PROCRASTINATION IS THE THIEF OF TIME.

Delay is dangerous—neglect that cold—that cough, a few weeks, and the hope of recovery be lost to you forever. Let not any pecuniary consideration deter you from trying to save your life and health, while there is a chance. Consumption is annually sweeping off thousands to the tomb; no disease has baffled the skill of the physician like it: no physician, perhaps, has done more for the cause of suffering humanity than Dr. Wistar. An "ounce of prevention is worth a pound of cure," therefore, before your lungs become ulcerated, and so diseased that no human means can save you from an early grave, try in season, try at once, a medicine, which has been of such infinite value to thousands—obtain a bottle of Dr. Wistar's Balsam of Wild Cherry, take it, get another if necessary, persevere in using it, until you have removed the disease entirely, which if neglected will terminate your life.

Pulmonary Consumption has, until within a few years, been generally considered incurable, although many medical men of the highest standing among whom we might mention Laennec and his friend Bayle—both distinguished authors—admit that this dreadful disease may be cured, even in its most advanced stages when the lungs are not completely disorganized. The remedy which we now offer, Wistar's Balsam of Wild Cherry, not only emanates from a regular Physician but has been well tested in all the complaints for which it is recommended, with entire success.
