"Will Mr. Buchanan, if elected, redeem his pledge? I believe he will, and therefore I will cheerfully support him. All that can be asked of him is to do equal and exact justice to every section of the country-to exercise the high powers with which he will be invested to secure the object in view, as well because it will be right to do so, as because there may be reason to fear that the existence of the government itself may depend upon his securing it So much has been said in regard to the dangers with which the Usion i threatened, as to require no inconsiderable effert on the part of an earnest man to touch upon the solemn theme, for fear he might be suspected of a desire to prostitu.e it to comparatively petty purposes. But all must ad mit it to be certain that there never was a period in the history of this Republic when sectional animosities were so rife, or had, to so great an extent, inflamed the masses of the people. If the Confederacy shall prove strong enough to withstand these torrents of bitter waters, it will afford the best evidence that the love of Union is as deeply impressed upon the American heart as its most sanguine friends have immagined it to be. I see good grounds for hope that such may be the happy issue out of our present alarming condition, in the prospect of Mr. Buchanan's election He is neither an untried man or one of ordinary stamp. He has for a long time been faverably known to the public service, and comes before the country with a character already formed, and a mind thoroughly trained in the school of experience. In regard to the future action of such a man, his constituents are not left to conjecture and hope, but may form positive opinions. That a man with such antecedents, and occupying such a position, acting in a matter of sufficient interest to attract the attention of the world, and in the presence of a free and intelligent people, among whom he was reared and expects to spend the evening of his life. can fail to perform his entire duty when the path that leads to it is so plain that "th wayfaring man, though a fool, could not err therein," is a consumation that I am very certain can never be realized."

The Exhibition of St. Francis Academy. MESSRS. EDITORS : - In fulfilment of my "had chosen a philosophic subject -... Political promise I send you the following rough notes taken on the occasion of the exhibition of the students of St. Francis Academy. I was, the speech of the day. When Mr. B acquires indeed, sorry that you could not be present, as I am confident that you, in common with all other friends of education, would have been delighted. The Academy is beautifully situated, about one half mile from the pious and J. C. Bigham. In elegant pathos Mr. B. quiet village of Loretto, on an eminence commanding a splendid view of the magnificent

mountain scenery for miles around. Certainly, no location could be better adapted to the formation of character and the purposes of education. The students are shut out from the pleasures and vices ; they form a society amvelling desires of that great outside world -no place could possess greater advantages. Nothing more could be wanting to render this place celebrated among the educational institutions of our country but competent instructors, and judging from the exercises on Wednesday, these are certainly not among the things needful. The exhibition was held in the capacious barn belonging to the farm. On entering, we were struck with the taste displayed in ornamenting it The stage was handsomely decorated, and we were gratified to observe the coat of arms of our good old Commonwealth occupying a conspicuous place. On the outside the "stars and stripes" floated gaily in the morning breeze. Nor were these manifestations of patriotism in contrariety to to the exercises of the day-they fully accorded with the sentiments expressed by the different speakers. It was plainly visible that after their duties to their God, the students they owe their country. Would that some of the enlightened members of the last Legislature, who, so indignantly, opposed the chartering of this institution had been present, to be taught the wise lesson that religion, education and patriotism are not incompatible elements, but go hand in hand together in the cultivation, enlightenment and civilization of Not aware of the rich literary feast in which we were about to participate, we feared that the kind Professors had selected the best orator for the first speech-for certainly Master M'C far surpassed our most sanguine expectations. The next oration was by Henry Jacobs, in French. Not being blessed with a knowledge of this language, we were, of course, unable to appreciate anything but the graceful eloquence of manner manifested by the speaker. Master C. F. Leffler, of Baltimore, next compelled to address you through the columns delighted the audience with an ably written of a public print. We have however, a stern and well delivered oration on "Society " The duty to perform, and one which reverence for choice of the next speaker was "Education" -a prolific theme, which was well handled by a gentleman basking under the sonorous peared before the curtain, was, as our programme informed us, J. E. Blaine, of Elizabeth, Penna., who, with fluency, eloquence and grace, " held forth" on " Public Amusements." We were then entertained for some time with a speech on the " Effects of Union', delivered by J L. Blakely, of Hillside Hall, Master B. displayed a capacity for conceiving and a force of expressing ideas, which would manifested himself in a speech on "Modern oratory which surprised us. He ably con-

Our community was thrown into painful excitement on Sunday morning, by an occurrence of the night previous, the like of which never took place in our town before. The particulars, which we have gleaned from several evewitnesses, are as follows : On Saturday night, between the hours of 10 and 11 o'clock, Thomas McGee, late merchant of this place, Dr. McKee, and Daniel J. Neff, Attornev at Law, went into Dannals' Restaurant, and seated themselves at the table, a portion of which was afterwards occupied by Daniel K. Ramey, Maj. George Raymond, David Hewit and others. Several others joined Neff's party, and after eating, McGee's party went to the bar room. At the door McGee met Hewit and demanded of him a bill of eighty seven and a half cents. The demand was not made abruptly enough to insult Mr. Hewit, and he immediately drew his wallet and tendered McKee a \$2,00 bill, whereupon had been well instructed in the duties which the latter went out to the bar to get change. In his absence, some conversation took place on the propriety of dunning a man in a public restaurant, when Hewit started out after his change. He was followed by Major Raymond and several others, and some wrangling ensued, when Maj. Leet, for the purpose of pacifying the parties, handed Mr. Hewit the change which he took from his own pocket. Mr. Hewit then returned toward the during room and it was thought the difficulty was settled mankind. But enough. he Salutatory was It appears, however, that when Hewit delivered by James M'Culloch, of Pittsburg. reached the room door, Raymond declared that it was an insult to dun a man for money in company. Hewit remarked in a jocular manner that it was "rather rough," but should be overlooked. Raymond declared that it should not be overlooked-that McGee had insulted him (Raymond) by presenting a bill, but that when he had made out his bill, he had brought Metice out \$8,00 in debt, and he meant to have the money. He continued asserting that it was a d----d insult and should be resented. This roused Hewit, and both started to where McGee, Neff and others were standing, when Raymond'rolled up his sleeves and said he was " in for two chances." When he came near Mc ice, Neff warded his approach off with his arm, when Raymond started for the door. In the meantime Hewit caught McGee by the coat collar and shook him. Neff interfered and told him to let McGce alone, as he was a weakly man. Hewit then released name of Murphy, and springing from Omaha his hold on McGee, and struck Neff, when the which occurred sometime since. That event City, Nebraska. The next speaker who ap- latter drew from his pocket a clasp dirk knife, and warned Hewit not to come at him again Hewit advanced towards him a second time. while Daniel K. Reamy endeavored to hold him back, and when near enough, Neff advanced a step and stabbed Hewit in the left side. Immediately afterwards Neff walked to the front door, and Hewit went into the dining room, where he discovered that he was stabbed. From thence he went to the office of Dr, Landis, who attempted to probe the wound, but failing to do so, he dressed it, and Hewit went home. Towards morning internal hemorrhage ensued, and he vomited great quantities of blood. During all day on Sunday he kept sinking until 10 o'clock at night, when he died. Mr. Neff graduated at the office of Mr. Blair, in this place, and was always looked upon as a quit inoffensive young man. His father lives a short distance below Alexandria. He promptly gave himself up to the Sheriff on Sunday morning. It may be well here to remark, that the evidence as to the precise time he drew the knife

The Sprnish question has been postponed. The Spanish Minister has backed out from his demands, and his fleet has backed out from Vera Cruz. Democratic Meeting.

A meeting of the Democratic citizens of Summerhill Township and vicinity will be held at the house of John M'Coy in Jefferson, on Saturday evening next the 26th inst., for the purpose of forming a Buchanan and Breckinridge Club. Several speakers have been invited, and are ex pected to be present and address the people.

Freemont Club.

A meeting of the Black Republicans of this place was held at the Court House on Monday evening last, for the purpose of organizing a Club to aid the elsetion of Fremont and Dayton. A a week's notice had been given of the intended meeting, we expected to see a general turn out of the "wooly heads," but found it very slimly attended. After adopting a constitution, a call was made upon those present to come forward and eign it, when eleven persons all told, were all that could be found willing to do so. As it was found rather an up hill business to get up an enthusiasm for the ticket of the Disunionists in this quarter at present, the officers of the meeting held a consultation, and finally concluded to adjourn to a iuture day.

Our friends abroad may rest satisfied that all is right in Cambria, and that the efforts of the abolation fanatics, or Know Nothing demagogues to obtain a foothold in our mountain county will signally fail. Our people are too patriotic and intelligent to be seduced from their duty to support the constitution AND UNION, and a majori of at least ONE THOUSAND may be looked for at the November election for the patriots and statesmen Buchanan and Breckinridge.

Congress.

The resolution from the Senate fixing the day of adjournment was taken up in the House yesterday, and amended by inserting the 18th day of August as the day of adjournment. In this shape it passed by a vote of-yeas 123, navs 51. This will no doubt be concurred in by the Senate, and we may therefore look for the dispersion of this body at that time.
