AYER'S CHERRY PECTORAL.
For the rapid Cure of COUGHS, COLDS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.
THIS remedy is offered to the community with the confidence we feel in an article which seldom fails to realize the happiest effects that can be desired. So wide is the field of its usefulness, and so numerous the cases of its cure, that almost every section of the country abounds in persons, publicly known, who have been relieved from alarming and even desperate diseases of the lungs, by its use. When once tried its superiority over every other medicine of its kind, is too apparent to escape observation and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs, which are incident to our climate.
Nothing has called louder for the earnest enquiry of medicinal men, than the alarming prevalence and fatality of consumptive complaints, nor has any one class of diseases had more of their investigations and care. But as yet no adequate remedy has been provided, on which the public could depend for protection from attacks upon the respiratory organs, until the introduction of the Cherry Pectoral. This article is the product of a long, laborious, and I believe successful endeavor, to furnish the community with such a remedy. Of this last statement the American people are now themselves prepared to judge, and I appeal with confidence to their decision. If there is any dependence to be placed in what men of every class and station certify it has done for them, if we can trust our own senses, when we see dangerous affections of the throat and lungs yield to it, if we can depend on the assurance of intelligent Physicians, who make it their business to know,—in short if there is any reliance upon anything, then is it fruitfully proven that this medicine does relieve and does cure the class of diseases it is designed for, beyond any and all others that are known to mankind. If this be true, it cannot be too freely published, nor too widely known. The afflicted should know it. A remedy that cures, is priceless to them. Parents should know it, their children are precious to them. All should know it, for health can be priced to no one. Not only should it be circulated here, but everywhere, not only in this country, but in all countries. How faithfully we have acted on this conviction, is shown in the fact that already this article has made the circles of the globe. The sun never sets on its limits. No continent is without it, and but few people. Although not in so general use in other nations as in this, it is employed by the more intelligent in almost all civilized countries. It is extensively employed in both America,—in Europe, Asia, Africa, Australia and the far off islands of the sea. Life is as dear to its possessors there as here, and they grasp at a valuable remedy with even more avidity. Unlike most preparations of its kind, it is an expensive composition of costly material. Still it is offered to the public at a remarkably low price, and what is of vastly more importance to them, its quality is never suffered to decline from its original standard of excellence.—Every bottle of this medicine, now manufactured, is as good as ever as been made heretofore, or as we are capable of making. No toil or cost is spared in maintaining it in the best perfection which it is possible to produce. Hence the patient who procures the genuine Cherry Pectoral, can rely on having as good an article as has ever been had by those who testify to its cures.
By pursuing this course, I have the hope of doing some good in the world, as well as the satisfaction of believing that much has been done already.
