Dr. Auers' Medicines. AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD!

FOR PURITYING THE ELOOD!

The reputation this excellent medicine onjoys, is derived from its cures, many of which are truly marvelous. Inveterate cases of Serondules discase, where the system seemed saturated with crypition, have been purified and cured by it Scratulous affections and disorders, which were signarated by the scrothous contamination until they were painfully afflicting, have been radically cared in such great numbers in almost every section of the country, that the public screedly need to be informed of fits virtue sor uses.

Scrothous polson is one of the most destructive enemies of our race. Offan this discense and usfelt tenant of the organism undermines the constitution, and invites the attack of eucliebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to broad intection troughout the body, and then, but some hyorable occasion, rapully develop into one of other of its hideous forms, either on the surface or among the vitais. In the later, tuberless may be studiently deposited in the lungs or heart or antens formed in the langs or heart or autors formed in the skin or foul ulcars Lassor's and part of the body. Hence, the great weak use of a bottle of this Sirsaparilla, is satisfable, even when no active symptems of disease spaces. Persons, afflicted with the to-diowing complaines generally four immediate relations of the satisfactions of the more concealed forms, it Dyspeysia Drepsy, Heart Devene Fits, Entry, Naturation, and the noise concealed forms, it Dyspeysia Drepsy, Heart Downs Fits, Entry, Naturation, and the nervous Systems.

It is one of the remarkable facts of this remarkable age, not merely that so many persons are the victims of dyspepsia or indigestion but it willing, the state of the control of the cont

A CONFIRMED DYSPEPTIC.

But it is not our intention to descant on the horrors of Dyspopsia. To describe them truthfully is simply an impossibility, but it is possible to point out a romedy. We have said that dyspopsia is porings the most universal of human diseases. This is emphatically the case in the United States. Whether this general prevalence is due to the character of the food, the method of its preparation, or the hasty manner in whi. In it is usualty swallowed, is not our province to explain. The great fact with which we are called to deal is this:

DYSPEPSIA PREVAILS

almost universally.

Nearly every other person you meet is a victim, an apparently willing one; for were this not the care, why so many sufferers, when a certain, speedy and safe remodely is within the easy rouch of all who desire to avail themselves of it? But the majority will not. Blindest by the prejudice, or deterred by some other unexplained influence, they refuse to accept the relief profiered them. They turn a deaf car to the testimony of the thomsands whose sufferings have been sileviated, and with strange infastation, appear to eling with desperate determination to their ruthless tormentor. But says a dyspeptic: What is this remedy! to which we reply: This great alleviator of human suffering is almost as widely known as the English langrange. It has 'allayed the agonics of thousands, and is to-day carrying conflort and encouragement to thousands of others. This acknowledged panacea is none other than

DR. HOOFLAND'S GERMAN BITTERS.

Would you know more of the merits of this won-derful medicine that can be tearned from the experi-ence of others? Try it yourself, and when it has failed to fulfil the assurance of its efficacy given by the proprietor, then abandon faith in it.

first of all, that HOOF LAND'S GERMAN BITTERS is not a rum beverage.

They are not alcoholic in any sense of the term. They are composed wholly of the pure juice or vital principle of roots. This is not a mere assertion. The extracts from which they are compounded are pre ar-d by one of, the ablist of German chemists. Unlike any other Bitters in the market, they are wholly free from spirituous ingredients. The objections which 'hold with so much force against preparations of this class, namely—that a desire for intwicating drin's is stimulated by their use, are not valid in the case of the German' Bitters. So far from encouraging or inculating a tasts or desire for individual beverages, it may be confidently asserted that their tendency is in a diametrically opposite direction. Their effects can be SHORT PROFITS.

BENEFICIAL ONLY

in all cases of the billary system. Hoofland's German Bitters stand without an equ' I, acting promptly and vigorously upon the Liver; they remove its torpidity and cause healthful secretion of biletweeply supplying the stomach with the most indispensable elements of sound depection in proper proportions. They give tone to the stomach—stimulating its functions, and enabling it to perform its dutties as nature designed it should do. They inhart vigor and strength to the entire system, causing the patient to feel like another being—in fact, giving him a new lease of life. THEY PURIFY THE BLOOD,
