THE WAR REGUN, -Intelligence, on which we rely, has just been received from Camargo, that a sharp skirmish has taken place between the troops of Carvajal, and the regulars of the Government at that city, in which a number of men were wounded, and which resulted in the triumph of the patriots. We are not informed of the details. There is no doubt, however, that Camargo is in the hands of the victors, and that they are in march for Reynosa and Matamoros. The Government has so weakened itself, by sending reinforcements to Camargo, that these places will fall easily into the hands of the revolutionists. We learn that General Avalos, commanding at Matamoros, received the reports of three couriers yesterday, but what news they brought has not transpired. As there were ho lemonstration of success, no boasting, and as the last company of cavalry, at the disposal of the General, was despatched last night, towards the seat of war, we infer that the patriots are sweeping all before them. ## From Central America.

By accounts in the Mexican papers, we learn that hostilities have actually commenced between Salvador and Guatemala. It appears that Gen. Carrera, at the head of 1500 men, invaded Salvador, and encountered the Salvadorian army 4500 strong, under President Varasconcelos, at a place called San Jose. An engagement took place, in which, according to the Guatemalean 150 or 200 prisoners, 1,000 muskets, and a large amount of ammunition, &c. Carrera's loss, according to these reports, was about fifty. partizan Captain. The Rio Bravo says: He In the pursuit which followed, the Salvadorian army sustained still further losses.

Carrera has been appointed commander-inchief of the forces of Guatemala, and medals have been voted by the Congress to the soldiers engaged in the battle of San Jose. At the city of Guatemala, 7000 persons were under arms.

It appears that after this brilliant victory, Carrera took up a position at the town of Santa Anna, but, on the approach of Gen. Cabanas. he retired into the Guatemalean territory. The reasons for this singular movement are not known.

for The New York Times says that the Capain General of Cuba states that if the Spanish residents at New Orleans are indemnified for the losses sustained at the hands of the mob, there will be no obstacle to the immediate release of all the prisoners upon a proper application to the Count of Madrid. So satisfied is Concha upon this point that he authorized Capt. Ellis to make the above statement to the United States authorities at Washington. Of course the indemnification for the destruction by mobs must be made under the statute of Louisiana. The frends of the prisoners may therefore feel quite easy with respect to their fate. At the same time it will be well to second with vigor the efforts being made for their liberation.
