

The Delaware Division of the Pennsylvania Canal is doing a heavier business this season than it has ever done since it was first put in navigable order. The receipts for the fiscal year up to September 1st, are nearly \$230,000, at the Eastern office, alone. The receipts for the month of August, which has just closed, amounted to \$27,704.41, which is nearly three thousand dollars more than has ever been received at this office in any previous month. The reader will have some idea of the labor performed at this office, by the Collector and his one clerk, (which is all the Board allows,) when we state that during the month of August 1866 loaded boats were cleared southward and about the same number arrived northward. About seven-eighths of the tonnage sent southward in coal, the balance is made up chiefly of Pig Iron, Roofing Slate, Paving stones, Oxide of Zinc and Whiskey. During the month of August there was but a single day that the Canal was not in navigable order. The whole length of the "Ditch" is now in complete order, and if no serious drawback occurs, between this and the closing of navigation, notwithstanding the lateness in which business was commenced in the Spring, the receipts will not be far short of \$400,000.—Easton Sentinel, Sept. 6.

DEADFUL SCENES IN CHINA.—A letter from Canton, under date of August 1, says:—"The mandarins of the district in all directions still call for political offenders to be given up, and many are denounced every day. They are constantly arriving here, and every day there are two executions, at 10 A. M. and 4 P. M. Not very many people go to see them—foreigners occasionally. I have fearful misgivings that my stomach would not stand the sights, sounds and smells. The execution square is now more than four inches deep of thick, clotted, dried blood, and they say the smell is awful this hot weather. Mr. Heard went down the other morning, and saw 161 beheaded. There were four executions only, and the time consumed in actually taking off the heads was just two minutes and a half! One hundred and sixty-one!—think of that. Yesterday morning there were 300 beheaded, and in the afternoon 260! This morning about 280 have been pitched into. This has been going on now pretty steadily for months. Mr. Morrison, the interpreter to the English Consulate, tells me that he has seen some of them sitting down waiting their turn, very coolly eating China gooseberries. They seem to care very little about it. Then all at these executions are more crucifixes—lashed to a cross, and then hacked and cut to pieces. But it is awful to think how many of these fellows may be perfectly innocent of any crime of any kind, and may be in fact victims of private spite, and hurried to the way to satisfy malice. What a row there is at some when one man is to be hung! Think of hundreds and hundreds daily."

BUCKWHEAT.—In the memory of man, the State of Pennsylvania, says the Philadelphia Ledger, has never seen so vast a crop of buckwheat as now whitens the fields with its rich blossoms, and fill the air with its fragrant perfume. Not alone the rich valleys, but the rough hill countries, appear to have every available spot whitened with this delicate plant. At this season, when fruits take the place of flowers, the buckwheat blossom adds peculiar grace to the landscape. Never did this grain give greater promise of heavy return; and if no frosts occur for three weeks, the crop is safe. Though the uses of buckwheat are few in our cities, in the country the grain is available for cattle and poultry, especially for mixing, and thus the crop becomes important, in releasing its full weight of the farmer's wheat and corn for the general market.

MAINE ELECTION.—Every mail brings us more cheering news in regard to the Maine election. The full returns will show a vote of over 107,000 polled, and Merrill, the Fusion K. N. Republican candidate for Governor is defeated by eight thousand. The State has gone by a very large majority for the Democrats. No large vote out of a population of about 650,000 shows that no voters neglected their duty.

SANTA ANNA.—The Havana correspondent of the National Intelligencer states that Santa Anna, late President of Mexico, retires from that impoverished and distracted country with the snug little fortune of seven millions of dollars. Two-thirds of this immense sum is reported to be invested in stocks and real estate in the United States and England, he having succeeded, it is said, in getting two millions of dollars in hard money out of the country at the time of his flight.

CAUTION.—The undersigned hereby caution all persons not to purchase a due bill calling for twenty dollars, and a note for forty dollars, given by them some time in June last, to Henry Hubble, of Carroll township, Cambria county. As certain notes and bills were obtained by false representations, they are determined not to redeem them.

CONSUMPTION.—The undersigned would respectfully inform his numerous friends and the public generally, that he has erected a large and commodious HOTEL at CONEMAUGH STATION Cambria county. The House is situated near the Penn'a R. R. Every arrangement has been made to make it a convenient stopping place for the travelling public. The Table will be furnished with the best of the first brands, in fact nothing will be left undone to render it one of the most desirable stopping places in Cambria county.

ORPHANS' COURT SALE.—BY virtue of an order of the Orphans' Court of Cambria county, there will be exposed to public sale, on the premises, on Monday, the 16th day of October, next, at 1 o'clock, P. M., the following real estate, to-wit: A certain piece or parcel of land and saw-mill thereon erected, situate in Chest Township, Cambria county, beginning at a post at the Southeast end of the tract of which it is a part, thence South 36 degrees West by track in name of Thomas Persons 100 perches to a post, thence North 64 degrees West 94 perches to a post, thence South 50 degrees West 42 perches to a post, thence North 2 degrees East 70 perches to a post, thence North 88 degrees East 40 perches to a post, thence North 2 degrees East 90 perches to a post, thence by land of John E. McDermitt, South 88 degrees East 62 perches to the place of beginning, containing thirty acres.

Persons wishing to purchase the money to be paid on confirmation of the sale, and the residue in two equal annual payments thereafter with interest, to be secured by the judgment bonds and mortgage of the purchaser.

AYER'S CHERRY PECTORAL. For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION. THIS remedy is offered to the community with the confidence we feel in an article which seldom fails to realize the happiest effects that can be desired. So wide is the field of its usefulness and so numerous the cases of its cures, that almost every section of the country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. When once tried its superiority over every other medicine of its kind, is too apparent to escape observation and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs, which are incident to our climate. Nothing has called louder for the earnest inquiry of medical men, than the alarming prevalence and fatality of consumptive complaints, nor has any one class of diseases had more of their investigations and care. But as yet no adequate remedy has been provided, on which the public could depend for protection from attacks upon the respiratory organs, until the introduction of the CHERRY PECTORAL. This article is the product of a long, laborious, and I believe successful endeavor, to furnish the community with such a remedy. Of this last statement the American people are now themselves prepared to judge, and I appeal with confidence to their decision. If there is any dependence to be placed in what men of every class and station certify it has done for them, if we can trust our own senses, when we see dangerous affections of the throat and lungs yield to it, if we can depend on the assurance of intelligent Physicians, who make it their business to know,—in short if there is any reliance upon anything, then it is irrefragably proven that this medicine does relieve and does cure the class of diseases, it is designed for, beyond any and all others that are known to mankind. If this be true, it cannot be too freely published, nor be too widely known. The afflicted should know it. A remedy that cures, is priceless to them. Parents should know it, their children are precious to them. All should know it, for health can be priced to no one. Not only should it be circulated here, but everywhere, not only in this country, but in all countries. How faithfully we have acted on this conviction, is shown in the fact that already this article has made the circles of the globe. The sun never sets on its limits. No continent is without it, and but few people. Although not in so general use in other countries as in this, it is employed by the more intelligent in almost all civilized countries. It is extensively employed in both America,—in Europe, Asia, Africa, Australia and the far off islands of the sea. Life is as dear to its possessors here as here, and they grasp at a valuable remedy with even more avidity. Unlike most preparations of its kind, it is an expensive composition of costly material. Skill it is afforded to the public at a reasonably low price, and what is of vastly more importance to them, its quality is never suffered to decline from its original standard of excellence.—Every bottle of this medicine, now manufactured, is as good as ever as been made heretofore, or as we are capable of making. No toil or cost is spared, in maintaining it in the best perfection which it is possible to produce. Hence the patient who procures the genuine CHERRY PECTORAL, can rely on having as good an article as has ever been had by those who testify to its cures.
