Election, Tuesday October 10! ARE YOU ASSESSED?

We would remind all democrats that in order to vote it is highly necessary, they should be assessed in the district in which they reside at least TEN DAYS BEFORE THE ELECTION.

Democrats, attend to your duty!

DEMOCRATIC TICKETS will be ready for distribution next week

THE CONTRAST.

An effort is now being made throughout this State, by as unscrupulous a combination of political bandits as ever dishonored the cause of republican liberty, to deprive our adopted citizens of their constitutional guarantees, and to doom to political ostracism, every member of a particular religious faith, who asserts his indefeasable right to worship God according to the dictates of his own conscience. This unholy and anti-republican purpose is not sought to be accomplished by open and publicly avowed means, but through the operations of a secret oath-bound association, whose members meet like conspirators, in the dead hour of the night and devise the ways and means by which their dastardly designs may be carried into successful execution. In view of this well known political, religious organization, and the disastrous consequences to the peace and well being of society, which must result from its triumph, we regard the approaching state election as the most important one that has ever been submitted to the people of Pennsylvania for their calm and deliberate decision.

The elevation of this man or that man to the Executive chair as the representative of certain well defined political principles-the mere tempo-# .ry triumph of the democratic or the whig party, sinks into utter insignificance in comparison with a triumph of Know-Nothingism, which would be the utter and complete destruction of the well recognized rights of our adopted citizens as well as the demolition of the very pillars upon which the structure of our religious freedom rests. The one would be a mere triumph of one great political party over the other, and like all former suc cesses of the same kind would soon pass away and be forgotten in the general acquiscence of the people,-The other would be a triumph of fanaticism-a triumph of political assassins who commune together at the hour of midnight; whose deeds are evil and hate the light of day-whose avowed aims are an insult to our revolutionary ancestors and whose success would cause heartburnings, not only throughout Pennsylvania but throughout the Union not easily to be healed or soon to be forgotten. We speak what we sincerely believe. We speak from what we have seen elsewhere as the result of the triumph of the faction to which we have referred and we know that like sauses always have and always will produce like

effects. The principles which govern political parties can only be ascertained from the public declarations of their candidates or the expositions of their newspaper press. Judged by this standard, how striking is the contrast between Gov. BIGLER and the democratic press and James Pollock and the Whig press, on the subject of Know-Nothingism : a question which rises superior to all other political considerations.-The democratic candidate for Governor, has pullicly in the presence of the democracy of Susquehanna County, repudiated all connection with it and has denounced it in bold and unqualified language;—the democratic press of the state with one united voice, from the Allegheny to the Delaware, has proclaimed its bitter and unceasing hostility to it; -its candidate for Canal Commissioeer has declared over his own eignature, that he never desired to have and has not now any connection with it :- its candidates for Congress and the State Legislature, in every instance in which they have been interrogated, have put away from them the unclean thing and have planted themselves upon the Constitution and the laws of their country.

Nothingism has developed himself, at which resolutions have not been passed placing its seal of condemnation upon it. This is the proud and he is a Know Nothing. The Pennsylvanian the war of 1812, and our war with Mexico, Pennsylvania on this important question.

On the other hand James Pollock has been repeatedly and distinctly charged by the leading democratic paper of the state, with being a member of this secret order, and the Editor of that paper has pledged himself to produce the proof of the charge, and to convict Judge Pollock before the freemen of Pennsylvania, if it is denied by that gentleman, or else stand self-convicted of a falsehood. And yet James Pollock has not seen proper to say one word on the subject. He has addressed his political friends in several portions of the state, but on this subject they are just as

One of his travelling companions from Harrisburg to Altoona, was the notorious Editor of the Telegraph, the leading organ of Pollock in this state, Stephen Miller, a man whose vile and incendiary writings,-whose foul and villainous abuse of adopte l citizens; whose wanton, malicious and fiendish attacks on the Catholic religion, its ministers and members, have made his very name a by-word and reproach among all decent and respectable citizens .- Such is the man who is the accredited organ of the Whig candidate for Governor: such is the political reputation of at least one of the men in whom Le delights as a travel'ing companion.

Tell me the kind of company you keep and I will tell you what kind of a man you are, is an press throughout the state, with two or three honorable exceptions, the Alleghenian being one, has tacitly connived at the base purposes of these Pennsylvania Jacobins, and not one of them has openly declared by authority of James Pollock, that he is not a member of the order .- Not one of their candidates for office, in any one county of the state, has had the courage publicly to deuounce it ;-in not one of their political meetings has a resolution been passed repudiating it, nor has one of their orators, all of whom in the days of Anti-masonry were so eloquent in their denunciations of all secret political societies, ever yet raised his voice against it .- Such is the Whig party of Pennsylvania and such the humiliating attitude it now occupies before the people.

Let us now for a moment look at home.-Did John R. Edie, the Whig candidate for Congress in this District, hold the Know-Nothings up to the scorn and contempt of his hearers at the Whig meeting hell on Court week? Did M. D. Magehan, the once rabid declaimer against Masonry, lash them in a style peculiar to himself? No! party. They be aboured the Kansas and Nebraska bill and to say the least of it were the silent apologists of the Know Nothings. Not so with Gen. Dodge and Judge Shannon at the democratic meeting .-They boldly and like national democrats, advocated the political and religious rights of all and their eloquent appeals were responded to by the shouts of an approving democracy.

But at the whig meeting aforesaid, an Edward, a greater than a Daniel, came to judgment. The first resolution offered by the committee of which Edward Hutchinson was the Chairman, falsely and impudently styles the "Locofoco" party an "Anti-American" organization :- that was very modest in the Chairman, when every one who has ever read the political history of the United States, knows that the democratic party has always been the steadfast supporter of the liberties of the country as well as the bold defender of the rights of her citizens whether at home or abroad. The chairman at the conclusion of the resolution speaks of the "conservative doctrines" of Clay, Webster and Scott as a sure guaranty that the institutions of our country are safe. Has he forgotten how in 1852, the General loved to hear the "rich Irish broque" and the "sweet German accent." If that was conservative in Scott, the Whig party now is destructive, in as much as its ally, its prop and its hope, the Know Nothings, would as soon listen to the unintelligible jargon of a South Sea Islander as to the "rich broque" of an Irishman or the "sweet accent" of a German .- But why pursue this subject ;-the people are honest and intelligent ;-they read and reflect and are not to be humbugged by such senseless glorification of the "conservative doctrines" of Clay, Webster and Scott, all of which are obsolete and will continue to be so, as long as the Whig party maintains its present organization. - Men of Cambria! it is for you to decide which of the candidates is wor thy of your support and in deciding, bear in mind. that you decide for your posterity as well as your-

THE STATE DEBT REDUCED. Our readers will, no doubt, be pleased to hear that, under the administration of our present able Executive, the State debt has been largely reduced during his present term of office. The Commissioners of the Sinking Fund have made a report of their operations during the last three years, from which we learn that there has been paid and extinguished of the public debt of the Commonthis, the sum of two hundred and sixty-four thousand one hundred and forty-two dollars of ed, leaving a balance in the hands of the State Treasurer, applicable to the same purpose, of one hundred and twenty-eight thousand six hundred and forty-eight dollars and eighty-four cents, making, in all, a reduction of nine hundred and three thousand nine hundred and fifty dollars and fifteen cents of the public debt. Think of this. ye tax-payers, when you come to cast your votes on the second Tuesday of October. The State debt reduced nearly one million of dollars! The Whigs have been endeavoring to create the impression that Governor Bigler had increased the public debt. What will they say now, in the face of an official statement, showing that it has been so largely reduced? By an' economical administration of the government, Governor Bigler has been enabled to wipe out of existence this large amount of indebtedness, and does he not deserve the plaudit, "Well done, thou good and faithful

A Military visit. We were very much gratified the past week

by a visit from our esteemed cotemporary. Gen. Bowman, of the Bedford Gazette, who, in addition to editing one of the best Democratic papers in the State, holds the responsible post of Adjutant General of the commonwealth. He was on route for Meadville, to inspect the State Arsenal there .- Politically, the General is as enthusiastic as ever. He says, and we have no doubt of the fact, that the Gubernatorial question is already settledthat the only point yet uncertain is how large BIGLER's majority shall be This is conceded, he avers, by the politicians of the various parties who have visited Bedford Springs during the past few weeks. It is not, however. of the political aspect of affairs that we were about to speak; but of the enthusiastic and gratifying reception our German military friends exten led to the Gen. upon his return from Meadville, on Saturday. Soon after it was ascertained the General had arrived, the Battalion formed upon the Public Square in military order, and sent in a deputation of officers to request the pleasure of an introduction. The General promptly complied, and was introduced by Gen Killpatrick. In reply to the enthusiastic greeting with which he was received, he said that it was as unexpected as it was gratifying that he appeared before that Battalion, which he was proud to see, was one of the most soldier like and best wealth five hundred and eleven thousand, one drilled in the State. Things to be Remembered. During Gen. Washington's administration a law was enacted by Congress, with his approbation, granting the rights of naturalization and citizenship to Foreigners after a residence of two years in the country. This was altered by the Federal administration of the elder Adams, who succeeded Washington, times clearly indicate that he will be abundantly to fourteen years! But when Mr. Jefferson, the great Apostle of Democracy, came into power in 1801, the time of probation was reduced to five years, where it has ever since remained In his first Message to Congress, Mr. Jefferson said:

I cannot omit recommending a revisal of sidering the ordinary chances of human life, a denial of citizenship under a residence of 301. fourteen years is a denial to a great portion some editors and we hope his arrival may be heard of those who ask it, and controls a policy visit Meadville for the purpose of inspecting hospitality which the savages of the wilderto certain offices of important trust, a residence shall be required sufficient to develop character and design. But might not the general character and capabilities of a citizen be safely-communicated to every one manifesting a bona fide purpose of embarking his life and fortunes permanently with us.

On this great and broad Democratic platform the country has securely rested and prospered for fifty years-and now, after the lapse of half a century, are the proscriptive. intolerant Federal doctrines of old John Adams sought to be revived in all their hated and bloated deformity, by a batch of corrupt, unprincipled demagogues, who would, if they had the power, trample the Constitution of the Republic under foot, if so be that, upon its ruins, they might crawl into power.

James Pollock, the Whig and Know-Nothing candidate for Governor, is one of these miserable, rovelling demagogues-and it is for the people of Pennsylvania to pronounce their verdict of condemnation upon him at the ballot boxes on the second Tuesday of October. That they will do so, no reasonable man can doubt for a moment. They turned their backs upon the elder Adams with loathing and disgust, and they will do the same with the contemptible demagogue who is following in his footsteps.

By the following letter from Benjamin Rush Bradford, Esq., the Native American candidate for Governor, it will be seen that that cians to sacrifice him and the party he represents, to advance the prospects of James Pollock, the Know-Nothing. NEW BRIGHTON, Sept. 14, 1854. To the Electors of Pennsylvania :- Fellow Citizens :- A vague rumor has obtained credence, to some extent, that I am about to decline in favor of Judge Pollock. How this report originated I cannot say, unless it is one of the spasmodic efforts of a political organization, and as it is utterly impossible for me to reply, through the medium of private correspondence, to all the inquiries made on the subject, I have thought proper to adopt this mode of satisfying my friends throughout the State, and frustrating the schemes of Whiggery in its last acts of desperation

Fellow Citizens: The position I occupy before you was unsought, and undesired by me; but having accepted a nomination at the hands of my friends, conferred without my knowledge, I should be worse than a traitor to forsake them now in the hour of peril. I shall, therefore, remain in the field, and let the people, on the second Tuesday of October, recide by their votes who shall fill the Gubern atorial Chair of this my native State.

Judge Pollock and the Niggers.

JAMES POLLOCK, the regular nominated Whig and abolition candidate for Governor, considers . nigger better than a white man, and it can easily proven. He advocates abolition and negro sufrage, while at the same time he has joined the midnight conclave of Know-Nothings, who are organized for the purpose of disfranchising all persons except those been on our soil. He does iot even stop here. He go c further. He, like Il other Know Nothings, is in favor of disfranchising all the sons of foreigners. We then ask the free white American born citizens, as well as the foreign born, whether a man holding such principles shall be elected Governor of a State, hose policy and whose Constitution have always invited the oppressed of all nations to seek an asylum among us? Are the people of Pennsyl vania in favor of the doctrine that native American niegers are better than foreign born whites?
