FOR GOVERNOR.

WILLIAM BIGLER

FOR SUPREME JUDGE. JEREMIAH S. BLACK.

FOR CANAL COMMISSIONER. HENRY S. MOTT.

TWO APPRENTICES WANTED at this Office. Boys from the country preferred, between the ages of 14 and 16.

NEW ADVERTISEMENTS.—Executors Notice—Teachers Wanted—Laud Warrant lost or Stolen—Plank Road Notice—Ebensburg Foundry.

ICE CREAM.—W. A. Kennedy, has opened an Ice Cream Saloon in the basement story of Davis' Ware Room, where the cooling beverage will be served up at all hours of the day. We have tried the article, and pronounce it excellent.

The Week.

Here is our hurlly-burlly week again. The town, since Monday, has been jammed with strangers from different parts of this and the adjoining counties. Lawyers, Doctors, Clerics, Patricians, Jewellers, Booksellers, Clothiers and Tricksters, are omnipresent. We are much pleased to be able to announce likewise, that subscribers have not wholly forgotten to call, some to pay up, and some to take the Democrat and Sentinel.

The Territory of Kansas.

The new Territory of Kansas lies west of Missouri. It extends west three or four hundred miles, and consists principally of beautiful and fertile prairies. The timber is mostly confined to the neighborhood of water courses.

The soil is well adapted to grass and grain, and in portions of it, especially near the Kansas river, there is excellent hemp land. For farming purposes, that portion through which the Kansas runs, with its numerous small tributaries, is esteemed the most desirable.

The Poor House.

On our first page will be found the Bill providing for the erection of a Poor House in Cambria county. We are glad to find that something is about to be done here, as has been done in other and adjoining counties, to secure greater and more certain comfort to the indigent among us.

or grudging hand, it becomes almost unbearable. A County Retreat for the unfortunates, whom the casualties of life, springing up like the explosion of a hidden mine along man's pathway, have left maimed, or blind, or decrepit, or diseased, females, a shelter and home for them in which they may enjoy not only peace and comparative comfort, but a qualified independence.

The Law Sustained.

Anthony Burns, the fugitive slave, on whose account all Boston, and we may say New England, has been so much agitated, was remanded by Commissioner Loring, to his owner, after a faithful and full examination of the claim of his service.

The most appalling array of frantic and fanatical disturbers of the peace crowded the city, rendering it necessary to call out large numbers of U. S. soldiers and marines, and to station cannon charged with grape, so as to sweep the main avenues, in order to keep down riot, mob, and murder.

Sale of the Main Line.

An adjourned meeting of the stockholders of the Pennsylvania Railroad Company was held in Philadelphia on Monday last, for the purpose of receiving the report of the committee relative to the purchase of the Main Line of the State Works.

In the report, which was read by Mr. Stephen Colwell, they say that, "their investigation has, however, forced upon them the unanimous conclusion, not to advise the purchase upon the terms fixed in the recent act of the Legislature authorizing the sale."

Admitted.

JOHN P. LINTON, Esq., of Johnstown, having passed his examination before a committee composed of Gen. H. D. Foster, M. D. Magellan, Esq., and John Fenlon, Esq., was admitted to practice law in the several courts of this county, this morning.

We have the pleasure of knowing Mr. Linton. He is a young man and a Democrat, possessed of energy, integrity and talents, and we hope, and have little doubt he will fully succeed in his profession.

Military Election.

The following is the result of the election for field officers, held by the members of the 2d, or Cambria Brigade, on Monday, June 5th. Brigadier General.—Richard White. Brigade Inspector.—John Humphreys. Lieutenant Colonel.—B. McDermitt. Major.—W. W. Ivory.

GLEASON'S PICTORIAL.—This favorite illustrated journal, forming sixteen octavo pages weekly, commences a new volume July 1st, being the seventh volume of the work. It comes to us regularly freighted with its foreign and home illustrations, and a fund of excellent original reading matter.

Proceedings of Court.

Present, Hon. Geo. Taylor, President, and Evan Roberts and Harrison Kinkaid, Esqs. Associates. Commonwealth vs. William Kearney—Surety of the peace. 6th June, 1854, case heard per curiam, and defendant ordered to pay costs of prosecution, and to be bound in \$201 for keep the peace. Same day, William Kearney kept in \$200 conditioned that he keep the peace for one year.

Important Notice.

We clip from the "Carbon Democrat," the following notice, for the benefit of those interested; the "Lager Bier" men will please take notice. We presume that the Governor will hardly fall into the trap so ingeniously laid for him on the last night of the session.

A rumor having been circulated that the Governor had signed the Bill relating to Porter and Ale Establishments, a legal gentleman from this borough addressed the Secretary of the Commonwealth, a letter, requesting information, to which the following answer was made:

HARRISBURG, May 31, 1854. "The Bill is not signed by the Governor" E. S. GOORBRICH, Deputy Secretary.

Persons dealing in these articles, will, therefore, see the necessity of immediately taking out their licenses from the County Treasurer, and thus save themselves expense and trouble.

On motion, the proceedings of the convention were directed to be signed by the officers, and published in all the papers in the county. On motion, the convention adjourned sine die. WM. KITTELL, President. Henry Kratzer, Secretary.

Highly Important from Cuba.

We have been obligingly furnished by a friend with the following important letter from Cuba, written by one of the most intelligent inhabitants on the island, received by yesterday's mails.—Washington Union.

HAVANA, May 26, 1855.—Dear Sir: Under date of 22d inst., General Pezuela published a circular to the subordinate governors of the island, desiring, for the purposes of establishing militia, a very precise list of the individuals between sixteen and forty, showing the wealthiest and the poorest of each age, and every adequate circumstance or observation regarding the said male white inhabitants, so that there should be no necessity of applying again for information for ulterior determinations of his excellency.

On the next day, 27th, General Pezuela published the following communication addressed to the delegate director of arms, and to the commandant of the eastern department:

"Taking into account the numerous vacancies which may be experienced in the peninsular army by the severity of the climate, if the extraordinary circumstances of the European war should bring to this soil cause for greater agitation and movement among the troops, and taking into account, at the same time, the loyalty, endurance, and courage with which the mulatto and black volunteers have on different occasions supported the Spanish flag which we are determined upon waving at any rate in Cuba, I have the intention to re-establish in the island, with the authorization from the Queen, (whom God keep) the ancient institution of free mulattoes and blacks, by organizing in the peninsular battalions, two companies of volunteers of each of said classes, who shall be enlisted for a term of ten years, with the same advantages and duties as the rest of the army. In order to commence the said organization, and as an essay to make us acquainted with the best means of carrying it through to full perfection, should it be necessary, I authorize your excellency to proceed at once to said organization in the regiments. * * * endeavoring to choose for the new companies the most vigorous among the peninsular officers, and also that the sergeants and corporals be of the most worthy and capable among the volunteers."

The blank left above leaves it to the government to extend or reduce the trial at pleasure. As I have noticed an anxiety on the part of Mr. Crawford, not to see or acknowledge the emancipating tendency of the recent measures, supposed only to be directed to the suppression of the slave trade, it is not impossible that the real object of the blank left may be to authorize the deception that these are mere threats, and that the agents of Spanish power have no intention to do what, it is said, would be suicidal to Spanish permanent interest. But, besides the dangerous impression of such a publication, the alarm created among the old Spaniards themselves, and their threatened poverty and existence at this moment, is the best answer to similar quieting interpretation. One thing is certain: that however scantily filled the ranks of the regiments, there are at least sixteen battalions on the island; hence, four colored companies to each would make up a corps of 7,680 free colored volunteers.

Here we have at last an openly avowed determination to raise and arm the colored population against the white race; the thought of volunteers has not been adopted as yet with even the whites of European birth. On the contrary, the government desires to examine into their life, antecedents, and resources, while it shows confidence only in their proletarian black volunteers.

I understand that the European Spaniards have been, and still are, in a most anxious and hesitating position. They are having meetings of a private character; but I presume there will always be found among them those who turn into account the devotion to their own name, which hinders any action. The parade of deep intimacy which has been made in fawning the French admiral, Duquesne, by the Spanish authorities, has been intended to produce the conviction that there existed an alliance, or rather, the secret alliance between France and Spain.—The rumor has been spread that the latter country was at last engaged to contribute to the Eastern war with 30,000 men, to guard Italy, as a compensation for the guaranty of the island; and I believe this rumor has done much toward cooling the Spaniards. The French admiral, however, I fear, has got thoroughly coaxed of so much coaxing, and attempting to commit him by some unguarded word; and, also, I hear that he is anxious to get away.

THE PENNSYLVANIA DELEGATION AND THE NEBRASKA BILL.—The Washington Sentinel, in speaking of the passage of the Nebraska bill, pays the following compliment to the Pennsylvania Delegation, as well as the Democracy of the "good old State." The Sentinel says, "the Democratic delegation from the good old Keystone State have covered themselves with glory. That delegation consisted of twenty five members, of whom sixteen are Democrats and nine Whigs. None of the Whig members voted for the bill, whilst eleven out of the sixteen Democrats voted in its favor. The names of these eleven are as follows: Samuel A. Bridges, John L. Dawson, Thomas B. Florence, J. Glancey Jones, William H. Kurtz, John McNair, Asa Packer, John Robbins, Jr., Christian M. Straub, Wm. H. Witte, and Hendrick B. Wright.

Some of the most effective speeches made in behalf of the bill were made by members of this delegation. The good old State and her noble Democracy challenge the respect and the admiration of all true-hearted Democrats.

SPAIN AND THE UNITED STATES.—The Madrid correspondent of the London Times, of May 12, says: I am positively informed that a letter has been received by the French ambassador here, expressive of his government's sympathy with Spain in its present unpleasant dispute with the United States. I have strong reason to believe that this information is correct, and its reaching me simultaneously with the rumor of Spanish troops going to Rome, reminds me of a report current here some time ago, but never authenticated, that Spain had expressed a willingness to send twenty thousand men to Turkey, if France and England would guaranty to her the possession of Cuba.

ELECTION IN WASHINGTON.—The telegraph reports that Towers, Whig, Abolition and "Know Nothing" candidate for Mayor, has been elected. Except in the case of the present incumbent, Washington has almost uniformly elected Whig Mayors. The National Intelligencer (whig) says: "This was not a party election in the common acceptance of the term but was influenced in great part by other issues and considerations which we well understood in the city."

A correspondent—"A WHIG" has sent us the following epigraph for publication:— In memory of JAMES BATCHELDER, aged 24 years, who, on the 26th day of May, 1854, in the City of Boston, in the very TEMPLE OF LAW, in the performance of his duty as a policeman, DEFENDING THE LAW AND ITS SANCTUARY, from illegal force and violence, WAS MURDERED BY A MOB, instigated to riot and bloodshed, in the name of HUMANITY AND FREEDOM, by Theodore Parker, a minister of the Gospel of Peace, by Wendell Phillips, a wealthy citizen of Boston, and by other kindred spirits, and advocates of the "higher law."

Two Weeks later from California.

NEW ORLEANS, June 5. The steamship Daniel Webster, has arrived at the Balize with California dates to the 15th ult. Her passengers have been less than twenty days in making the run through from San Francisco.

The Star of the West sailed for New York on the 31st ult., with 250 passengers, and nearly half a million of treasure. The steamship El Dorado, also arrived to-day from Aspinwall.

The steamship George Law, for New York, left Aspinwall on the first, with the mails and passengers and ten million and a half in treasure. The passengers by the El Dorado have also made the trip in twenty days.

The revolution in Nicaragua is reported to be successful. The health of the Isthmus is reported excellent. The excitement with regard to the recent troubles at Graytown had died away.

The Nebraska Indian delegation who have been in Washington, for several weeks past negotiating with the Commissioner of Indian affairs for the sale of their lands, have finished their business, and on Saturday last took formal leave of the Commissioner, and departed westward by railway. In their speeches on the occasion, they solicited presents to take home with them, urging that the people of their tribes would expect it, but the Commissioner delicately refused, telling them that the treaties must be ratified by the Senate before they could get any of their money. He, however, distributed medals and flags among them, adding the advice that they must imitate the white men and maintain themselves and families by Agricultural industry.

Another delegation arrived in Washington just before this one left, embracing the chiefs and head men of the Weas, Piankeshaws, Kaskaskias, Peorias, and Miamies. These have come to treat for the cession of their lands, and have already commenced negotiations with the Commissioner. It is thus likely that the Indians of all the eastern portion of Kansas and Nebraska will be removed forthwith, and their land titles extinguished before the adjournment of the present Congress, so clearing the way for the speedy settlement of the newly opened territories.

The "Know Nothings" are forming military companies at New Orleans, under the name of National Guards. Some idea may be had of the great strength of this new organization at the ballot box, in the fact that an election for three Aldermen, held on the 8th inst., out of a vote of 4134, they had a majority of 1756. Next day processions of the party marched through the street displaying the American flag. During the day there was considerable fighting in the Third Ward, and several persons were shot, but none dangerously wounded. At night the Know Nothings attacked the house of Mr. Murphy, at the corner of S. Joseph's and Thoboupinous streets. The building was used as a bar-room, or as they are called there, a coffee house; the doors were forced, and everything within the house was demolished, bricks were hurled, some one hundred pounds fired, and the excitement was for a time very great. Several persons were wounded, and one was killed on the spot. The cause of the destruction of the house was that pistols were fired from the building, as the Know Nothings were passing. At last accounts everything was quiet.
