

MOUNTAIN SENTINEL.

EBENSBURG, PA.

Thursday, June 7, 1849.

THE SENTINEL, has much the largest circulation of any paper published in this county—and as an advertising sheet offers superior inducements to merchants and business men generally. Those desirous of making use of this medium for extending their business can do so by either sending their notices direct, or through the following agents.

To CORRESPONDENTS.—“One of ‘Em’ will appear in our next. His favor came to hand too late to receive attention this week.

ERROR.—One of those annoying mistakes with which Printers are occasionally troubled will be found in the List of Retailers on our outside. It states that “to provide for the gradual and certain extinguishment of the Commonwealth” &c., when it should read “to provide for the gradual and certain extinguishment of the debt of the Commonwealth.”

We learn that the loan of \$400,000, authorized to be made by the last Pennsylvania Legislature, to enable the Canal Commissioners to avoid the Inclined Plane near Philadelphia, has been taken at a small premium. The whole amount of bids offered \$1,200,000, and their terms were generally such as indicated the highest confidence in the ability and determination of the State to meet all its obligations, past, present and to come.

N. E. We learn this morning that Messrs. F. A. Van Dyke & Co., has taken \$25,000 of this loan at a premium of 28 cents on the \$100, and that Charles Maccalister has taken \$372,000 at 26 1/2 cents premium on the \$100. The balance was taken at one per cent. premium. The total premium amounts to \$1093,75. The Canal Commissioners have called upon the Governor for the first instalment on the first of August.

TAYLOR'S PLEDGES.—We would call the attention of the reader to a somewhat lengthy article on this subject, which will be found on our second page. It shows up in its true colors the hypocrisy and fraud that were used to lull Gen. Taylor, and the people are beginning to open their eyes to the base manner in which they were deceived.

LARGE LAND SALE.—Attention is called to the sale of a large body of land in Indiana county on the 27th inst., a notice of which will be found in our advertising columns.

Military Election.

The following table exhibits the result of the election for military officers for this Brigade. It is not official, but as correct as we can make it, being made up from the reports we have received; but we believe a correct return will not materially change it.

It is proper to state in explanation of the singular vote polled, that Capt. John Humphreys was not a candidate for Brigadier General, and that his name was used in connection with that office contrary to his wishes and without his authority or consent. In fact he positively refused to permit his name to be used, and this fact accounts for the vote he received in the Highlanders and Cambria Guards. Notwithstanding his refusal, however, to be a candidate, it appears that a few of the enemies of Col. McDonald placed him on the ticket in Johnston for the purpose of defeating that gentleman; and the returns show that the effort has signally failed.

We believe it is also due to Maj. Potts to state that he only permitted himself to be a candidate for Lieut. Colonel under the impression that Mr. Todd had declined, and that he was consequently not running in opposition to the ticket which had been placed in nomination on last Saturday evening. How this mistake occurred we are not at present prepared to say.

It will be perceived that JOSEPH M'DONALD, ANDREW TODD, JOHN LINTON and JOHN M. LAUGHLIN, being the ticket nominated on last

Saturday evening, are all elected. We beg leave to congratulate our new officers on their election and hope that they will exert themselves to re-organize and equip our little Brigade in a proper manner.

Military Uniform.

We have been lately frequently asked whether a military company was not at liberty under the new militia law to select whatever kind of uniform that pleased them. The following from a recent circular from Adjutant General Irvin addressed to the Brigade Inspectors sets the matter at rest.

“The first section of the revised Militia Law does not authorize the volunteers to adopt such uniform as they may consider proper. You are instructed that no uniform will be considered proper for volunteers, by the Adjutant General, except the undress or fatigue uniform of the United States Army.”

It will be perceived that all volunteer companies, old and new, will have to conform with the dress, otherwise they will not be considered as complying with the provisions of the new Militia Law, and cannot receive the yearly appropriation. The re-organization of the uniformed militia of this Commonwealth commenced last Monday.

A Merited Compliment.

We are gratified to perceive that the Philadelphians are beginning to appreciate the merits and personal worth of our old and tried friend Dr. THOMAS C. BUNTING. We learn from the Pennsylvaniaian a beautiful silver pitcher, after the Etruscan style, as developed in the ruins of Pompeii, and embellished with appropriate emblems, such as the serpent of Esculapius, and the club of Hercules, and weighing about forty ounces, was recently presented to him by a number of his personal friends in Philadelphia. It is said to be a very appropriate and becoming tribute, and we know it to be well merited. The following is the correspondence between the Committee of Presentation and Dr. Bunting.

PHILADELPHIA, May 21, 1849.
THOMAS C. BUNTING, M. D., Late Surgeon of the Pennsylvania Volunteers, U. S. A.

DEAR SIR:—A number of your friends desirous of testifying their admiration of your services in Mexico, as a Surgeon of the Pennsylvania Volunteers, have united in procuring for your acceptance, a silver pitcher, appropriately inscribed, which, on their behalf, we beg leave to present to you.

This slight tribute to your personal worth and official merit, is prompted by a high appreciation of your exemplary conduct and professional skill. A soldier's reward is his country's gratitude; but his fidelity and courage must ever inspire the hearts of his friends with sentiments of unaffected pride and admiration. If conspicuous daring, exhibited in the strife of battle, dazzles the imagination, care and kindness to the sick and wounded, rendered in camp, on the field; or in the Hospital, appeal to the affections of the heart, and to the feelings of humanity. In tendering you this testimonial of esteem and respect, we remember with peculiar satisfaction, and deem it no small part of your deserving, that you were the only volunteer surgeon from Pennsylvania, who remained with his regiment until peace was proclaimed; a circumstance, which, while it augmented your labors, and enlarged the sphere of your usefulness, gave you the opportunity to participate in some of the most stirring events of the war. VERA CRUZ, CERRO GORDO, LA HOYA, PUEBLA, and MEXICO, all of them the scenes of your active exertions, are names no less associated with the imperishable glory acquired by our arms, than with the merit of individual actions.

In conclusion permit us to add, that we hope this gift may find its value, whatever it may possess, in the motives which prompt the offer, and in the spirit with which we trust it will be accepted. We subscribe ourselves,
Dear sir, very respectfully,
Your friends, &c., &c.,
Geo. M. Keim, Thomas Burnside,
Peter Fritz, John W. Forney,
Adam Diller, Alexd'r C. Hart,
Joseph Reakirt, Geo. W. Ash,
David Webster, Committee.

Philadelphia, May 24, 1849.
To GEORGE M. KEIM, Esq., and others: Gentlemen, I take pleasure in acknowledging the receipt of a handsome pitcher, bearing a highly flattering inscription, as a token of your esteem as friends, and of your appreciation of the services rendered by me as a medical officer in the Pennsylvania Volunteers, in the war with Mexico.

This testimonial of your kindness, shall be greatly cherished as an evidence of the approbation of my fellow-citizens in my native city, and that with feelings of especial pride.

In your letter accompanying it you were pleased to allude to the fact, of my being the only volunteer surgeon from our State, who remained in Mexico during the entire campaign; a circumstance for which I assure you, I claim no particular merit; it being uniform good health, a blessing that did not pertain, in so great a degree, to others in the service.

This kind approval, however, of my fellow-citizens, amply repays me for all the trials whether of danger or disease, to which I was exposed.

And, in accepting this evidence of their approbation of my conduct, I can assure them, that it shall be dearly cherished, and tend to stimulate me—should another occasion present in our country's history—to renewed, and if possible, more energetic exertion in her cause.

Yours, with respect, &c.,
THOMAS C. BUNTING.

Fight between American California Emigrants and Mexicans.

Galveston dates to the 28th, state that a party of returning emigrants report that one hundred and fifty Americans, recently attempted to force their way through Mexico without passports; but met serious opposition from the Mexicans. Finally a fight ensued, which resulted in the Americans being made prisoners. It is also stated that two thirds of the Americans, and a large number of Texans, now journeying to California, would return.

CHOLERA IN NEW YORK.—The Cholera has made its appearance in New York. On Monday last twenty-three cases were reported, nine of which proved fatal.

Messrs Longstreth and Painter are now in Philadelphia, making preparations for the Railroad avoiding the Inclined Plane.

All Sorts of Paragraphs.

Forty Tons of Specie.—The Mobile Tribune, on the authority of a letter from Panama, April 25th, announcing the arrival of the British mail steamer there the day previous from Callao, says that she has on board forty tons of specie. About two hundred mules have been loaded with her freight to be taken to Chagres.

We learn from the European Times, that the Cholera is still hovering throughout the United Kingdom, and in several parts of the Continent.

The St. Louis Reveille estimates the cost of removing the wrecks of burnt steamers now lying at the levee in front of the city, at \$89,000. The value of the boats lost is \$618,000; their cargoes probably worth \$150,000.

In a speech recently delivered by Lord Brougham, in the British Parliament, he stated that £180,000,000 had been already invested in Railroads in Great Britain, and that £150,000,000 would have further to be paid up, to make good existing subscriptions.

The woman in Philadelphia, who gave birth to four children, the other day, has received from the Board of Brokers, of that city, twenty-five dollars. The Governor of the State, and Mayor of the city have also made her presents of money.

More Doctors.—Thirty-nine young doctors have just graduated and been sent forth by the College of Physicians and Surgeons in New York, to practice upon suffering humanity.

The Northern Journal, edited by the poet Bourne, advocates the annexation of the Sandwich Islands, as a state to the Union, to be called “Hawaii.” The idea is poetical but impracticable.

The New Orleans Bee of the 18th says that “\$50,000 at least, have already been spent by the city. It will take at the most moderate calculation, \$50,000 more to stop the crevasse; and if the wharves do not cost, during the summer, \$150,000, in addition, we shall be most agreeably deceived.”
