

For Canal Commissioner, THOMAS H. FORSYTH, of Philadelphia County.

For Auditor General, EPHRAIM BANKS, of Millin County.

For Surveyor General, J. PORTER BRAWLEY, of Crawford County.

A Visit to the New Railroad.

A few days ago we visited the three sections (Nos. 13, 17 and 18) of Messrs. Michael Burke & Co., on the New Portage Road, and that of Messrs. M'Granns & Reilly, Section 104, on the Central Railroad.

The Section of Messrs. M'Granns & Reilly, is situated immediately west of Allegheny tunnel, extending one mile and a quarter parallel and in close proximity to that of Messrs. Burke. On this section there are three heavy cuts and the same number of heavy thorough cuts.

On Sunday last, at the Summit, we had the pleasure of meeting with THOS. COLLINS, Esq., late member of the Legislature from this county. He has not yet fully recovered from the effects of the severe sickness which prostrated him for so long a period last fall, but is gradually improving.

Yesterday evening, between six and seven o'clock, as Mr. JOHN D. JONES, farmer, who resides three miles north-east of town, was proceeding in his two-horse wagon down the hill which leads from our town to Mr. John Williams, mill, on his way to take his wife home (who was at the house of her son, Mr. Robert Hughes, near the mill), his horses took fright, on account of the slipping of the neck-yoke attached to the tongue of the wagon, or the breaking of a bridle bit, and ran off. When opposite the mill, the horses, in turning suddenly round, upset the wagon, in one of the wheels of which the right leg of Mr. Jones was caught, and crushed, below the knee, in an awful manner.

Blair County Affairs.

The Standard of this week is out in opposition to the Whitney car wheel; says most truly that that wheel "has had its day," and that the wheels manufactured by Kelly and M'Laughan, and M'Farlanes of Hollidaysburg, are better adapted for railroads.

The ice cream saloons are already in operation in Hollidaysburg, and doing a smashing business. Messrs. Cowan and Hamlin, near Hollidaysburg, had each a horse stolen from them on Tuesday night week.

We learn from the Whig that the trial of Thomas Armstrong, Patrick Ryan, John Coughlin, Patrick Dwyer, Thomas J. Lynch and William Murray, indicted for riot and the murder of Cassidy at Plane No. 10 a short time since, was progressing. The Grand Jury failed to find two bills against twenty-five, or thirty others, and they were discharged.

DEATH OF JUDGE GIBSON.

This eminent jurist died at the United States Hotel, in Philadelphia, on Wednesday morning, May the 4th, at an advanced age. Judge SHANNON of Pittsburg, in announcing his death to the District Court, said:

"He spoke for Judge Williams, his Associate as well as for himself, when he assured the gentlemen of the Bar, that the announcement of the death of Chief Justice Gibson produced emotions of heartfelt grief, softened, it is true, by the reflection that he lived to an advanced age, and that his departure from earth had been preceded not by sudden but by lengthened preparations that the sunset of life was approaching."

It might not be amiss, continued Judge S., upon such an occasion as the present, to refer briefly to some of the leading facts connected with his brilliant judicial career. When quite a young man, John Bannister Gibson went to reside at Beaver, Pa., and there commenced the practice of the law. From this he was called to the position of President Judge of Common Pleas for one of the interior districts, whence he was appointed, on the 27th of June, 1816, a Justice of the Supreme Court, in the place of the Hon. Hugh H. Brackenridge, who died June 26th of that year.

For nearly thirty-seven years, the deceased sat upon the bench of the Supreme Court of this Commonwealth. During this long period, what vast interests were entrusted to him, what great principles were announced, and what confounding points and sophistical arguments were obliged to pass the grave and searching review of his comprehensive intellect! His opinions are scattered over and run through about sixty-six volumes of our Reports. Of what Judge in this country, or elsewhere, can so much be said. He materially assisted in laying the foundations and in building up the superstructure of our jurisprudence. Some of his legal opinions are masterpieces, which have justly won admiration even in the courts of Westminster Hall, and which will remain lasting memorials of his skill and genius.

In Greensburg, Dr. John Morrison, an old wheel-horse of the Democracy, has been appointed Postmaster. In Blairsville, Mr. Wilson Knott; and in Ligonier, Mr. John Hargrett, are appointed. All three are excellent men.

LOCAL AND EDITORIAL ITEMS.

Mr. Ivory will hereafter run his back daily, from the Summit to Ebensburg, leaving the former place on the arrival of the eastern and western cars, about 2 o'clock P. M. and the latter at 4 1/2 P. M. This is a good arrangement, and worthy of encouragement.

Messrs. HAMILTON & PERSHING, of Johnstown, manufacture a beautiful and substantial article of Stone-ware, which they offer for sale on fair terms. The specimens we have seen at the stores of Messrs. Moore and Davis & Lloyd, are excellent, combining beauty with strength and utility. Read Advertisement.

M'CLOSKEY, of Duncanville, advertises good and cheap buggies, &c., for sale at his establishment. If you want a wagon to "take a ride" in, that's the place to purchase one.

A sale of the effects of the late Daniel O'Keefe, takes place at the Allegheny Tunnel, on Monday, 16th of May.

The different military companies of this county will assemble for drill and inspection at Jefferson, on Friday the 20th day of May.

Arthur Spring is to be hung in Phila., on Friday, the 10th day of June.

The report that President Pierce intends visiting New Hampshire shortly, is incorrect.

Hon. JOHN SLIDELL was on Thursday last, elected United States Senator from Louisiana, for the unexpired term of Mr. Soule. He led his Whig competitor 33 votes.

Thomas Neary and Patrick Fitzgerald have been sentenced to death in New York for respectively murdering their wives. Intemperance was an adjunct in each case.

What's the difference between a swallow and a milk maid? One skims the water and the other skims the milk.

The bed-chamber of Napoleon, at St. Helena, is now a stable, and the room in which he died is used for threshing and winnowing wheat. This is a world of changes.

The Earl of Ellesmere is said to be coming to New York with his family, to act as the representative of the British nation at the great Exhibition to be held there.

A special correspondent of the New York Herald, under date of May 2, says the President has disapproved of Gov. Lane's course in New Mexico, and is determined to recall him.

We have learned that Edw. MILLER, Chief Engineer of the Pennsylvania Central Railroad, has resigned, which position was unanimously tendered to H. HAUFF, Esq. late Superintendent of the Company. The appointment of this gentleman is doubtless an excellent one.

FETTER is still engaged in his rooms in the Academy building, in Daguerreotyping the faces of a number of our citizens. He desires to "take the whole town" previous to leaving; all ye belles and beaux, boys and girls, young folks and old folks, engaged and un-engaged ladies and gentlemen, lately married and soon-to-be-married persons, hearken!—go and have your likenesses taken—to the Academy, go.

TROTTER MATCH.—On Saturday next, 7th inst., a trotting match for \$200 a side, will take place between Messrs. Andrews & Barr's mare, "HELEN MAR," and Col. W. K. Piper's mare "KATE," for the distance of one mile, the ground to be selected on the turnpike between the foot of the mountain and Hollidaysburg. The forfeit money is \$50. "Who'll bet on the bay?"

The copious showers of last night and to-day have clothed the earth and forests with a "living green." At last, the fruit trees are in bloom.

The "Mountain Echo, and Johnstown Commercial Advertiser and Intelligencer," is the title of a new Democratic paper published in Johnstown, this county, the first number of which is before us. It is published and edited by G. Nelson Smith, Esq., who is assisted by E. J. Pershing, Esq., a young gentleman of undoubted capacity and attainments, and a forcible and vigorous writer. The paper presents a very good appearance, and we hope its publication may result beneficially to the party in this county.

Mr. JOHN DOUGHERTY, of this borough, while engaged in pulling down an old frame house, on Tuesday, fell off the roof, cutting his forehead pretty severely, and bruising a leg.

IMPROVEMENTS.—The street leading from Litzinger's Hotel, north, will be one of the prettiest in town. Maj. Evans, Street Commissioner, has a force engaged leveling the western side walk, (which was curbed last fall), and when he is done, a plank pavement will be laid as far as the Catholic church. The residents have planted a number of shade trees, and it is to be hoped they will grow. The street fronting our office will be graded, curbed and paved this summer, as far south as the Academy, and when the work is completed, and our trees grow, we bet a hat 'twill be the street of the town. The same street, north of Main street, is being graded and curbed, and Mr. Lloyd has the plank ready to make the pavement. A number of buildings are being constructed in town, and others will be contracted for; so the town presents a scene of bustle and activity. Who says Ebensburg won't be a city yet?

GEORGE M'CANN, who has been so very ill at the Summit for five months past, with Typhus Fever, and who is known to most of our citizens, arrived in town on Tuesday evening. His numerous friends are pleased to learn that he is rapidly recovering, and soon will be "himself again."

As Mrs. PAUL KINGSTON was coming into town on Wednesday morning, to market, with butter, when opposite the residence of M. Hasson, Esq., her horse frightened at a dog and she was thrown off, but sustained no injury, except dislocating the thumb of one hand.

Mrs. Swishelm, in her letters to young ladies, says that "every country girl knows how to color red with madder." We have always noticed, that with all girls, the madder they get the redder they color.

The committee selected to examine applicants for the schools of this district, met on Tuesday, and concluded to retain the late teachers, Messrs. STEEL, BROPHY and PROSSER. The selection of these gentlemen, on account of their admirable fitness and qualifications, is gratifying to all. The schools open on the 30th of May.

The Cambria County Medical Society met at the office of Dr. W. A. Smith, in this borough, on Tuesday last, and the report of the committee, previously appointed, consisting of Drs. Smith, Lemmon and Sheridan, relative to the topography and most frequent diseases of the county, was unanimously adopted. The report will be presented to the State Medical Convention, which assembles in Philadelphia in a few weeks, to which Drs. How, Smith and Lemmon were appointed delegates. Officers for the ensuing year were elected. Dr. Lowman is now in New York, representing the society of this county in the National Medical Convention, at present in session in that city.

Judging from the prices paid at this season of the year in New York for vegetables, we think the inhabitants must be living rather "high." It is announced that people who have money enough, can obtain as many fine new potatoes as they want, fresh from Bermuda, for thirty-seven and a half cents per half peck, or three dollars a bushel; asparagus, for fifty-six cents a bunch; strawberries, one dollar a basket or fifty cents a mouthful; green peas, fifty cents a half peck; tomatoes, thirty-seven and a half cents a quart. The latter come from Bermuda, wrapped in paper and packed in boxes in the same manner that oranges are imported. Most of the green vegetables are brought from Charleston, S. C.; potatoes also, as well as from Bermuda.

A FORTUNE LEFT.—By the decease, without issue, of a certain Absalom Sharp, late of Mississippi, a very large fortune has fallen to his brothers and sisters, or their heirs, who are supposed to reside in Western Pennsylvania. Besides property in Mississippi, the deceased left an estate in Louisiana, appraised at the sum of \$70,000. His brothers were John, Henry, and Levi Sharp.

The search for a site for a Military Hospital has been renewed. The old Hero of Chautauque having failed to locate a suitable site for a hospital during the last Presidential campaign, the search has been lately renewed by Generals Twigg and Jessup, and Surgeon-Gen. Lawson. They visited the Blue Lick Springs of Kentucky, together with Harrodsburg and Drennon, with the view of locating the asylum; but whether they have met with any better success than the Old Hero has not yet been made public. Whether they were pleased or not with "that rich Irish Brogue," which they must have heard during their journey, is not stated.

The stable attached to Mr. Hannon's Hotel, and owned by Col. George M'Feeley, at Carlisle, was burnt down on Friday evening week. How the fire originated seems to be a mystery. Col. M'Feeley's loss is considerable—Mr. Hannon's, we believe, is not heavy. No insurance.

The Collins steamer Arctic, Capt. Luce, sailed for Liverpool at noon on Saturday, from New York, with two hundred passengers and a small amount of specie. Among her passengers were Ex-President Van Buren, Captain Folsom of California, Governor Kemble, Senator Folger of Vermont, President of the Georgia and Florida Railroad company; Hon. W. McMurray and James K. Paulding, Esq.

The Washington correspondent of the Baltimore Sun, says—Mr. F. A. Beelen, of Pittsburgh, Pa., has been appointed Secretary of Legation to Central America. He is a young gentleman of talents, education, and polished manners. Having had much intercourse with the Spanish American republics of South America, Mr. Beelen's knowledge of the customs and institutions of the people, to whom his principal is accredited, will be of the greatest service in the important negotiations which are to be opened with the Central American Governments.

Hon. W. P. Schell. The following resolution passed the House of Representatives of this State, immediately before the adjournment: Resolved, That the thanks of this House be, and are hereby tendered to the Hon. W. P. Schell, Speaker, for the ability, impartiality and strict integrity with which he has discharged the arduous duty of presiding over our deliberations, and for the courtesy and urbanity which have distinguished his deportment in our separation.

It was passed by a unanimous vote, and shows the high estimation in which Mr. S. is held by his brother members. Friend and foe, unite in saying that the duties of Speaker of the House were never more impartially and ably performed than by the late Speaker.

Temperance Hotel Burnt.—Four Lives Lost.

ROCHESTER, April 29.—The "Temperance House" in this city was destroyed by fire this morning, and we regret to add that three women and one boy, servants in the establishment, perished in the flames. One of the unfortunate women was named Catharine Coulon, aged 40 years. When the fire broke out, 120 boarders were asleep in the house, and for a time the most terrible consternation and confusion prevailed, many narrowly escaping from the flames. The loss on the building is estimated at \$25,000, to meet which there is an insurance of \$10,000. A large amount of personal property was also destroyed.

Santa Anna.

A Washington correspondent of the Journal of Commerce remarks: "Santa Anna, in his communication to Escobar, made a gratuitous declaration of war against the United States. Many suppose that he courts hostilities with the United States, for several reasons—to wit, that, in war, he can do as he pleases, having the supreme and uncontrolled power; and then, if the result of the war should not make him Emperor, or perpetual dictator, it will be to force an annexation of Mexico to the United States, and thereby save his head and his vast landed estates.

Through all his former vicissitudes Santa Anna has been able to preserve his lands. Those have never been confiscated. The first thing he did after landing at Vera Cruz, was to visit his estates near Jalapa. But in another violent revolution, he might chance to lose his lands, if not his life."

Steamboat Disaster on Lake Ontario.

OGDENSBURG, N. Y., May 1.—The steamboat Ocean Wave was destroyed by fire on Lake Ontario, at 2 o'clock on Saturday morning, when 60 miles above Kingston, on her passage to this place. Out of the passengers and crew, numbering 50 in all, only 22 were saved, so that 28 were either drowned or perished in the flames. Among the saved were Captain Wright and the mate and purser. When the fire was discovered the boat was a mile and a half from shore, and so rapid was the progress of the fire that the upper deck was consumed in fifteen minutes. The hull drifted off shore and continued burning for about two hours, when she went down. The persons saved were picked up by passing vessels, attracted to the scene by the glare of the flames. The Ocean Wave was owned by the Northern Railroad Company of Ogdenburg, and was fully insured.

Terrible Railroad Accident.

CHICAGO, April 26.—The express train which left here at 9 o'clock last night, on the Michigan Southern Railroad, came in collision at the crossing of the Central Road with the emigrant home train, and the most disastrous consequences ensued. The locomotive and baggage car of the express train were smashed; and it is thought from twelve to fifteen persons were killed, and fifty or sixty injured, some of them fatally. The emigrants on the Central Road are the principal sufferers, no person in the first class cars being seriously injured. The engineer, fireman, and conductor of the express train escaped. The tracks cross each other at nearly right angles.

CHICAGO, April 27.—Fifteen bodies from the scene of the late railroad accident were brought in last night. The Galena mail was robbed of the bags for Boston and Albany during the confusion of the collision. They are supposed to have contained packages of value.

BUFFALO, April 28.—The Chicago papers contain heart-rending details of the late melancholy accident. The entire road in the vicinity of the catastrophe was covered with the ruined cars and the dead and dying. One by one the wounded and uninjured were taken to the hospital, and the shrieks of the women, and the groans of the dying added to the horror of the scene.

One poor woman with both her legs broken, lies with a dead child in her arms, and two little ones uningured clinging to her. A young woman stood by the dead bodies of her father, mother, and brother, shrieking like a maniac.

Three children, from eight to ten years of age were taken out and recognized by their father, who is left alone. Beneath the edge of a car appeared the bald head and hand of an old man—a leg of one and the mangled body of the other. The scene at the depot was awful in the extreme when the remains were brought in. The floor was covered with blood and heaps of limbs gathered together in a corner, while many bereaved ones were searching for lost friends or relatives.

The papers are loud in their denunciations of all connected with the roads. CHICAGO, April 28.—The Coroner's Jury rendered their verdict last night on the bodies of the sixteen persons killed by the recent Railroad collision.

They found that the deceased came to their deaths by a collision between the trains, caused by the gross carelessness and gross neglect of Moses Tyler, Conductor, and Thomas Backman, Engineer, of the Michigan Central Railroad, and Herbert L. Whitney and Edward Davis, Engineers on the Southern road, holding them as causing the deaths of the bodies before them. They also admitted Mr. Juliette, superintendent of the machine shop, for not furnishing proper lights on the engines of the Central Company.

Robert Davis, a fireman on the Southern Railroad, and Whitney, Davis, Tyler and Backman were committed to await their trial. Those named in the verdict are held for manslaughter. The injured parties are well cared for by the citizens of Chicago.

From Washington.

WASHINGTON, April 26th, 1853. Instead of the number of office seekers diminishing, they appear to be on the increase. On Friday and Saturday the halls and staircases of the White House were crowded with the "To-day the President threw the door of his office open, and admitted the crowd all at once. It was a motley assemblage, from aspirants to full commissions down to messengers, whilst some looked as if they would even be content with a suit of old clothes. They poured into the room for several hours, presenting a humiliating spectacle.

It is understood that at the last two or three cabinet sittings, the foreign appointments have been under consideration, and that to-morrow a large batch, including first-rate missions, charges, and consuls, are to be finally disposed of. Alexander W. Buel, of Michigan, for Berlin, (a protégé of Gen. Cass,) is considered pretty certain. Mr. Dilaye, of Syracuse, will very likely get a charge.

George Sanders, it has been rumored for several days, is a candidate for the London consulate, though his best friends are fearful of the Premier. It is the last card of young American. Richard Stanton, of Kentucky, member of the last Congress, is here, pushing for Commissioner of Public Buildings—two thousand a year. Collectors Brouson and Maxwell are still here, squaring up the Custom House books.

General Pierce received visitors to day for several hours, including office-seekers. We did not think so many were left in town. The Secretary of the Interior has been amusing himself with the guillotine. Half a dozen clerks have been decapitated. John Wilson, of the land office, remains yet awhile, it is said as a special favor to one or two Southern Senators. His last official act, we believe, was the discharge of Kosciuszko's nephew, a democrat, from a petty clerkship.

Harmony at the White House.

The Washington gossip writer for the Republic, in that journal of Monday, gives the following, which does not look like if there were dissensions between Gen. PIERCE and his Cabinet: "One has but to catch a glimpse of the President's countenance as seen by many this forenoon when he was walking the grounds surrounding his mansion with Mrs. Pierce (the Cabinet being at that time in session) to understand how utterly unfounded are all the stories concerning dissensions in his official family. No man could wear a brow so unclouded as his was, whose mind was oppressed as his would have been under troubles or vexations of that sort. I know positively that from the 4th of March to this hour nothing has occurred in the slightest degree to mar the harmony of the action of the Administration. President Pierce is really the only Chief Magistrate whom we have had for many long years who has failed to find himself plunged in a sea of perplexities ere the end of the first month of his Presidential term."

Accident at a Rolling Mill.

A letter from Mr. Thomas Johnson, mill-utter, formerly of Shoenerberger's mills, in this city, says the Pittsburg Dispatch, dated at Sharon, Mercer county, on Friday of last week, gives the following particulars of the recent fatal accident at that place. "On Thursday evening, about 8 o'clock, the mill took fire, on the side toward the creek, from the scrap furnace. It only burned about two or three yards of the shingles. The workmen got upon the roof to extinguish the flames, after which many got upon the top of the mill to see where fire had been, when Mr. Tetzel halted them to come away or would fall; as he spoke, it gave way and fell, eleven persons; eight caught by the edge of the main roof, pulling themselves upon it—the others went down fifty feet. Reese Williams fell lengthwise across the muck-rolls, breaking both his legs, and receiving internal bruises; he cannot live till noon. A lad who fell, struck his head against the end of the spinner, and died in ten minutes. The others fell together, in a heap, at the end of the rolls. Scott, the mill iron shearer, died about one o'clock next morning; both his legs were broken—one of them in two places. A straightener at the bar-mill died at ten o'clock. A helper of Mr. Matthews died in an hour after. Wm. Jordan, a shingler, is dead by this time. I think he is a son of Mr. Jordan, who shingled with Harris at Shoenerberger's. Wm. Coats had his skull fractured, and his collar-bone broken, but the physicians think he will recover. John Mallen is not seriously injured, but feels pretty sore internally. John L. Jones had one arm, and the elbow-bone broken. Thos. Thompson, although his arm is broken, got off more easily than others. Patrick Mouton had the teeth of his upper jaw knocked out, and received internal injuries. John and Joseph Bryant, and others, held on to the roof. We have doctors here from New Castle, Warren, Greenville, and other places. As the mill is closing, you must wait another occasion for further particulars."

SEVEN persons are dead this morning, resulting from the late accident. Killed—Wm. Scott, Reese Williams, Wm. Graham, a man named Jordan, of Wheeling, Mr. Allbright, and a boy named Barr. John L. Jones has since died.

The Case of Mary Delaney.

At about eleven o'clock on Saturday morning April 30th, the jury in the case of the Commonwealth vs. Mary Delaney, indicted for the murder of Jacob Shaw, came into the Court-room, and on being asked whether or not they had agreed upon a verdict, the foreman handed a written verdict to the Court, which was recorded without anything being said. The Clerk then said, in the usual form—"Listen to your verdict as the Court have recorded it—you say that 'wealth and Mary Delaney, you find her guilty of manslaughter, and so you say all.'" The jury signified that this was their verdict, when upon the counsel for the prisoner asked that it should be set aside on the ground that it was not pronounced by the jury in open Court, but delivered in writing, and recorded before the jury said anything, or had been asked to say anything; nor did they at any time pronounce a verdict.

During the proceedings, the prisoner was in Court. At first she looked composed and in measure cheerful, but upon the rendition of the verdict she burst into tears. The Court ordered her to be remanded for the present. The jury was out for eight days and fourteen hours upon this case—an unprecedented occurrence in the Criminal records of Allegheny County.

We were informed that one of the jurors in the case lost a child during his imprisonment in the Court House, and that the juror was decided against him by default; both occurrences being in all probability traceable to his absence from his family.—Pittsburg Union.

FROM OUR EXCHANGES.

U. S. MAIL STOPPED.—About 3000 hearers, who were on a strike in New York, on Wednesday, undertook to stop a car containing the U. S. mail. The driver was knocked down and severely beaten, and Mr. Peck, the mail agent, in self-defence, was compelled to fire upon the crowd. The discharge took effect in the thighs of one of the men, when the rest immediately dispersed.

A singular fatality seems to hang over the Japan Expedition. The New York Express states the intelligence has been received of an accident to the steamer Susquehanna, which, it is said, will probably disable her from proceeding with the rest of the squadron. She broke her shaft in February last, and it was doubtful whether she would be able to return home for repairs.

The Norwegian Colony in Potter county, Pa., established by Ole Bull, already contains 700 inhabitants, and owns 140,000 acres. Ole Bull has a superb Norwegian cottage there, and proposes to establish a polytechnic school for the advancement of the arts and sciences.

CHIEF JUSTICE TANEY.—The report mentioned in a New York paper, that the Hon. Roger B. Taney Chief Justice of the U. S. Supreme Court, was about to resign in consequence of advanced age and ill-health, it is said to be unfounded. Judge Taney is said to be in good health, and bids fair to continue, as he has done for years, to adorn the highest judicial post in the country. He is at present faithfully attending to his duties in the U. S. Circuit Court in Baltimore.

THE BONAPARTES IN AMERICA.—The Emperor of France has extended an invitation to the Bonaparte family of Baltimore to pay a visit to the imperial dominions. Young Jerome Bonaparte, who now belongs to the United States Army, has obtained leave of absence for six months, and will soon leave for France. He is a grandson of the brother of Napoleon the First.—N. Y. Mirror.

MURDER IN ARMSTRONG COUNTY.—The Allegheny Enterprise states, that on Friday last, a man named Cassell, captain of a section boat on the Pennsylvania canal, when near Freeport, got off the boat to fasten a line on the barn side, and while doing so, was stabbed by some villain, and died immediately. The crew of the boat searched the neighborhood, but were unable to find the murderer. The murder created a great excitement in Freeport, and a large number of the citizens started in search of the wretch, but the latest accounts state that he had not yet been discovered. The darkness of the night prevented those on the boat witnessing the deed.

LEAHY'S TRIAL.—The Portage City Republic contains a portion of the trial of Edward Leahy, (better known as the monk of La Trappe,) for the murder, by shooting, of Bernard Manly. The trial is before Judge Larcabee. Leahy pleaded not guilty to the indictment. Francis J. Whiting testified that he saw the prisoner fire three shots, one at the deceased, which caused his death, and two at Abraham Morton. The pistol was a revolver, and two charges were left in it. Leahy stated to the witness that the murder was just, and that the Lord told him to do it. Manly lived about 45 minutes after the shot. Leahy's testimony, as far as it is published, is conclusive as to the fact that Manly was shot by Leahy. The trial is before Judge Larcabee. Leahy pleaded not guilty to the indictment. Francis J. Whiting testified that he saw the prisoner fire three shots, one at the deceased, which caused his death, and two at Abraham Morton. The pistol was a revolver, and two charges were left in it. Leahy stated to the witness that the murder was just, and that the Lord told him to do it. Manly lived about 45 minutes after the shot.
