Shocking Tragedy in California.

white men, named Guild and Ingalls, while on a prospecting tour, in company with nineteen Chinamen, were lately murdered on McCloud's river, Railroad and Adams and Co's Express, at the lowtwenty miles east of Pittsburg, Shasta county, by the Indians. They were camped, and fifteen Indians came into the camp. The Indians appeared friendly at first, but upon a word from the chief they seized the guns and ran away with them. Ingalls seized a club and struck the hindmost Indian, and knocked him down. The Indians imediately commenced firing on Guild and Ingalls | Swamp. and also at the Chinamen. Six of the Chinamen escaped, and came to Pittsburg. A party started out immediately, and found the body of Ingalls; one arm cut off at the elbow, and his head smashed up horribly with stones. They also found the bodies of thirteen Chinamen ; three had their arms cut off, and all their heads had been smashed in with stones. The body of Guild could not be found.

Advantages of the Body Brace over Other Suppor-ters.—1st. It is cool. 2d. It is light. 3d. Its pads can all be shifted up and down, right or left, as frequently as the necessity of the case may require. 4th. Its great and universal flexibility. 5th. It LIFTS UP-ALL OTHERS BEAR DOWN. 6th. Its pads are four, and press on the weak hips, and particu-Brly on the weak back, supporting, yet not restrainisy the body. 7th, Its pads being of naked horn, stimulate and harden the muscles, while soft and cushioned ones (like popltices) relax and weaken, through heat and perspiration, and soon become rancid. 8th, It is so constituted as to admit of attaching to it any proper spinal apparatus, and also the most perfect pile and hernial truses. 9th, It may combine with its mechanical influences the virtues of the galvanic battery, locally or generally applied.

The Krector Brace and Chest Expander, in addition to the above, makes pressure upon the front of the shoulders, and without constraint or compression, erects the body, EXPANDS THE CHEST, and promotes health, grace and beauty. It is free from straps, bandages, or compre-ses, acts in harmony with nature, and defies scientific objection. For those who have weak backs, stooped shoulders, narrow or flattened chests or defective forms it is the best invention ever presented to the public.

RULE OF MEASUREMENT .- For the Body Brace, draw a tape snugly around the body, one and a half inches below the tips of the hip bones, over the linen-for the Erector Brace, add measurement around the chest, under the arm-pits, and send the number of inches, cash companying the order, and the Brace will be sent to order, with an explanatory circular; and exchanged to suit, provided it be umediately returned, in an unsoiled condition.
