

POETRY.

GOOD WISHES FOR THE UNION.

BY H. B. FRENCH.

The bravest, truest, best of men With patriot dread behold, The dark and dismal cloud that seems Our Union to enfold, Mouse ye, ye sons of those who died To give this Nation birth— The happiest and the fairest land Of all the peopled earth—

Oh that some pure Archangel, Sent down from Heaven's bright band, Would sound the voice of warning, Through all this glorious land, As a herald from our God above Whose goodness and whose might, By miracles, to us has taught That "God defends the right"—

Maine would respond, N. Hampshire's voice Would shout the warning high, Vermont, from all her mountain tops, Would raise it to the sky; Old Massachusetts, bravely too, Would bear the warning on— For her blood first sealed our compact On the field of Lexington;

On, on the warning still should go, O'er all our sunny land, Till to the broad Potomac Responds the Rio Grande! And where the vast Pacific's waves Break on our Western shore, The echo should return to greet The fierce Atlantic's roar, And every man would say to each, "Our Union to all rest is true, Sure God will prosper all."

Capital.—We heard a good one of a green sprig from the Emerald Isle, who, the other day, entered a boot and shoe store in Lowell, to purchase himself a pair of brogans. "After overhauling his stock in trade without being able to suit his customer, the shop-keeper hinted that he would make him a pair to order. "And what will you say to make a good pair of them?" was the query. The price was named; the man demurred, but after a "bait" down, the thing was a trade. Phelan was about leaving the store, when the other called after him asking: "But what size shall I make them, sir? "Och!" cried he promptly "never mind about the size, at all—make them as large as ye covinantly can for the money."

Professor Agassiz.—The statement attributed to Prof. Agassiz that he was ready to maintain, in opposition to the Scriptures, that mankind was not of one race, does not do strict justice to that learned gentleman, as we see by a fuller report of his own words as follows: "For his own part, after giving to this question much consideration, he was ready to maintain that the different races of men were descended from different stocks, and he regarded this position as fully sustained by divine revelation. The Jewish history was the history, not of divers races, but of a single race of mankind, but the existence of other races was often incidentally alluded to and distinctly asserted in the sacred volume."

One of the courts of Alabama has been trying to solve, for the last fortnight, the birth and parentage of a little darkey, who has fallen heir to quite an estate. Like Mango Park they are endeavoring to discover "the source of the Niger," but whether they will succeed is still problematical.

Funny.—Mr. Monroe brought in a bill on Saturday, in the lower house of the Legislature of New York, authorizing the taxation of bachelors for the benefit of old maids and orphans.

The West Branch Canal is now in fine navigable order, and considerable business is already being transacted upon it. The packets have commenced their trip.

AGRICULTURAL.

To Raise Gooseberries.—There is a great difficulty in raising healthy stalks and well ripened gooseberries in this country, which, we think, owing to a want of the requisite humidity in our summer atmosphere. In damp situations, as in Scotland and the north of England, they are general prolific and healthy. We lately saw some fine specimens on Mount Ida, Troy, N. Y., in the garden of Mr. Vail. He attributed his success entirely to placing a good coating of salt-marsh hay around the stems. This has a double effect in accumulating moisture, as both the salt and the hay, in this position, are efficient agents for the purpose. We have also seen an immense production of the fruit of gooseberries, from placing a pint of saltpetre about the roots. Ashes and plaster have likewise the effect of greatly increasing humidity, whenever applied; and each of these we deem a good substitute for salt hay.

Wheat Bran as a Fertilizer.—This has been tried by several persons in Delaware with great success. It is said that a handful to the hill will double the corn crop. Care must be taken to cover the bran, before dropping the corn, or the fermentation will kill the seed if in direct contact with the bran. It is said to be equally valuable upon wheat. The matter is worth experimenting upon.

Great European Railroad.—Lately we said something in the Globe about a great European-Asiatic railroad, the construction of which has been discussed in the London Times. It was proposed that it should commence at Calais, and terminate in Mooltan, in Asia, crossing rivers and mountains innumerable almost; not crossing exactly either, but going round or through the last, and crossing over the first, when not too wide, and when they are, the road would stop of course on this side, and begin again on the other. The whole distance would be between six and seven thousand miles, and the cost two or three hundred millions of dollars.

This was the English project; but a French journal as we see in the New Orleans Bee, comes out against it and alleges the road, on the route proposed, to be almost impracticable, on account of the intervening mountains, some of which cannot be got round or over, as the Belkan for instance, which did not stop the Russians in 1825, but may prove a barrier to the proposed road, for the reason that there is no break in the chain that must be passed, no other tunnel left but to tunnel, and that the tunnels would have to be of great length, and would be enormously expensive. This writer proposes that the road shall be carried through Upper Asia, from Russia—say Moscow or China.

The distance would be about the same, probably, but the cost of the road much less, on account of the more favorable nature of the country, a great deal of which is almost a dead level, and there are no lofty or impracticable mountains. The population, too, he says, (which we believe,) is much better adapted to the accomplishment of such a work. At the western end there would be the Russians, who would do the work for very moderate pay, as would the Chinese at the eastern end. This would not be the case, though, by the southern route, for some of the nations through which it would pass would not give any very efficient co-operation, and none of any kind without being well paid. And this is an obstacle that would present itself as soon as the road reached the southern frontier of Christian Europe and penetrated into Turkey. The Turk, though he has been conforming somewhat to Christian notions (not respecting religion though) about various matters, during the last twenty years, has not yet advanced so far as to have faith in railroads or to perceive their utility; and will be some time before he will be that far advanced. He is a predestinarian in most things, but is rather indisposed to believe anything predestinated that has to be achieved with much pains and labor. And south of him when getting among the indolent Asiatics, it will not be a whit better. But still the road might be made, and both might be if Europe would disarm, and enter into a bond to keep the peace even ten years.—But Europe cannot do that, and will not do that unless the third Peace Congress, which is to sit at Frankfurt (Germany) next summer, can bring about such a glorious consummation.—Wash. Globe.

LOOK HERE!

HIGHLY IMPORTANT To the Public!

THE subscribers have just received at their Store Room in Ebensburg, a very large assortment of NEW GOODS, which they offer to their customers at VERY LOW PRICES. Thankful for the patronage so liberally bestowed upon them, they hope to merit its continuance, and beg leave to assure their friends and the public generally, that the stock of goods which they now offer for sale will compare favorably, both as to quality and cheapness, with any other ever brought to this place.

They cannot enumerate all the articles which they have on hand, but would say it comprises every thing usually kept in a country store such as Blue Black and Brown Cloths, Fancy and Plain CASSIMERES, SATINETTS of all prices and descriptions, DELANES, CASHMERES, in every variety and color.

MUSLINS, Brown and Bleached, CALICOES of rare and beautiful styles. GLOVES, HOSIERY and LACE GOODS.

Also.—A very large assortment of BOOTS & SHOES, of every variety and of the very best quality. Together with a splendid lot of

HATS AND CAPS, QUEENSWARE, HARDWARE, GROCERIES for family use. BOOKS and STATIONARY, FISH, SALT, &c., &c.

In fact, every thing necessary to render their assortment complete. They would here say that it is their determination to sell goods as cheap if not a little cheaper than any other establishment in the place. This will be found to be the case by those who will favor them with a call. Lumber and all kinds of country produce taken in exchange for goods.

MURRAY & ZAHRM. Ebensburg, Nov. 8, 1849.—5-1f.

DOCTOR YOURSELF! For 25 cents!!!

BY MEANS OF THE POCKET ESCULAPIUS, or Every man his own Physician. Twenty-fourth edition, with upwards of a hundred engravings showing private diseases in every shape and form, and malformations of the generative system, by W. M. YOUNG, M. D.

The time has now arrived, that persons suffering from secret diseases, need no more become victims of anxiety, as by the prescriptions contained in this book any one may cure himself, without hindrance to business, or the knowledge of the most intimate friend, and with one tenth the usual expense. In addition to the general routine of private disease, it fully explains the cause of manhood's early decline, with observations on marriage—besides many other derangements which it would not be proper to enumerate in the public prints. Any person sending twenty five cents enclosed in a letter, will receive one copy of this book, by mail, or five copies will be sent for one dollar. Address, "DR. W. M. YOUNG No. 153 SPRUCE Street PHILADELPHIA," Post paid.

DR. YOUNG can be consulted on any of the Diseases described in his different publications, at his Office, 153 Spruce Street, every day between 9 and 3 o'clock, (Sundays excepted). March 21, 1850.—24.

CONSUMPTION AND SCROFULA.

PURIFY! PURIFY! Life and Health are in the Blood.

Not one of all the numerous medicines that have been prepared, begins to be of as great medicinal virtue, power and unflinching certainty to cleanse and purify, produce healthy blood, and strengthen and invigorate the whole system, as

BRANT'S INDIAN PURIFYING EXTRACT. Scrofula, Fever Sores, Salt Rheum, Syphilis, and other eruptive and skin diseases, viz: Erysipelas, Sores, Ulcers, Ulcerated Sores, Mole and Thrush, Nerving Sore Mouth, Scald Head, Itch, Pimples on the Face, Itchiness, LIVER COMPLAINT, and many other diseases. THOUSANDS of such diseases have been cured by this PURIFIER, and cured by the use of FOUR TIMES

Less Quantity, at Less Cost, than ever such diseases were before or since cured, by Sarsaparilla, or any other remedy. What was the question for those interested to decide, as to economy and health? FIRST—Will it cure my complaint? SECOND—At what charge? THE—Will

ONE DOLLAR'S WORTH of BRANT'S PURIFIER effectively cures FOUR TIMES as much disease as one dollar's worth of Sarsaparilla. It will, then it is FOUR TIMES CHEAPER than Sarsaparilla. And to prove this we offer one case of cure, out of the many cases.

MOST HORRID SCROFULA. To realize the great power of this medicine as a purifier, read in our Pamphlets, the perfect cure effected on Mr. J. H. Hanks, of Rome, Ontario County, N. Y. He was confined to his bed One Year—was not expected to live ten or twelve hours longer—the neck was eaten nearly off from car-carc—a hole was eaten through the throat—his ears nearly eaten out—the nose of one eye destroyed—his liver, as large as a man's hand, had nearly eaten through his side—there were on him, in all,

Twenty Large, Deep, Discharging Ulcers which were ALL CURED, and he restored to health and strength to labor again, by the use of ONLY TWELVE BOTTLES. This wonderful cure is certified to by

Fourteen Respectable Witnesses. And it is the greatest cure, the most undoubtedly substantiated, of one of the most horrid and most obstinate cases of Scrofula, that has ever been cured since the world was created—completely establishing the great power and efficacy of the medicine.

BRANT'S INDIAN PULMONARY BALSAM

Possesses all the cleansing and purifying virtues nearly as powerful and active as the preparation called "BRANT'S INDIAN PURIFYING EXTRACT," and cures of all the diseases from several other medications, which are peculiarly adapted to, and are essentially necessary, to cure

COUGHS and CONSUMPTIONS. THIS BALSAM heals and cures Ulcers in the Lungs, and discharges internally, as certainly and easily as the Purifying Extract cures and heals Ulcers externally. This Balsam cures also cases of Consumption, out of ten, after all other remedies have failed to do so.

THOUSANDS of CONSUMPTIONS, and Chronic Coughs, abundantly prove its unerring efficacy, in all diseases of the BREAST, THROAT, AND LUNGS.

A DYING WOMAN SAVED! CONSUMPTION CURED!

We state this cure to prove the power to save life, when this Balsam is used, even after the person is considered, by physician and friends, to be in the last stages of disease—usually dying—and, in this case, so far gone, that the attendants and burial clothes were bought. For the particulars of this case, and the reasons why it is so successful, of all the diseases, and facts, we refer to our PAMPHLETS, by Brant, Spang, Saratoga County, N. Y. We can prove beyond a doubt, many other almost equally as hopeless and inveterate cases of Coughs and Consumptions CURED, which were pronounced incurable by the best physicians.

BRANT'S PULMONARY BALSAM cures Consumption, Coughs, Colds, Spitting of Blood, Bleeding at the Lungs, Pleurisy, Dropsy, and all diseases of the Lungs, Infantum, Dysentery, and Summer Complaints, in Children and adults—and ALL

Female Weaknesses and Complaints. No remedy offered to the public has ever been half so certain and efficient in restoring ALL the incidental weaknesses and irregularities of the sex, as BRANT'S PULMONARY BALSAM. It makes no difference whether the derangement be suppression, excess, or other weakness—it REGULATES ALL, by strengthening the system, equalizing the circulation, and GIVING an ALLYING NERVOUS IRRITABILITY. See Pamphlets.

CHANGE OF LIFE. From the Girl to the Woman, and the Woman at middle age—the one case is accelerated, and the other so gradually suppressed, as to prevent any of the fatal diseases that frequently arise in consequence of such change.

LIVER COMPLAINT.

See the cure of Dr. Hubbard, of Stamford, Conn, and others. DYSPEPSIA—See T. S. Wilson, of Andes, Wyoming County, N. Y., and many more.

Nervous Diseases and Derangements cured without fail.

DYSENTERY and SUMMER COMPLAINT, in children and adults—and CHOLERA INFANTUM. No mother need ever mourn the death of her child by cholera infantum, while teaching, if BRANT'S PULMONARY BALSAM is administered. It should be, for such cases, administered in larger than the ordinary doses.
