

Trouble Between Prussia and Hanover.

The Deutsche Reform publishes two important documents on the subject of the secession of Hanover from the Prussia League. The first of these documents is a circular which Baron Schliez addressed on the 13th inst. to the Hanoverian Ambassador in Berlin, and to the Prussian Embassies in foreign countries. This circular, referring to the minutes of the Administrative Council containing the declaration of the Hanoverian Government respecting its secession from the League of the 26th of May, 1849, and referring likewise to the second dispatch, contains this statement:

"Obedient to his Majesty's orders, I have instructed His Majesty's Ambassador at Hanover immediately to quit his post until further notice, and to return to Berlin. After having, according to my instructions, informed the Hanoverian Cabinet of this order by means of a verbal communication, the Ambassador has arrived at this place."

The second dispatch which is dated the 6th of March, is addressed by Baron Schliez to the Hanoverian Minister at Berlin, and, referring to a letter from that gentleman of the 25th ult. and to a declaration it contains respecting the secession of the Hanoverian Government from the league of the 26th of May, 1849, under the pretence of an alleged offence to that Government by the resolution of the Administrative Council of the 12th of February, 1850, Baron Schliez protests that the Prussian Government cannot see how the said league must therefore be considered as existing de facto and de jure. In conclusion, referring to a certain desire expressed in the communication of the Hanoverian Ambassador, and tending to insure the maintenance of friendly relations between the Governments of Prussia and Hanover, Baron Schliez protests that—it is his duty to point out the inconsistency of this wish with the unexpected and unjustified secession of the Hanoverian Government from the treaty of the 26th of May, 1849, and openly to declare that the maintenance of friendly relations does not lie in the hands of Prussia alone, but is influenced by the conduct of the Hanoverian Government.

The Fire Annihilator.

Mr. Phillips, the inventor of this new apparatus, recently gave an exhibition of its powers to a large company assembled at the London gas works, Vauxhall. After some preliminary remarks on the vast losses from fire, amounting annually in the three kingdoms to £2,000,000, and the inefficiency of water in quenching a furious conflagration, he set fire to a compartment of a large open building, filled with partitions and temporary joisting of light wood, daubed with pitch and turpentine, and hung with rags soaked in the same combustibles. The flames ascended, roaring with such vehemence as to repel the spectators to a distance of forty feet, reaching, apparently, beyond all remedy by water; when Mr. P. with one of his hand machines, somewhat larger than a good sized coffee pot, from which a volume of gas and vapor was discharged, extinguished the flames "in half a minute"; and then, to prove that there was no noxious quality in the resulting air, immediately walked through the building with a lighted candle in his hand. A company has been formed to manufacture these new-styled fire engines; which if they answer as well in practice as they seem to do in experiment, will soon make their way to this country, and find their field of operation in subduing flames and, perhaps, fire riots.

The "Infirmities of Genius.—Booth, the Tragedian.—We see in the Richmond Enquirer, of Thursday, a card, signed by a great number of citizens, requesting the managers of the Richmond theatre, to overlook the "infirmities of genius," and make a re engagement with Mr. Booth, who was missing lately, on the first evening he was to perform. Sefton & Chipendale had cancelled the first engagement, but they say they will renew the contract, with the understanding, however, to deposit in the hands of a third party the sum of \$500, in addition to the amount agreed to be paid Mr. Booth, provided that he shall also deposit the like sum of \$500, the party forfeiting their deposit in the event of non fulfilling punctually the terms of the contract.

Dog Express.—The Menesota Pioneer gives the following account of the "dog train" which recently arrived at St. Paul from the extreme northwest: "The train arrived on Monday last, with a heavy mail from Pembina and the Selkirk settlements, distance, five hundred miles. Snows are reported very deep in the north. The three dogs having made fifty miles a day some days, were much fatigued at the end of their journey. Being fed, they laid down in their harnesses for several hours and slept, but moving their feet, while sleeping on their sides as if they were still traveling. Their sledge is a light board, with sides to it, of green hide, making a sort of open shoe, with a prow turning up in front, skate fashion. The sledge contained the mail, and provisions for the dogs and two men—pennican &c.—there being no dwelling to stop at for many hundred miles. One of the men, half-breeds, travelled ahead of the dogs; and the other with a stick to drive them, and a rope to hold back the sledge down hill, came behind. The dogs are sharp-eared, a little above medium size and look much like wolves. We have been thus particular in describing this traveling equipage, knowing that it will seem novel to our readers in the United States."
