Reasons why "Old Line Whigs" cannot act with the Know-Nothings.

We have read with much pleasure a series of exceedingly-well written articles in the Nashville (Tenn.) Union, in which an oldline Whig of the State discusses the course proper to be taken by the old-line Whigs in the pending Presidential contest. From the concluding number of the series we extract the following conclusive reasons against a cooperation with the Know-Nothings:

"In the northren States, where Abolitionism find s its only adherents, it is confessedly true that its only antagonist is the National Democratic party. The American or Know-Nothing party is as thoroughly abolitionized in the free States as the Black Republicans themselves. In proof of this fact I need only adduce the unanimity with which, in the election for Speaker, they united upon Banks, in the undisguised spirit of aggression upon an insult to the Senate. Mr. Seward has which may expand themselves in retorts of Southern rights which signalized the proceedings of their national convention at Philadelphia and New York) the universal demon- & Co., will probably leave this city at a very stration of abolition prolivities among the adherents and supporters of that party Old Whigs who are guided by the great conservative and national principles which they have always claimed to be the distinctive characteristics of their party; cannot support the can-didates of the Know-Nothing or American

party"1st. Because by voting for Fillmore and Donelson they divide the strength of the national forces, which should be arrayed in solid column against the Black Republicans.

"2nd. Because the Know Nothing candi- fears of its success." dates can only be elected by attracting to their support the Abolition Americans of the North and therefore the success of that ticket would be virtually a defeat of the national party and a triumph of Abolitionism.

"3d. Because the measures and principles of the Know-Nothing party are directly in conflict with the fundamental doctrines of free | and shrieks about southern ruffianism. government, and with that freedom of conscience in questions of religious faith, which is the dearest inheritance bequeathed to us by our republican ancestors.

"4th. Because secret political societies. the members of which are bound together by solemn oaths, are immoral in their tendency, dangerous to liberty, inconsistent with the spirit of republicanism, and unnecessary in a always except the African race. f.ee country, where every citizen has a right to express his opinions upon political subjects without let or hindrance.

"5th Because all their political principles and practices are at war with the principles and practices of the Whig party, which they repudiate and condemn.

"6th. Because true Whigs cannot, in the exercise of a proper degree of self-rospect, a party purpose. support the candidates of a party the members of which, under the solemnities of oaths, tance. all Whigs who have not taken upon themselves | abolition movement. eimilar oaths from the honors and emoluments of office in the Republic.

"These insuperable objections to a union of Old Line Whigs with the American or and ably written article in regard to the pre- might display themselves as how they might Know-Nothing party conceded, we have only sent actual condition of the slavery question advance their cause. The article concludes with this eloquent

paragraph :-"The old Whig party, as an organized body, no longer exists: it has perished at the hands of those in whom it most trusted; it has fallen by the treachery of pretended til it may be recorded that in the great struggle between the nation and the sectional and sectarian factions which menaced its integrity, the last expiring efforts of its disbanded, but still patriotic adherents, were directed to the preservation of the Union without concessions and the constitution without mutilation. "Then-

Commendable Movement .-- It is stated that the Finance Committee of the U. S. Senate have matured a project designed to lead to the gradual abandonment and ultimate rejection of the small Spanish silver coins as part of the circulating medium, and that it will forthwith be submitted to legislative action. The result of the experiments to ascertain the value of the Spanish sixteenth, eighth, and quarter of a dollar, is reported to the Committee as indicating the first to be worth a fraction over five cents, the second about eleven. and the quarter about twenth-three and twenty four cents. The bill they have framed is believed to provide, that the existing laws authorizing the circulation and establishing a value of all foreign coins, except the Spanish fractional divisions of the dollar, be at once repealed. As to these fractions they allow them to be circulated for two years at the value of five, ten, and twenty cents respectively and thereafter they are to be excluded altogether from circulation But at the mint they will at all times be received as bullion; and paid for by weight.

A Buffalo Hunt. -

A party of about 150, mostly Western men, members or Congress, Judges, and others, contemplate joining in a grand Buffalo hunt, during the coming Summer. It is arranged the party. The Salt region of Minnesota, in the cessation of the territory would seem to be the vicinity of "Devil's Lake," will be visited desirable. before their return and probably much valuable information of this wild country will be obtained. Ex Governor Medill of Ohio and Judge Rice of Minnesota are of the party.

This caused considerable excitement and a critical apparent that many alterations and interlinea- Bulletin. tions had been made in a handwriting closely resembling Mr Seward's. The point npon which the Kansas excitement is to be kept up, I understand, that the Territory should at once be admitted to the Union, with the constitution, &c., framed by the Topeka Convention. Upon this ground the Freesoil party are to continue the Kansas debate in the House, and thereby prolonging the excitement throughout the country. It is a shallow plan, and with the result of yesterday's action

THE PLATFORM.—The "Republican" and fusion platform, it is evident, is to consist of the following planks, and none other: 1st. Outrages in Kansas, and continued

agitation about them. 2nd. Indignation at the beating of Sumner, 3d. The Herbert killing affair, and an ef-

The Question as it Now Stands.

The New York Day Book closes a long

question: the Democracy have repealed the language which, not offend by its unjustice. the National Democratic party of the Union Missouri restriction-an act substantially or to assume a position in which our influence similar, in respect to principles, to the repeal may save the country from the portentous of the United States Bank charter, and as evils by which it is menaced. As Whigs, we the former disconnected the Federal Govern- ner's predecessors received and that which he ment from the currency, so the repeal of the Missouri restriction divorces it from "slavery." This act, so just, so necessary, ss essential to the safety and well-being of the Union, only needs to be explained to the people. Will it be done? Will the Convention at Cincinnati meet this matter openly and manfully? Will they lay down the platform of State equalitythat all the rights of a Virginian as all the rights of a New Yorker must be protected in all the Federal Territories? If they do soif they openly and manfully meet this question on its merits, on the basis of the true princifriends; but let not its epitaph be wristen un- ples involved-then they may not only elect their candidate, but with it explode the monstrous delusions that have fastened on the minds of a large portion of the northern peo-

The Panhandle.

The little strip of Virginia that lies between the Ohio river and the western boundary of Pennsylvania has come to be a sort of debatable ground. A strong party exists in its population in favor of seceding from Virginia and next, but in the meantime, must say some-joining Pennsylvania. In their present condition they have little more than an unhealthy, excresent existence, in which the vital fluids circulate but sluggishly, and the cordial sensibility is not very intense. Geographically the "Panhandle" ought to belong to Pennsylvania It derives no benefit from Virginia improvements, and it is so remote from the geographical and political centre that it is scarcely treated with the consideration that a heartless stepmother awards to her predecessor's offspring. In every respect her people assimilate and sympathize more with those of Pennsylvania. Their territory ts traversed by Pennsylvania railroads; their produce goes to Pennsylvania markets, and their merchants buy their goods in Pennsylvania cities.

If he had the cool, calm, moderate temper-the sober judgement-and freedom from vanity and lovo of display-which characterize the highest statesmanship, Mr. Sumner would scarcely, if ever, meet the rebukes which have been so often dealt out to him by his fellow-Senators, and much less provoke shameful indignities to his person. In his latest ebullition, he is said to have been absolutely slanderous of his peers in the Senate uttering taunts and indulging in personalities which, however, set off and garnished by 6th.
