

PUBLIC BABY HOUSE.—A subscription is now going round, towards which \$6000 have been raised, for the purpose of establishing in New York city, certain houses on the model of those in Paris, where women go out to work may deposit their children during their absence. The infants will be tickled, and at the proper hours the mothers, on producing their checks, can return to feed them. In the intervals the children will be provided with nurses. Institutions of this kind have proved highly successful in Paris, where there are over twenty already in full operation.

PROCASTINATION IS THE THIEF OF TIME.—Delay is dangerous—neglect that cold and cough, a few weeks, and the hope of recovery be lost to you forever. Let not any pecuniary consideration deter you from trying to save your life and health while there is a chance. Consumption is annually sweeping off thousands to the tomb; no disease has baffled the skill of the physician like it; no physician, perhaps, has done more for the cause of suffering humanity than Dr. Wistar. An ounce of preventative is worth a pound of cure, therefore, before your lungs become ulcerated, and so diseased that no human means can save you from an early grave, try in season, try at once, a medicine, which has been of such infinite value to thousands—obtain a bottle of Dr. Wistar's Balsam of Wild Cherry, take it, get another if necessary, persevere in using it, until you have removed the disease entirely, which if neglected will terminate your life. Pulmonary Consumption has, until within a few years, been generally considered incurable, although many medical men of the highest standing among whom we might mention Lænnec and his friend Bayle—both distinguished authors—admit that this dreadful disease may be cured, even in its most advanced stages when the lungs are not completely disorganized. The remedy which we now offer, Wistar's Balsam of Wild Cherry, not only emanates from a regular Physician but has been well tested in all the complaints for which it is recommended, with entire success.

TRY BARRELS INDIAN LINEMENT.—It is clear and pleasant to use. Warranted all it is recommended or money paid back. Prepared by H. G. O. Cary, Druggist and Chemist, Cleveland Ohio, to whom all orders should be addressed. Sold by an authorized Agent in every town in the State. For sale by Fred. Kittel, Ebensburg Pa., and by Hughes & Wherry, Jefferson Pa.

H. T. COFFEY, M. D.
ANNOUNCES TO THE PROFESSION, THAT he has opened, in the rooms adjoining his office, in Hollidaysburg, the
SURGICO-MECHANICAL INSTITUTE, for the application of approved physiological supports, in the treatment of Chronic Disease, and those numerous Weaknesses and Deformities of the body, in which support to the relaxed and dragging muscles is an important condition of cure, and necessary to the success of internal treatment.—All the appliances used, are endorsed by many of the most eminent members of the Profession, and consist, in part, of Body Braces, for Trochanter Uteri, (or Falling of the Womb), and the diseases of the Heart, Lungs, Stomach, Bowels and weakness of the Brain and Nerves, which result from such "falling";—Spinal Supporters, for every variety of Spinal Affection,—Chest Expanses, to erect the body, and enlarge the Chest,—Pile and Perineal Elevators, Hernal Trusses, etc. The increasing number of cases of chronic disease, especially such difficultly the country practitioner has in procuring any mechanical aid, much less those that act in harmony with nature, induces the undersigned, at much cost and labor, to supply what is alike, a professional and a personal necessity to guard the public against the imposition of unscientific and injurious contrivances.
Physicians, and all others interested, are invited to call and examine. Those who desire to give their patients the auxiliary benefit, of any variety of scientific instruments, can send their patients to the Institute for that purpose, without risk of any abuse of such confidence.
A discount of 20 per cent to the profession on all instruments furnished them, or at their request.
A room will be fitted up especially for Ladies, with a ready in attendance.

Life and Speeches of Henry Clay,
WITH A PORTRAIT.
A new view of the Birth Place of Mr. Clay. In one handsome large octavo volume of 1,300 Pages beautifully bound in cloth. Gilt.
Price three Dollars.
Original in two Volumes, cloth, \$3.50.
The work here presented is intended to trace clearly the career of Mr. Clay, from the entrance on the stage of public life down to the period of his death—mainly by the light of his own lofty, persuasive and impassioned eloquence. Mr. Clay's parliamentary efforts, clear, direct, and vigorous, embody all the illustration that is needful to their full understanding—the great importance, variety and instructive interest of the topics he generally discussed—the character and ability of the orator, the direct and exact bearing of his arguments on the controversies and interests of the times, all contribute to render his speeches among the most valuable contributions of Patriotism and Genius to the enlightenment and elevation of the American people.
JAMES L. GIBSON, Publisher.
No. 112 Chestnut Street, Philadelphia.
Good active men, who wish to engage in the sale of the above, will be allowed a discount sufficiently large to enable them to make a first-rate business of it. For full particulars, apply to

COACH MANUFACTORY.
THE subscriber would respectfully inform the citizens of Ebensburg and the public generally, that he will carry on the Coach Making, including the Smith work at the Machine shop formerly occupied by Mr. Anderson, in the rear of E. Hughes' Store; where by using none but the choicest material, and employing none but the best workmen, he hopes to convince all that will do them the favor to examine his work, that in point of durability, appearance or cheapness, it can be excelled by any similar establishment in the State or elsewhere. Persons wishing a bargain in the purchase of a carriage, will consult their own interests by giving him a call. They are prepared to supply the following kinds of Vehicles, viz:
Buggies of different qualities and prices, Barouches, Chariottes, one and two horse rockaways, close quartered Buggy and C-Spring Coaches; second hand work of different kinds, &c., making a variety that will suit all tastes and all purses. Repairing done with neatness and dispatch.

TO PHYSICIANS.
The attention of the Medical Profession in Penn. is respectfully invited to the following important facts:
1. Not less than two thirds of the American women are afflicted with Prolapsus Uteri, and its associated complaints; the result of natural debility, or of defective physical education; the result of marriages; the various accidents of pregnancy, and labor, and general neglect of hygienic measures.
2. That as Prolapsus Uteri is a displacement, or "falling" of this organ, it necessarily involves a like descent, or dragging of the Uterus, Ligaments, Stomach, and Bowels, and that one fundamental condition of cure in all these cases, is the application of such a Physiological brace, or supporter, as will most effectively brace the weak back and without compression, assist the relaxed and over-taxed muscles in performing their natural office of lifting and holding in their place, the dragging viscera of the Chest and Abdomen from the depressed Uterus. The observation of every Physician, and the extensive and increasing use of abdominal supporters, (so called) furnishes conclusive proof of this.
3. That the supporters now in use never have received the approval of the profession, because they all, in common, act as heating and confining cloths, compress, and relax the parts, creating a necessity for their perpetual use by restraining the freedom and exercise of the muscles, which constitute the support of the body, and thus, by "falling" and dragging, by their crowding and compressing rather than their bracing and elevating tendency.
4. In view of the above facts, which every Physician has been compelled to feel but too keenly, is it not the duty, as well as the interest of the Profession, to seek for an instrument which acts upon established principles of pathology, and which is at once effective, and necessary to the success of the practitioner, and professional in its origin and design?
The undersigned, therefore, acting in accordance with the true interests of the Profession, and after much investigation and outlay, now offers to them an instrument which fully meets all the above indications. The Brace invented by Dr. Banning of N. Y., has alone received the approbation of the Profession, and has ranked as a permanent contribution to Medical Science. While it supports the weak back and lifts up the abdominal viscera, the undersigned, by combining it with a recent invention, has added greatly to its efficiency in erecting the body and expending its strength, and thus, insures the body to fulfill every indication that can be derived from mechanical support, while acting in complete harmony with the forces of nature.
Desirous of introducing these Braces through the cooperation of Physicians, and being enabled to furnish them at Manufacturers prices you are respectfully referred to the annexed quotations:
Firm steel Body Brace, Retail Price, \$10.00
Silver Plated " " " " " 15.00
Fine Steel Erector Brace, Retail Price, 15.00
Silver Plated " " " " " 20.00
Twenty per cent discount off these prices to Physicians.
Scientific, Treatise, and Descriptive Essay, will be sent to Physicians, gratuitously, by addressing
Dr. H. T. COFFEY,
Hollidaysburg, Pa.
Feb. 3, 1854—14m.

Advantages of the Body Brace over Other Supporters.—It is cool. It is light. It is made of pads and is shifted up and down, right or left, as frequently as the necessity of the case may require. It lifts its great and universal flexibility. It lifts UP—ALL OTHERS BRACE DOWN. It is pads are four, and press on the weak hips, and particularly on the weak back, supporting, yet not restraining the body. It is made of malleable iron, and stimulates and hardens the muscles, while soft and cushioned ones (like poultices) relax and weaken, through heat and perspiration, and soon become rancid. It is so constituted as to admit of attaching to it any proper spinal apparatus, and also the most perfect belt and hernial truss. It may combine with its mechanical influences the virtues of the galvanic battery, locally or generally applied.
The Erector Brace and Chest Expander, in addition to the above, makes pressure upon the front of the shoulders, and without constraint or compression, assists the back EXPANSES THE CHEST, and promotes health, grace and beauty. It is free from straps, bandages, or compresses, acts in harmony with nature, and defies scientific objection.—For those who have weak backs, stooped shoulders, narrow or flattened chests or defective forms it is the best invention ever presented to the public.
For the Body Brace, draw a tape snugly around the body, one and a half inches below the tips of the hip bones, over the line—For the Erector Brace, add measurement around the chest, under the arm-pits, and send the number of inches, cash accompanying the order, and the Brace will be sent to you, with an explanatory circular, and explained to suit, provided it be immediately returned, in an unsoiled condition.
