TORN EVANS, JOHN HARE, EVAN EVANS, HUGH JONES, NEW RM!

THE PUBLIC ARE HEREBY INFORMED I that the late firm of Evans & Jones has entered into a co-partnership with John Evans and John Hare in the Tannery and Boot and Shoe manufacturing business. Their friends are invited to call at the old stand of Evans & Jones, a few doors east of Carmon's Hotel, and the Tannery establishment

fermerly owned by J. Moore. They have constantly on hand a large assortment of French calf-skin, Men and Womens' Morocco Boots and Shoes, and are prepared to execute

work on the shortest notice. The highest cash prices paid for hides either in

trade or cash. Being practical workmen themselves, and using none but the very best materials, they are confident they can execute work as well and as cheap as any establishment in the country.

ROBERT GALBRAITH.

TO PHYSICIANS.

The attention of the Medical Profession in Penn. s respectfully invited to the following important

1. Not less than two thirds of the American women are afflicted with Prolapsus Uteri, and its associated complaints; the result of natural delicacy of organization; defective physical education early marriages; the various accidents of pregnan cy, and labor, and general neglect of hygenic measures.

2. That as Prolapses Uteri is a displacement, or "falling" of this organ, it necessarily involves a like descent, or dragging of the Heart, Lungs, Stomach, and Bowels, and that one fundimental condition of cure in all these cases, is, the application of such a Physiological brace, or supporter, as will most effectively brace the weak back and without compression, assist the relaxed and over-taxed muscles in performing their natural affice of lifting and holding in their place, the dragging viscera of he Chest and Abdomen from the depressed Uterus. The observation of every Physician, and the extenave and increasing use of abdominal supporters, (so called) furnishes conclusive proof of this 3. That the Supporters now in use never have received the approval of the profession, because,

they all, in common, act as heating and confining damps, compresses, and relaxing poultices, creating a necessity for their perpetual use by restraining the freedom and exercise of the muscles, which they should only assist, and, also, aggrarating the "falling" and dragging, by their conday and pressing rather, than their bracing and elevating tendency. 4. In view of the above facts, which every Physician has been compelled to feel but too keenly, is

it not the duty, as well as the interest of the Profession, to seek for an instrument which acts upon established principles of pathology, and which is at once effective, and necessary to the success of the practitioner, and professional in its origin and de-The undersigned, therefore, acting in accordance with the true interests of the Profession, and after nuch investigation and outlay, now offers to them as instrument which fully meets all the above indieations. The Brace invented by Dr. Banning of N. Y., has alone received the approbation of the Piofession, or taken rank as a permanent contribu-

tion to Medical Science. While it supports the weak back and lifts up the abdominal viscera, the andersigned, by combining it with a recent invention, has added greatly to its efficiency in erecting the body and expanding the chest, and these instru-ments are believed to fulfil every indication that can be derived from mechanical support, while acting in complete harmony with the forces of nature. Desirous of introducing these Braces through the cooperation of Physicians, and being enabled to fur-

aish themat Manufacturers prices you are respectfully referred to the annexed quotations : Fine Steel Body Brace, Retail Price, \$10.00 Silver Plated 15.00 Fine Steel Erector Brace, Retail Price, 15.00 Silver Plated " 26,00 Twenty per cent discount off these prices to

Advantages of the Body Brace over Other Support ters,-1st. It is cool. 2d. It is light. 3d. Its pads can all be shifted up and down, right or left, as frequently as the necessity of the case may require. 4th. Its great and universal flexibility. 5th. It LISTS UP-ALL OTHERS BEAR DOWN. 6th. Its pads are four, and press on the weak hips, and particularly or the weak back, supporting, yet not restraining the body. 7th. Its pads being of naked horn, stimulate and harden the muscles, while soft and cushioned ones (like poultices) relax and weaken, through heat and perspiration, and soon become rancid. 8th, It is so constituted as to admit of attaching to it any proper spinal apparatus, and also the most perfect pile and hernial truses. 9th, It may combine with its mechanical influences the virtues of the galvanic battery, locally or generally applied.

The Erector Brace and Chest Expander, in addition to the above, makes pressure upon the front of the shoulders, and without constraint or compression, erects the body, EXPAN S THE CHEST, and promotes health, grace and beauty. It is free from straps, bandages, or compre-ses, acts in harmony with nature, and defies scientific objection .-For those who have weak backs, stooped shoulders, narrow or flattened chests or defective forms it is the best invention ever presented to the public.

RULE OF MEASUREMENT .- For the Body Brace draw a tape snugly around the body, one and a half inches below the tips of the hip bones, over the linen-for the Erector Brace, add measurement around the chest, under the arm-pits, and send the number of inches, eash companying the order, and the Brace will be sent to order, with an explanatory circular; and exchanged to suit, provided it be immediately returned, in an unsoiled condition.
