ronage heretofore extended to him, and hopes by strict attention to busi-ness, to receive a continuation of their favors; he goes upon the principle "a nimble siz-pence is better than a slow shilling," and to carry out the principle, makes quick sales at small ad-vances. His place of business is not a brick front, or of great splendor, but he flatters himself that he can suit customers better, and sell cheaper, than persons who do business in big brick houses, and make a great fuss about selling goods at cost, he does not sell goods at cost, but sells at a small ad-vance, and by so doing expects to please all that may favor him with their patronage. He requests all persons, after visiting some of the showy es-tablishments along Front street, to drop in at No. 40, (sign of the Big Hat and Cap) and compare the goods and prices of the different establish-ment, and he is satisfied he can sell them a better article, and at a lower price than any other store in the horsersh article, and at a lower price than any other store in the borough.

Mr. B. informs us that in January last the wholo interior of his mouth, as well as most of his face, was a mass of deep and paintul ulcers!
