James H. Hunter's

FASHIONAULE AND CHEAP HAT, CAP, BOOT AND SHOE

EMPORIUM,

No. 40 Front st., Columbia, Sign of the Big Hat and Cap, directly opposite the Bridge, and adjoining Black's Hotel.

The subscriber begs leave to return his thanks to his friends and the public generally, for the very liberal parronage heretofore extended to him, and hopes by strict attention to business, to receive a continuation of their favors; he goes upon the principle "a nimble sixpence is better than a slow shilling," and to carry out the principle, makes quick sales at small advances. His place of business is not a brick front, or of great splender, but he flatters himself that he can suit customers better, and sell cheaper, than persons who do business in big brick houses, and make a great fuss about selling goods at cost, he does not sell goods at cost, but sells at a small advance, and by so doing expects to please all that does not sell goods at cost, out sells at a small na-vance, and by so doing expects to please all that may favor him with their patronage. He requests all persons, after visiting some of the showy es-tablishments along Front street, to drop in at No. 40, (sign of the Big Hat and Cap) and compare the goods and prices of the different establish-ment, and he is satisfied he can sell them a better article, and at a lower price than any other store in the horough.

in the borough. Hats and Caps, Of the latest style and fashion always on hand, at very low prices, and warranted equal to any manufactured in this State Also—Gentlemen's, La-

DR.LE ROY'S

Vegetable Universal Pills

Are a strengthening purgative and a purifying Tonic.

The hopes of the American agents are for more than realised by the success of Dr. Le Roy's Vegetable Universal Pills on this side of the Atlantic. Never did a medicine spring into such immediate popularity. In less than three months eighty thousand boxes have been disposed of; attle certificates of cures performed by them received from upwards of four hundreal persons. The cures embraced a great number of diseases? but those which predominated were Bilhous Fever, Colic, Habitual Costiveness, Dysemary, Loss of Appetite, Flatulence. Worms and Lowness of Spirits. All persons who take them agree that they are 'ar superior to every other medicine they had used, in the mildness the energy, and the efficacy of their action; for though they produce neither gripe nor nausea, they act upon the secretions with great directness, force and rapidity; and as a purgative leave nothing to be desired. But their great peculiar excellence, and that which distinguishes them from all other purgatives is, that thair operation is followed by no reaction.—
Their unrivalled purifying and purgative properties, lor which they are indebted to the essence of Sar-aparilla, and other ingredients, being controlled by their highly tonic virtues derived from the extract of Wild Cherry, they do not strain the digestive organs into action, as is the mode of operation with other cathartics, but on the contrary strengthen them into action. Thus all other purgative medicines produce more or less subsequent costiveness, and sluggishness of the gastric juice, while Dr. Le Roy's Pills leave all the ma-Are a strengthening purgative and a purifying Tonic.

dread disease have proved vain, and all that seemed within our power was at beat the alleviation of suffering rendering somewhat smoother the certain progress to the tombil.

The proprietor in offering this preparation to the public would embrace the opportunity to state upon what grounds it puts forth its merits, and the reasons upon which it founds its superior clams to the attention of the affilted, thao re who usessing the many repose full confidence in its curative powers. Since its first preparation he has had the pleasure of witnessing its happy results in numerous instances; but he was determined not to offer it to the public until he had become horoughly its onvinced of its efficacy. He now confidently offers it as a remedy without a parallel for the cure of PULMONARY CONSUMPTION and its kinded diseases.

Consumption of a tuberculous character from time immemorial has been deemed incurable and considering its frequency and fatality, it is not surprising that new remedies and new systems of treatment should from time to time be brought under the notice of the profession and the public. Almost every organic and inorganic substance, in an endless round of combination, has been used with the hone of checking this scourge of our race, many doubless believing that in the progress of medical knowledge we should at last obtain the mastery over Consumption, and, in the use of the Compound Syripoly attained.

The therapeutic agents employed in the composition of this remedy, are such as enable it to prevent the secretion of tuberculous matter in the lungs and to cause its resolution and absorption after deposit has commenced. In object arhieved by no other medicine, and the importance of which the professional man will at once perceive in its incentive and the superior would ask a careful perusal of the statements of a few of those who have been restored to health by its powerful agency.
