburners at 50 cents réduction on current market rates in Cumberland county.

When we commenced shipping Coal to this market in February, 1870, coal dealers were averaging \$1.50 to \$2.00 per ton profit on their sales. This percentage was deemed exorbitant. Complaints were made that the coal was badly screened, and deficient in weight.

Shortly after we commenced the sale of coal, there was a collapse in the price

It is one of the remar able facts of this r-mark, able age, not factely that su maty p races are the victims of dyagenda or indigestion, but is will ing victims. Now, we would do be understood to bay that any one regards dyapopsia with favor, or feels disposed to rank it among the luxur's of hie. Far from it. Those who have experienced its torments would scout such an Idea. "All dread it, and would gladly dispense with its unpleasant familiarities. Mark Tapley, who was jolly under all the trying circumstances in which he was placed, never had an attack of dyapopsia, or his follily would have speedily forsaken him. Men'and women sometimes suffer its tortures uncomplainingly, but whoper heard of a person who enjoyed them?

Of all the multifarious diseases to which the human system is liable, there is perhaps us one so generally prevalent as dyapopsia. There are diseases more acute and pathful, and which more frequently prove fatal; but ione, the effects of which are so depressing to the mind and so positively distressing to the body. If there is a wretched being in the world it is

ONE MILLION OF LIVES SAVED!

A CONFIRMED DYSPEPTIC.

But it is not our intention to descant on the hor-rors of Dyspensia. To describe them truthfully is sim-ply an impossibility, but it is possible to point out a remody. We have said that dyspepsia is perhaps the most universal of human diseases. This is em-phatically the case in the United States. Whether this general prevalence is due to the character of the food, the method of its preparation, or the hasty manner in which it is usually sawilowed, is not our province to explain. The great fact with which we are called to deal is this:

DYSPEPSIA PREVAILS

almost universally.

Nearly-very other person you meet is a victim, an apparently willing one; for wore this not the case, why so many suffergrs, when a certain, speedy and safe genedy is within the easy roach of all who desire to avail themselves of it? But the majority will not. Blinded by the prejudice, or deterred by some ther unexplained inducace, they refuse to accept the relief profered them. They turn a deafeur to the testimony of the thousands whose sufferings have been alleviated, and with strange infatuation, appear to clig with desperate determination to their ruthless tormentor. But says a dyspeptic: What is this remedy to which we reply; This great alleviator of human suffering is almost as widely known as the English language. It has allayed the aconies of thousands, and is to-day carrying confort and encouragement to thousands of others. This acknowledged panaceu is none other thin

DR. HOOFLAND'S GERMAN BITTERS.

LET IT BE REMEMBERED.

first of all, that HOOPLAND'S GERMAN BITTERS is not a run beverage.

They are not alcoholic in any sense of the term. They are not alcoholic in any sense of the term. They are composed wholly of the pure jude or vital principle of roots. This is not a mere assortion. The extracts from which they are compounded are pre ared by one of the ablest of German chemists. Unlike any other Bitters in the market, they are wholly free from spirituous ingredients. The objections which hold with so much force-fagainst preparations of this class, namely—that a desire for intoxicating drinks as stimulated by their use, are not valid in the case of the German Bitters. So far from encouraging or inculeating a tasts or desire for inculrating beverages, it may be confidently asserted that their tendency is in a diametrically opposite direction. Their effects can be rst of all, that HOOFLAND'S GERMAN BITTERS SHORT PROFITS. THE STORE to get a Fine Shawl,

Hoofland's German Batters stand without an equal, acting promptly and vigorously upon the Liver; they remove its torpidity and cause healthful secretion of bilective by supplying the stomach with the most indipensable elements of sound digestion in proper proportions. They give tone to the stomach—stimulating its functions, and enabling it to perform its duties as nature do igned it should do. They impart a light and strength to the unite system, causing the patient to feel like another being—in fact, giving him a new lense of life. in all cases of the billary system. Hoofland's German Bitters stand without an equal, acting promptly

cleansing the vital fluid of all hurtful impurities and s. pplanting them with the elements of genuine he dithfulness. In a word, there is scarcely a di-ease in which they cannot be safely and beneficially employed; but in that most generally prevalent distressing and dreaded disease, Dyspepsia, THEY STAND UNRIVALED.

Now, there are certain classes of persons to whom extreme Bitters are not only unpalatable, but who find it impossible to take them without positive dis-omitort. For such nanufacturers and importers, and can DR. HOOFLAND'S GERMAN TONIC

Ims been specially prepared. It is intended for me where a slight alcoholic stimulant is required in connection with the well-known Toole properties of the pure German Bitters. This Tonic contains all the log-cellents of the Bitters, but so flavored as to remot a the extremo bitternass. This preparation is not only palatable but combines, in modified form, all the virtues of the German Bitters. The solid extracts of some of Nature's choicest restoratives are held in solution by a spirituous agent of the purest quality. In cases of languor or excessive debility, where the system appears to have become
