old] I was attacked with Scroinla, which increased in its ravages, till my throat was filled with ulcers! the bones of my neck had bare! my palite destroyed, and a large piece of one of the moal bones carried away. My head was also so much diseased, that in drinking, the tea or coffee would frequently pass out of my carl. A mass of something which the Doctors called a tunior came from my nose.

I was under the care of physicians of the Inghest distinction in this city, and at one time pronounced cured, and by request attended a medical lecture, where my case, together with the method of cure, where my case, together with the method of cure. You are now well, but if the disease should return, you cannot live long, as it would soo, destroy your wind-pipe."

I did not believe myself cured at the time, as I I did not believe myself cured at the time, as I had much distress in my head, and other disagreeable teelings, and after a time the ulcers re-opened. In January, 1815, my mother called with me upon Dr. Mutters for advice. He said I was a very sick girl, and said it was doubtful whether I would ever get well; if ever, it would be a long while. The disease grew so much worse, that the physician who then attended me, said he could see my windings. My face was also swollen, highly inflamed, and very painful, and the Doctor said ulceration was ineviable!

and very painful, and the Doctor said diceration was inevitable!!

I was in this condition in January last when I commenced taking your "DR CULLEN'S INDIAN VEGETABLE PANACEL." The inflamation was soon removed, and the dreaded diceration in the face prevented! I am now well! I have no ulcers! no pain, or any disagreable sensation in my head, and now feel that I am cured. I shall be happy to give any further information to the affined who will take the trouble to call upon me at my tather's house. A BLESSED, BLESSED AND MEAVENLY MIRACLE OF MIRACLES!!

ON the 4th of August, in the year 1843, a singular scene occurred in the Royal Scentific Institute of France. The aged, white headed President, his head bare, his arm out stretched, his face, radiant with smiles, (for science was triumphant,) and his voice with gratulatory tone, delivered the following report:

gratulatory tone, delivered the following report:

"We are astounded at this singular preparation. Where indeed will science stop!—
Here we have a preparation made in the form of a beautiful piece of soap, which we know by actual practice, to cure every cutaneous eruption, every disfigurement of, and even discolored skin! Where will its magic and singular power cease? The Negro, the Creole, the Yellow Race of the East, and the Red Man of the Far West, are alike under the influence of its extraordinary powers of clearing yellow or discolored skin, and making it white and beautiful and of changing the color of dark, or black, or brown skin." (Here several persons were brought forward by the President, who had used it, in proof of his assertion.)

There are probably few persons of intelligence, who, after reading the above, will doubt the qualities of

The hopes of the American agents are far more than realised by the success of Dr. Le Roy's Vegetable Universal Pills on this side of the Atlantic. Never did a medicine spring into such immediate popularity: In less than three months eighty thousand hoxes have been disposed of; and certificates of cures performed by them received from upwards of four hundred persons. The cures embraced a great number of diseases but those which predominated were Billious Fever, Colic, Habitual Costiveness, Dysiniary, Loss of Appetite, Flatulence, Worms and Lowiness of Spirits. All persons who take them agree that they are 'ar superior to every other medicine they had used, in the mildness the energy, such the efficacy of their action; for though they prothey had used, in the mildness the energy, and the efficacy of their action; for though they produce neither gripe nor nausea, they act upon the secretions with great directness, force and rapidity; and as a purgative leave nothing to be desired. But their great peculiar excellence, and that which distinguishes them from all other purgatives is, that thair operation is followed by no reaction.—Their unrivalled purifying and purgative properties, for which they are indebted to the essence of Sareaparilla, and other ingredients, being controlled by their highly tonic virtues derived from the extract of Wild Cherry, they do not strain the digestive organs into action, as is the mode of operation with other cathartics, but on the contrary strengthen them into action. Thus alf other purgative medicines produce more or less subsery strengthen them into action. Thus all other purgative medicines produce more or less subsequent costiveness, and sluggishness of the gastric juice, while Dr. Le Roy's Pills leave all the machinery of the system full of life activity, and the
