

Another Railroad Accident.

New York, May 10. The emigrant train and New York express train from Dunkirk, came in collision last evening on the Hamapo branch of the Erie Railroad.

The accident on the Erie Railroad was caused by the issuing of a new time-table, furnishing only one conductor with it. The collision is described as most frightful. The engines were completely demolished.

A great indignation meeting was held in Newark yesterday in regard to the recent accident on the Railroad. A memorial to the Legislature was adopted, calling for prompt action in order to secure the safety of passengers.

Last Moments of Vice President King.

The Southern Republic has received from Mr. F. K. Beck a kind note from the Vice-President—a brief account of the last moments of Mr. King. It says: "He was quiet and resigned to the fate which he had seen for some time awaiting him."

Examination of Attorneys.

The following racy examination of a candidate for admission to the bar, is taken from a Western law journal, and is decidedly a good bit. The examiner commences with: "Do you smoke?"

"I have you a spare cigar?" "Yes, sir," (extending a short six.) "Now sir, what is the first duty of a lawyer?" "To collect his fees."

"When making a bill of costs." "When they occupy the antagonistic position; I assume the character of plaintiff and defendant."

Model Locomotive.

The Philadelphia Argus says:—The Messrs. Norris, of this city, have just completed, per order of the U. S. Government, the model locomotive Japan, with tender and passenger car complete, which, as a whole, is a most beautiful specimen of American skill.

It is known as a fact in geology, that below the depth of thirty feet the earth becomes regularly warmer as we descend. On an average, the increase is at the rate of one degree of Fahrenheit for every fifth foot.

A Touch of Nature.

A car, full of passengers, recently passed over the Western railroad, in which occurred a simple but touching scene, worthy of record. One of the passengers was a woman, carrying in her arms a child who annoyed every one by its petulance and cries.

The train stopped at a station, when an old gentleman arose, and made the simple statement that the father of the child had died recently on a visit to her friends, and had died while on the visit; that her dead body was on board the train and that the child was in the arms of a woman who was a stranger to it.

LYON'S MAGNETIC PILLS

For the Destruction of RATS and MICE, within five minutes after being thrown in their vicinity. Read the following Letters:

I have made a chemical examination of the Vegetable Powder prepared by Mr. Emanuel Lyon, for the purpose of destroying insects. I do not find it to contain anything deleterious to insects, or what might be considered poisonous to the human species; but it is very destructive to insects, whenever they are forced to inhale the fine particles of dust occasioned by throwing the Powder forcibly in places where they frequent.

I have analyzed Emanuel Lyon's Magnetic Powders for the destruction of insects, and certify that it is entirely free from mineral or other corrosive poison. As the result of my examination I would say that, with the usual commission off, therefore patients who cannot obtain it in the places where they reside, should write to us direct for a supply, and we will forward it to them without delay (packed up in a manner to secure its safe delivery) provided they can be reached by Express, Stage, Route, or any other mode of conveyance.

EMANUEL LYON, Esq. Dear Sir:—It affords me great pleasure in stating that I have extensively used your Powder for the destruction of Insects of all kinds, (especially Bed Bugs and Roaches) and unhesitatingly pronounce it the best and only article so effectual in its operation.

I have used Emanuel Lyon's Magnetic Powder and Pills for the destruction of Insects and Vermin, and I have found the most happy result, and cheerfully recommend them to those who may be troubled with these insects, as a sure method of destroying them.

VAYER'S CHERRY PECTORAL

For the Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

To cure a cold, sore throat and soreness of the body, take the Cherry Pectoral on going to bed, and wrap up warm, to sweat during the night.

For a cold and cough, take it morning, noon, and evening, according to directions on the bottle, and the difficulty will soon be removed.

From two eminent Physicians in Philadelphia, Pa., April 10th, 1851. We have given your Cherry Pectoral an extensive trial in our practice, and find it to surpass every other remedy we have for curing affections of the respiratory organs.

To singers and public speakers this remedy is invaluable, as by its action on the throat and lungs, when taken in small quantities, it removes all hoarseness in a few hours, and wonderfully increases the power and flexibility of the voice.

Whoooping cough may be broken up and soon cured by the use of Cherry Pectoral. The influenza is speedily removed by this remedy. Numerous instances have been noticed where whole families were protected from any serious consequences, while their neighbors, without the Cherry Pectoral, were suffering from the disease.

I write to inform you of the truly remarkable effect of your Cherry Pectoral in this place, and in my own family. One of my daughters was completely cured in three days of a dreadful Whooping Cough, by taking it.

DR. VALENTINE MOORE. The widely celebrated Professor of Surgery at the Medical College, New York City, says: "It gives me pleasure to certify the value and efficacy of 'Ayer's Cherry Pectoral,' which I consider peculiarly adapted to cure diseases of the Throat and Lungs."
