

ARRIVAL OF THE AFRICA.
Three Days Later from Europe.
New York, April 8—7 1/2 P. M.—The Royal Mail Steamship Africa, with Liverpool dates to the 27th ult., being three days later, arrived at her wharf, at Jersey City, at 7 o'clock this evening. She brings thirty-six passengers.
The lower grades of Cotton had declined 1/2. Corn was dull and drooping. Flour had further declined 1/4.
ENGLAND.—The Ministers will consent to the dissolution of Parliament, as early as possible after Easter.
In the House of Lords, on the evening of the 24th, Lord Beaumont moved for the production of the papers explanatory of the present state of affairs on the river Plate.
The Earl of Malmesbury stated that he had taken steps in conjunction with the French Government, to open these South American waters to the commercial world, and that he had no objection to lay upon the table the last papers received.
On the 26th, Lord Monteagle moved for the appointment of a select committee for the revision of a scheme for the repayment of the advances to Ireland. The motion was agreed to.
In the House of Commons Lord Hume brought forward a motion for a reform in Parliament, giving to all house-holders and lodgers, occupying for twelve months, the elective franchise; and also that all votes at elections shall be taken by ballot—that the duration of Parliament shall be for three years, and that the proportion of representation shall be made consistent with the amount of population and property.
After debate, the House divided, and the motion was rejected by a majority of 244 to 89.
In reply to a question from Sir Charles Douglas, the Chancellor of the Exchequer stated that in introducing the bill on Monday next, the Secretary of State would undoubtedly mention the reasons which in the opinion of the Government renders that measure necessary.
Letters have been received by the Admiralty from Dr. Rae, who has given up as fruitless, the search of Sir John Franklin. He has examined about 500 miles of the new coast, and reached 70 deg. 30 min. north latitude, and 101 west longitude, on Victoria land.
Between nine and ten thousand of the Engineers, on a strike, had signed the employers' declaration, and returned to work.
AUSTRIA.—Vienna letters state that the Austrian Government has ordered a severe control to be exercised, in order to prevent the gratuitous distribution of Bibles, which had been sent out to Austria by the Biblical Societies in London, with a view of making proselytes to the Protestant religion.
FRANCE.—France continues tranquil.
An official announcement in the Moniteur states that the difference between France and Morocco had completely terminated—that the Emperor had written another letter to the President, informing him freely, and without mediator, with regard to the Court of Fez.
The laic decree of the President of the French Republic, it is expected, will be issued on the 29th inst. Nothing had transpired as to its precise character, but it is on all hands argued that it will produce an immense sensation.
The Directors of the Bank of France are determined to make advances on railway shares. They will advance 50 per cent, on the value of the shares of the first class, calculated according to the prices marked in the stock lists.
The Moniteur of the 26th publishes a law on administration and centralization.
The decree of the 28th March, 1848, in reference to Clubs is repealed, the 13th article excepted, which prohibits Secret Societies.
A decree has also been published, regulating the disciplinary system of the merchant navy.
The government candidate had been beaten at Lyons by 5,000 votes.
It is not considered that the President's opening address will be of much if any importance, and though but few are in the secret, it is believed it will merely contain a brief resume of what has been done since the second.
One thousand French political prisoners are to be confined at Algiers, 250 at Oran, and 400 at Bona.
A number of Italians had been arrested and lodged in the prison of the Prefecture of Police.
The Patrie says that among other questions to come under the consideration of the Council of State are the coinage of a copper currency, the restoration of certain condemned prisoners, and a fusion of the Orleans railway company.
A deputation from Havre had arrived in Paris, to protest against any additional duty on foreign sugars. The announcement of such increase duty had created an immense sensation throughout the French ports.
The Lyons manufacturers are still awaiting orders from America. The demand, however, for England and home consumption has hitherto enabled them to give full employment to their operatives.
Fresh orders from the German States had raised the price of Flour in Paris three francs.
It is rumored that the Empire will soon be proclaimed, notwithstanding the avowed opposition of Russia.
According to a decree issued, no speech of a Deputy shall be published without the consent of the Chamber of Deputies.
Deep sensation has been produced in Paris by the acquisition, in Belgium, of M. Thomas and Count De Houton, of the Bulletin Francaise, who were indicted for disrespectful language towards Louis Napoleon.
THE LATEST FROM FRANCE.—Paris, Saturday, 27th.—The Moniteur publishes a decree, stating that the Prefects will continue to submit to the Home office all matters relating to the general interest of the State, such as budgets and extraordinary imposts, &c., but will in future themselves decide as specified in the schedules annexed to the decrees.
The law of May, 1850, preventing the application of national property to the public service, except in virtue of law, has been repealed.
SPAIN.—The Madrid Gazette contains a communication from M. Calderon de la Barca, Spanish Envoy at Washington, with a letter of Mr.

Webster to him, dated February 24, in which the clemency of the Queen of Spain in pardoning the American prisoners engaged in the Cuban invasion, is duly acknowledged.
The editor of La Nacion has been arrested, and his caution money seized for publishing an article offensive to the President of the French Republic.
SWITZERLAND.—The Swiss journals announce that many political refugees, particularly French, have been sent into the interior, or received passports for England or America.
The extreme Radical party in Zurich had been successful at all the elections.
The reactionary journals are doing all they can to excite and keep up the discord between the Federal Council and the Central Government at Geneva.
ITALY.—Letters from Rome state that on the 15th the Pope appointed four new Cardinals, one of them being the Archbishop of Bordeaux. Prince Camillo had arrived at Geneva.
GERMANY.—The German Diet seems to be giving umbrage to Hanover, by interfering with questions at issue respecting the equestrian order.
The new Prussian Gazette has been seized four times, and is now prohibited in the Austrian dominions.
TURKEY.—A despatch dated Zara, March 14th, states that a force of 1700 men had been marched into Liasse, where the Greeks and Catholics had been discovered, and all the clergy, with two principal men of every canton seized and imprisoned. A proclamation had been issued, threatening with death all persons except Turks who secrete arms. Travellers, and even those possessing Austrian passports, have found great difficulty in making their journeys. Many Christians have had their means entirely exhausted, by the soldiers quartered upon them, and now wander about without shelter.
VALUABLE WASTE PAPER.—We learn from the Westmoreland Advertiser that a hand employed in the Paper Mill of Suedgrass, Reed & Co., on the Loyalbanna Creek, near New Alexandria, while emptying out waste paper, which had been purchased at the Post office in Pittsburgh last month, discovered a letter not opened. On opening and examining it, it was found to contain forty dollars, in two twenty dollar notes on a bank in New York. The letter was mailed in New York, the 12th day of January last, to a man in Pittsburgh, and was sold among a lot of waste paper to the said company, at one and a-half cents per pound to make paper of.
Mr. W. J. Read, one of the firm, returned the letter and money to the Post Office.

Read! Read! What Kier's PETROLEUM, OR ROCK OIL, HAS BEEN DOING.
A Natural remedy procured from a well in Allegheny County, Pa. four hundred feet below the Earth's surface! Put up and sold by Samuel M. Kier, Canal Basin, Seventh st., Pittsburgh Pa.
The beautiful balm from Nature's secret spring. To bloom of health, and life, to man will bring; As from her depths the magic liquid flows. To calm our sufferings, and assuage our woes.
A Most Remarkable Case of Total Blindness Cured by Petroleum.
We invite the attention of the afflicted, and the public generally, to the certificate of William Hall, of this city. The case may be seen by any person who may be skeptical in relation to the facts there set forth. S. M. KIER.
"I had been afflicted several years with a soreness of both eyes, which continued to increase until last September, (1850,) the inflammation at that time having involved the whole lining membrane of both eyes, and ended in a deposit of a thick film, which wholly destroyed my sight. I had an operation performed, and the thickening removed, which soon returned and left me in as bad a condition as before. At this stage of the complaint, I made application to several of the most eminent medical men, who informed me that my eyes would never get well." At this time I could not distinguish any object. By the advice of some friends, I commenced the use of the Petroleum, both internally and locally, under which my eyes have improved daily until the present time, and I have recovered my sight entirely. My general health was very much improved by the Petroleum, and I attribute the restoration of my sight to its use. I reside at No. 102, Second Street, in this city, and will be happy to give any information in relation to my case. WILLIAM HALL."
Pittsburg, Sept. 17, 1851.
Another Letter recommending the Petroleum.
NEWVILLE, Cumberland Co. Pa.
Mr. Kier: Dear Sir—Having been appointed by your travelling agent, who along last, agent for the sale of your Petroleum, and fearing it might not sell rapidly, inasmuch as so much worthless trash is sold by travelling agents, we only took two boxes from him, which has all been sold. Finding it to sell quite readily and actually to answer the various purposes for which it has been recommended, we thought we would order of you about four boxes more, as there is still a great demand for it. * * *
In regard to the efficacy of your Petroleum, we might add, that in every instance, without exception, where it has been tried, it was found to give immediate relief, particularly for pains in the limbs, back, &c., resulting from Bilious Intermittent Fever, which prevailed in this section to a very great extent, and invariably was followed by pains and swelling in the limbs. Your Petroleum, in these cases, (without exception,) was found to give immediate relief.
Yours most respectfully,
GILMORE & STOUGH.
A Bad Case of Inflammatory Rheumatism.
The following extracts are from a letter received from a young gentleman of Middleburg, Summit County, Ohio. They are attested by Charles Elden and Dr. Elijah Curtis, of that place:
"Mr. Kier: Dear Sir—Gratitude compels me to express my thanks for the discovery of your invaluable medicine. I was afflicted with that awful and disheartening disease, the Inflammatory Rheumatism, on the 21st of September last, whilst I was in Cleveland; and was brought home from that place to Middleburg, where I lay on my back for over two months. For three weeks of this time, I was in the most intense suffering and agony. I lay with my limbs in one position, and could not stir a muscle, nor have my bed changed. My screams could be heard all over the neighborhood, so intense was my suffering. When every other remedy proved valueless, I had recourse to your invaluable Petroleum, of which I had made but three applications, until I commenced to get better. I used altogether but two bottles and a half, and am now well. I can get any number of persons to testify to the above facts, if necessary."

Advertisement.
I have been suffering under the hands of physicians for these last four years and had lost already all hopes, for my evil was generally pronounced an affection of the lungs or consumption. At last I was advised to consult the German physician of Carrolltown. He after a careful examination, declared I had an aperteme in the region of the lungs, outwardly not to be perceived, and if I would submit to an operation he hoped he could cure me. After I had agreed he made a large incision in my chest, out of which at least two quarts of a brownish matter of a very disagreeable smell were discharged. After some applications, and the use of some medicine I was in the course of two weeks restored to my full health. Four weeks afterwards my sister was attacked by a severe nervous fever and fever, and she despaired of her life, but the same physician, Joseph Eberstaller, of Carrolltown, restored her to complete health. Both of us therefore owe this gentleman, next to God, life and health, and this is written to give him publicly a testimonial of our gratitude.

THE Great British Quarterlies AND BLACKWOOD'S MAGAZINE.

Continue to publish the following British Periodicals, viz:
THE LONDON QUARTERLY REVIEW (Conservative),
THE EDINBURGH REVIEW (Whig),
THE NORTH BRITISH REVIEW (Free Church),
THE WESTMINSTER REVIEW (Liberal),
AND BLACKWOOD'S EDINBURGH MAGAZINE (Tory).
These Reprints have now been in successful operation in this country for twenty years, and their circulation is constantly on the increase notwithstanding the competition they encounter from American periodicals of a similar class and from numerous *Electorals* and Magazines made up of selections from foreign periodicals. This fact shows clearly the high estimation in which they are held by the intelligent reading public, and affords a guarantee that they are established on a firm basis, and will be continued without interruption.
Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. *Blackwood*, still under the masterly guidance of Christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel" (both by Bulwer), "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by these publishers from the pages of *Blackwood*, after it has been issued by Messrs. Scott & Co., so that subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.
