Report of Hydrophobia.

Some of our citizens have been thrown into a good deal of consternation recently, on account of symptoms of madness thought to be discoverable among the dogs. Fourth of July.

The glorious anniversary of freedom's birth day will soon be here again, and it is time to inquire what is going to be done to celebrate it properly. No place in the world is better calculated for a happy demonstration in honor of this great day...

Governor of Kansas.

We learn with pleasure that Mr. Barrett, Esq., of the "Keystone" has been appointed Governor of Kansas. This is a most proper appointment. Mr. Barrett has long been a bold defender of the principles of democracy and although long since deserving of some favors for his reward has met with nothing but comparative disappointment.

Humbugs.

The postoffice is crowded this week with the monthly lottery advertisements. We don't know whether any of our citizens are dupes enough to feed these licensed humbugs, by sending money out of the State to support a scheme which is contraband here, or whether it is only hope that so diligently stimulates the vendors of lotteries to patronize our town with their circulars.

The High Prices of Food.

Complaints are loud and deep, not only in Philadelphia, but all in the leading Atlantic cities, in relation to the high prices of food. It is almost impossible for large families to obtain the ordinary necessities of life. Flour and beef command enormous rates, and almost everything else is in proportion.

We hope the Democrat will be caught by this device of her old enemy.
