It is one of the remarkable facts of this remarkable age, not merely that so many persons are the rictims of dyapepsia or -indigestion, but its willing victims. Now, we would not be understood to say that any one regards dyapepsia with favor, or feels disposed to rank it Among the luxuries of life. Farfrom it. Those who have experienced its terments wild its cout such an idea. All dread it, and would gladly dipense with its unpleasant familiarities. Mark Tapley, who was joily under all the trying circumstances in which he was placed, herer had an attack of dyspensia, or his joility would have speedily foresten him. Men and women sometimes suffer its totruces uncomplianingly, but whoever heard of a person who anjoyed them?

But it is not our intention to descant on the hor-pers of Dyspepsia. To dissert the time truthfully is sim-ply an impossibility, but it is possibles to point out a remedy. We have said that dyspepsia is perhaps the most universal of human diseases. This is em-phatically the ease in the United States. Whether this general prevalence is due to the character of the food, the method of its preparation, or the hasty manner in which it is usually swallowed, is not our province to explain. The great fact with which we are called to deal is this DYSPEPSIA PREVAILS

LIN PILLS,

perfect substitute for mercury, without any of nercury's cyll qualities.

These wonderful Pills, which are intended to act upon the Liver, are mainly composed of Podophylins, or the VITAL PRINCIPLE OF THE

MANDRAKE ROOT.

Now we desire the reader to distinctly understand that this extract of the Mandrake is many times more powerful than the Mandrake itself. It is the medicinal virtues of this health-giving plant in a perfectly pure and highly concentrated form, thence it is that two of the Pedophyllin Pills constitute a full doso, while anywhere from six to eight or a handful of other preparations of the Mandrake are required. The Podophyllin ACTS DIRECTLY ON THE

stimulating its functions and causing it to make its biliary secretions in regular and proper quantities. The injurious results which invariably bollow the use of merency are entirely avoided by their use. But lies in a upon the Liver only that their powers are extract. The extract of Mandrako contained in them is skillfully combined with four office axtracts, one of which acts upon the tower bowels, and, one prevents any griping effect, thus producing a pill, that influences the entire digestly and dimensary system, in an equal and harmonbus manner, and its action entirely free from musoa, voniting or griping pains, common to all other purgatives.

Possessing these much desirable qualities, the Pedophyllin becomes luvaluable as a

FAMILY MEDICINE. No household should be without them. They are perfectly safe, require but two for an ordinary dose, are prompt and efficient in action, and when used in connection with Dr. Hoofland's deerman litters,
