1. Not less than two thirds of the American wo-

men are afflicted with Prolapsus Uteri, and its as-

sociated complaints; the result of natural delica-

ey of organization ; defective physical education ;

early marriages ; the various accidents of pregnan cy, and labor, and general neglect of hygienic mea

2. That as Prolapses Uteri is a displacement, or

"falling" of this organ, it necessarily involves a

like descent, or dragging of the Heart, Lungs, Stomach, and Bowels, and that one fundimental

condition of cure in all these cases, is, the applica-

tion of such a Physiological brace, or supporter, as will most effectively brace the weak back and

without compression, assist the relaxed and over-taxed

nuscles in performing their natural office of lifting

and holding in their place, the dragging viscers of

the Chest and Abdomen from the depressed Uterus.

The observation of every Physician, and the exten-sive and increasing use of abdominal supporters,

3. That the Supporters now in use never have

received the approval of the profession, because,

they all, in common, act as heating and confining

clamps, compresses, and relaxing poultices, creating a necessity for their perpetual use by restraining

the freedom and exercise of the muscles, which

hey should only assist, and, also, aggravating the

'falling" and dragging, by their crowding and com-

pressing rather, than their bracing and elevating

4. In view of the above facts, which every Phy-

sician has been compelled to feel but too keenly, is

it not the duty, as well as the interest of the Pro-

fession, to seek for an instrument which acts upon

established principles of pathology, and which is at

once effective, and necessary to the success of the

practitioner, and professional in its origin and de-

Advantages of the Body Brace over Other Suppor-ters .- 1st. It is cool. 2d. It is light. 8d. Its pade can all be shifted up and down, right or left, as irequently as the necessity of the case may require. 4th. Its great and universal flexibility. 5th. It LIFTS UP-ALL OTHERS BEAR DOWN. 6th. Its pade are four, and press on the weak hips, and particularly on the weak back, supporting, yet not restrain-ing the body. 7th. Its pads being of naked horn, stimulate and harden the muscles, while soft and cushioned ones (like poultices) relax and weaken, through heat and perspiration, and soon become rancid. Sth. It is so constituted as to admit of attaching to it any proper spinal apparatus, and also the most perfect pile and hernial truses. 9th. It may combine with its mechanical influences the virtues of the galvanic battery, locally or generally

applied. The Erector Brace and Chest Expander, in addltion to the above, makes pressure upon the front of the shoulders, and without constraint or compression, erects the body, EXPANDS THE CHEST, and Dr. R. M. S. Jackson & Dr. James C. Howe, The second state of the body and beauty. It is free from straps, bandages, or compresses, acts in har-mony with nature, and defies scientific objection. For those who have weak backs, stooped shoulders, narrow or flattened chests or defective forms it is the best invention ever presented to the public.

RULE OF MEASUREMENT .- For the Body Brace, draw a tape snugly around the body, one and a half inches below the tips of the hip bones, over the li-nen-for the Erector Brace, add measurement around the chest, under the arm-pits, and send the number of inches, cash companying the order, and the Brace will be sent to order, with an explanatory circular; and exchanged to suit, provided it be mediately returned, in an unsoiled condition.
