CONSUMPTION DISARMAD OF ITS TERRORS!!

HASTINGS' COMPOUND SYRUP OF NAPHTHA. A quick and positive Cure for Consumption, decline, asthma, spitting of blood, night sweats onsky throat, wasting of the flesh, bronchitis, coughs, colds, and all deseases of the chest and

This celebrated preparation is pleasant to the taste, and is so speedy in its operations that paients plainly feel its good effects in a few minutes after taking the first dose.

Hastings' Compound Syrup of Naptha Is now acknowledged by all the ablest physicians of both hemispheres, to be a quick and postive remedy for arresting the formation of tubercles on the lungs; and removing those already formed: and also to be the speediest and most effective of all medicinal agents in the cure of all French, English, and American, c'oths, cassi- ases to which children and adults are liable; if other deseases of the thoat, chest and lungs. Language cannot express the value of Hastings' Nantha Surup in these diseases. It not only cures them effectually, but it gives immediate evidence of its ability to do so ; for in a few minutes after the first dose has been taken, the patient feels that a powerful agent is in the system, strongly working for his good. Its operations are never delayed:-It at once flies to, and attacks the root of the disease with an energy unknown to other medicines; and that disease must be deeply seated indeed which can resist its unrivalled influence. Hence it has frequently cured a painful cough in a day, which had defied other popular remedies for a month; and has removed difficulty of breathing and pain in the throat and chest, in a few minutes, by the surprising energy of its action in clearing the passages of bile and phlegm. It is believed that no person has given Hastings' Naphtha Syrup a trial, who has not felt benefit from it, and acknowledge its virtues. And this conviction is further established by the opinions of the London Launcet, London Medical Times, and most other responsible pubcations, devoted to the same interests. Until the appearance of the Naphtha Syrap, the medical faculty had always regarded Consumption as an incurable disease, and the records of medical science exhibited no authenticated case that weighed seriously against that opinion. Since Dr. Hastings' discovery, however, of the new and greatest property of Naphtha, when united with other ingredients, nearly a thousand cases of absolute phthisics positively cured through its agency, have been substantiated : and this well established fact, in connection with a mass of experiments successfully made of its virtues by the ablest physicians of Europe, clearly prove that Hastings' Compound Syrup of Naptha is a positive cure for Consumption, even in its worst stages. selection of goods, to country merchants at city remedy for those afflicted with Dispepsia, the asordinary sublety, strength, and pervasiveness: for the moment it is received into the system, it I'hysicians have failed, is the best evidence of extends itself throughout, making a passage of every pore, no matter how much clogged up they may have previously been by foreign substances. Hence it operates on the diseased lungs by dislodgeing the particles of corruption in the strength of its ascent to the upper regions of the frame land thus producing through ventilation; and hence it is a never failing remedy in Oppression of the chest and difficulty in breathing : person thus affected, feeling after taking it, as if it had all that infest the human system, it grows to an forced a passage through some channel which their disease had stopped up, and the re-opening of almost Indefinite length becoming so coiled and which was the only result necessary to the restoration of health.
