SUPERFINE RIB FLOUR. A DMINISTRATOR'S NOTICE. SIMILIA SIMILIBUS CURANTUR. call soon, our shelves are thinning out. Humrich's. It is one of the remarkable facts of this remarkable age, not merely that so many persons are the victime of dyspopsia or indigestion, but its willing intims. Now, we would not be understood to say that any one regards dyspepsia with favor, or feels disposed to rank it among the inxuries of life. Far from it. Those who have experienced its torments would scout such an idea. All dread it, and would gladly dispense with its unpleasant familiarties. Mark Tapley, who was jolly under all the trying circumstances in which he was placed, never had an attack of dyspepsia, or his joility would have speedly foraken him. Men and women sometimes suffer its tortures uncomplaintigly, but whoever heard of a person who enjoyed them!

Of all the multifarious diseases to which the human system is liable, there is a whole the season one so generally provalent as Grand which has a complete the control of the body. If there is a wreiched being in the world it is HUMPHREYS cont.

Aggregate amount of bonds of county intelliced's ness outstanding January 1st, 1872. \$28,459 to Nors.—In our settlement of the accounts for the year 1870, there is an error of \$50,752 standing to the credit of the County Treasurer. He was credited in the settlement with having actually paid into the State Treasury the sum of \$19,711.52 on account of the State tax for that vear, when in fact the only paid the sum of \$19,077.60, the amount to which his State was entitled, after deducting the usual percentage. An appeal has been taken by the County from-our report for the year 1870, on account of this error, to the court of Common Pleas, and must be corrected there. It is hely ond ever jurisdiction to make the correction in our settlement for the present year, the proceeding so in the appeal being as yet undetermined. The error resulted from a misapprehension, and was not discovered by the beard of Andltors untilafter they had made up their report for the year 1870.
