CHITIS, WHOOPING-COUCH. CRUUP, ASTHMA, AND CONSUMP-TION.

THIS remedy is offered to the community with the confidence we feel in an article which saidom fails to realize the happiest effects that can be desired. So wide is the field of its usefulcass and so numerous the cases of its cures, that almost every section of the country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. When once tried its superiority over every other medicine of its kind, is to apparent to escape observation and where its vir-tues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs,

thich are incident to our climate. Nothing has called londer for the earnest en quiry of medicalmen, than the alarming preva ence and fatality of consumptive complaints, nor

has any one class of diseases had more of their investigations and care. But as yet no adequate remedy has been provided, on which the public could depend for protection from attacks upon the respiratory organs, until the introduction of the CHERRY PECTORAL. This article is the product of a long, laborious, and I believe successful endeavor, to furnish the community with such a remedy. Of this last statement the American people are now themselves prepared to judge, and appeal with confidence to their decision. If there is any dependence to their decision. If men of every class and station certify it has done for them, if we can trust our own senses, when we see dangerous affections of the throat and lungs yield to it, if we can depend on the assurance of intelligent Physicians, who make it their ousiness to know, -in short if there is any reliance upon anything, then is it irrefutably proven that this medicine docs relieve and does cure the class of diseases it is designed for, beyond any and all others that are known to mankind. If and all others that are known to mankind. If this be true, it cannot be too freely published, nor be too widely known. The afflicted should know it. A remedy that cures, is priceless to them. Parents should know it, their children are price-less to them. All should know it, for health can be priced to no one. Not only should it be cir-culated here, but everywhere, not only in this country, but in all countries. How faithfully we have acted on this conviction, is shown in the fact that already this article has made the circles of

continent is without it, and but few people. Although not in so general use in other nations as in this, it is employed by the more intelligent in al-most all civilized countries. It is extensively employed in both America,—in Europe, Asia, Africa, Australia and the far off islands of the sea. Africa, Australia and the far on islands of the sea. Life is as dear to its possessors there as here, and they grasp at a valuable remedy with even more avidity. Unlike most preparations of its kind, it is an expensive composition of costly material. Still it is afforded to the public at a reasonably low price, and what is of vastly more importance to them, its quality is never suffered to decline from its original standard of excellence.-Every bottle of this medicine, now manufactured, is as good as ever as been made heretofore, or as we are capable of making. No toil or cost is spared, in maintaining it in the best perfection which it is possible to produce. Hence the patient who procures the genuine CHERRY PECTORAL, can rely on having as good an article as has ever been had by those who testify to its cures.
