It is one of the remarkable furts of this remarkable age, not sterely that so many persons are the victims of dyspepsia of indigentica, but its willing victims. Now, we awails not be understood to say that any one regards dyspepsia with favor, or feels dispepsed to rank it among the invuries of life. Far from it. Those who have experienced its torments world-geout such an Idea. All dread it; and would gladly dispense with its unpleasant familiarities. DR. HOOFLAND'S GERMAN BITTERS.

Would you know more of, the merits of this won-derful-medicine than can be learned from the experi-once of others? Try it yourself, and when it has fulfel to fulfil the assurance of its efficacy given by the proprietor, then abandon faith in it. LET IT BE REMEMBERED,

first of all, that HOOFLAND'S GERMAN BITTERS is not a rufa beyonge.

They are not alcoholic in any sense of the term. They are not alcoholic in any sense of the term. They are composed whelly of the pure judic or vit. I principle of roots. This is not a more assertion. The extracts from which they are compounded are preserted by one of the ablest of German chemists. Unlike any other Bitters in the market, they are wholly free from spirituous ingredients. The objections which hold with so much force against preparations of this class, namely—that a desire for intoxicating crimits is stimulated by their use, are, not, valid in the case of the German Bitters. So lar from encouraging or inculcating a taste or desire for inchirating beverages, it may be confidently asserted that their tendency is in a diametrically opposite direction. Their effects can be

in all cases of the biliary system. Hooland', Garman Bitters stand without an equal, acting promptly and vigorously upon the Liver; they remove its torpidity and cause healthful secretion of believe thereby supplying the stomach with the most folly pounsable elements of sound digestion in proper papersons. They give took to the stomach-witamaking its functions; and enabling it to perfect it duties as nature designed its bound do. In cases of languor or excessive de-bitly, where the system appears to have become exhausted of its energies.

HOOFLAND'S TONIC acts with almost marvelous effect. It not only stimulates the flagging and wasting energies, our invigorates and permanently strongthens its action upon the Liver and Stomach; and though perhaps type prompt than the Bittes, when the same quantity betalen is none the loss certain. It gives strongth to weakness, throws despondency to the winds, and starts the restored health and the properties of the literature. But Ir. Hooland's beneficitions to the human race are not confined to his celebrated

GERMAN BITTERS, or his valuable TONIC. He has prepared another medicine, which is rapidly winning its arm to popular favor because of its intrinsic merits. This is HOOFLAND'S PODOPHYL LIN PILLS,

perfect substitute for mercury, without any of

mercury's avid qualities.
These wonderful Pills, which are intended to act upon the Liver, are mainly composed of Perlophyllin, or the VITAL PRINCIPLE OF THE MANDRAKE ROOT. Now we desire the reader to distinctly understand that this extract of the Mandrake is many times more powerful than the Mandrake itself. It is the medicinal virtues of this health-giving plant in a perfectly pure and highly con-entrated formal lence it is that two of the Podophyllin Pills counditute a full dose, while anywhere from six to eight or a hundrul of other preparations of the Mandruke are required.
