

**Fire in Pittsburg.**  
About half past 11 o'clock, yesterday, a fire broke out in the Catholic Cathedral situated on the hill near the Court House. When first discovered it appeared to be under pretty good headway, and shortly after the alarm was given, the whole roof was in flames.

It appears that it caught from a spark from the Bishop's house, which is nearly jam against it, and which was only saved by the extraordinary exertions of the firemen, who were promptly on the spot. They worked bravely and did efficient service. The fire raged for about an hour and a half, and there is nothing left of the building but the bare walls.

The altar, pulpit, and confessionals, were carried out, but the large and splendid organ, whose tones both of times cheered and tranquilized the troubled mind, was too ponderous to remove on such short notice, and was consumed by the devouring element. It cost some \$8,000.

It was intended to have used the inside fixtures (the wood-work) of this church, in the new one which they are at present erecting, and they would have been worth in that way some \$12,000, as was estimated by the builders.

The insurance on the building was \$5,000, in the Delaware Insurance Company; making the actual loss about \$7,000.—*Pitt. Post, May 7.*

**Horrible Murder.**  
Philadelphia, May 5.  
At an early hour on Saturday afternoon, our citizens were startled by the news which had been sent by express to the city, of a most dreadful murder in the township of Roxborough, one of the most beautiful and romantic sections of the rural portion of the county of Philadelphia. A death like stillness pervaded the scene—the spectators were almost mute with horror. Indignation was depicted in every countenance, and many a manly as well as gentle eye suffused with tears.

The spectacle was awful to behold—a female prostrate upon her back, lay at full length in a pool of blood, with the whole front of her skull mangled in—a man also, with his head beaten to atoms, was lying in the mud. The house was entered, and here was disclosed the most appalling sight of all—in the corner of a room, as though it had crawled there and expired, lay crouched upon its face a dead infant. As one of the policemen turned it over, he wept.

The side, front, and back of its cranium had been fractured, and though lifeless for several hours, and its countenance distorted by the shocking injuries it had received, there was still such a life-like expression of innocence in its look, that it was difficult for the spectator to realize the idea that it was really a corpse—it appeared as if only asleep.

This alarming and heart-rending affair is wrapped in no little mystery. The facts and circumstances as far as disclosed, appear to be these: The family consisted of Valentine Barke, aged 46, his wife Catharine, aged 30, both natives of Germany, and four children. The mother was *coercive*.

A man calling himself Christian Gracinger was arrested this afternoon, on suspicion of being the murderer. He has been fully identified as being the man employed by Barke, and who made threats against him, in consequence of a disagreement about wages.

**The Portage Railroad.**  
This road embraces a part of the main line of public improvements from Philadelphia to Pittsburg. The whole work has cost the State sixteen millions of dollars. The Portage Road is the railway connection from the terminus of the Canal on the east side of the Allegheny mountains, to the Canal on the west side, and constitutes ten inclined planes. This State work yields a large revenue. The Central Railroad Company, chartered for the express purpose of contributing to the tonnage of the State improvements, and has largely increased the revenue of the State on the Columbia road, with which it connects, is now setting itself up as a rival to the State works, and among other things, has already taken an initiatory step towards avoiding the Columbia road, with the design of reaching Philadelphia by the way of the Lebanon valley and Reading, thus effectually destroying the utility of the Columbia road on the east.

On the west, this company is rapidly completing the road across the mountains without an inclined plane when the road is constructed to Pittsburg, it requires no argument to prove that it will monopolize all the carrying trade unless the inclined planes on the Portage road are avoided. First, because neither passengers nor freight will be hazarded or delayed by inclined planes, when by the Central road they can be avoided; and second, because transportation is much cheaper over a road without planes.

We are informed that as the steamer Falcon was coming out of the port of Havana, at night, she was met by the Spanish man-of-war steamer Pizarro, who fired two loaded guns at her, the balls going over the Falcon. Capt. Harsteine immediately collected all the old iron, brass, chains, &c., he could find, and prepared to load the only piece of artillery he had aboard, intending to return the fire of the Pizarro, in case it was continued. Explanations were however, made by the commander of the Pizarro, and the Falcon proceeded on her voyage. They must have a big scare on her in the ever faithful Isle.—*N. O. Delta.*

The whole number of immigrants arrived at New York since the 1st of January, is about 60,000, being an increase of 30,000 over the arrivals for the same period of last year. The large majority are from Ireland, but a very considerable number are also from Germany and England.

The steamship City of Glasgow, Capt. W. O. Campbell, arrived at Philadelphia on Saturday last, on her third voyage from Liverpool, whence she sailed on the 16th ult. She brings 108 passengers and a very large cargo.

Snow fell at Hazleton, Luzerne Co. Pa., on Monday last to the depth of eighteen inches.

At this season of the year all persons are sorely afflicted with severe colds, and consequently suffer much from such an annoyance. To remedy this, use Dr. Guyot's Improved Extract of Yellow Dock and Sarsaparilla, which is a certain cure for colds. John Ivory & Son, Summit, are the agents for the sale of this excellent medicine in this country. See advertisement in another column. Price \$1 per bottle.

**Petroleum.**  
I had a severe cold, and was cured by the Petroleum, and gave it to several others with like success; and an old lady who had bruised her shoulder by a fall, and strained the muscles of her arm and shoulder, was cured by rubbing the parts affected. I also had an attack of the Blind Piles and by the application of Petroleum was cured in a short time.

**WONDER OF WONDERS!**  
**PETROLEUM, OR ROCK OIL.**  
"There are more things in heaven and earth, Than are dreamt of in philosophy."  
The virtues of this remarkable remedy, and the constant application for it, to the proprietor, has induced him to have it put up in bottles, with labels and directions, for the benefit of the public.

The Petroleum or Rock Oil is procured from a well in Allegheny county, at a depth of four hundred feet, is a pure unadulterated article, without any chemical change, but just as it flows from Nature's Great Laboratory! That it contains properties capable of reaching a number of diseases, is no longer a matter of uncertainty. There are many things in the arena of nature, which, if known, might be of vast usefulness in alleviating suffering and restoring the bloom of health and vigor to many a sufferer.

We do not wish to make a long parade of certificates, as we are conscious that the medicine can soon work its way into the favor of those who suffer and wish to be healed. Whilst we do not claim for it a universal application in every disease, we confidently say, that in a number of Chronic Diseases it is unrivalled. Among these may be enumerated—all diseases of the mucous tissues, such as Chronic Bronchitis, Consumption (in its early stage), Asthma, and all diseases of the air passages, Liver Complaint, Dyspepsia, Diarrhoea, Diseases of the Bladder and Kidneys, Pains in the Back or Side, Nervous Diseases, Neuralgia, Palsy, Rheumatic Pains, Gout, Erysipelas, Tetter, Ringworms, Burns, Scalds, Bruises, Old Sores, &c., &c. In cases of debility, resulting from exposure, or long and protracted cases of disease, this medicine will bring relief. It will act as a general Tonic and Alterative in such cases, imparting tone and energy to the whole frame, removing obstructions, opening the sluggish functions, which cause disease and a broken constitution, and giving increased and renewed energy to all the organs of Life! The proprietor knows of several cures of *Wife* that resisted every other treatment, get well under the use of the Petroleum or Rock Oil, for a short time. The proof can be given to any person who desires it.—None genuine without the signature of the proprietor, S. M. KIER, Canal Basin, near 7th st., Pittsburg.

**\$50 Fofeit—Dr. Hunter will forfeit \$50, if failing to cure any case of secret disease that may come under his care, no matter how long standing or obdurate. Either Sex are invited to his Private Room, 78 North Seventh street, Philadelphia, without fear of interruption by other patients. Strangers and others who have been unfortunate in the selection of a physician are invited to call. Those who have injured themselves by solitary vice are also invited.**

Read and Reflect.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases their lives, in the hands of physicians, ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family is subject to. Every respectable physician has his peculiar branch, in which he is more successful than his brother professors, and to that he devotes most of his time and study.  
Years of Practice, exclusively devoted to the study and treatment of diseases of the sexual organs, together with ulcers upon the body, throat, nose or legs, pains in the head or bones, mercurial rheumatism, strictures, gravel, irregularities, disease arising from youthful excesses or impurities of the blood, whereby the constitution has become enfeebled, enables the Doctor to offer Speedy Relief to all who may place themselves under his care.
