GOV. GEARY OF KANSAS.

This gentleman visited Leavenworth City during the recent sales of the Delaware Indian lands. A public reception was given to him. The Mayor welcomed him on behalf of the citizens, and the Governor responded as follows:

FELLOW-CITIZENS:—I have just completed an extensive tour of observation through the southern and western portions of this Territory, and am happy to inform you that the benign influence of peace, which I have every reason to believe will be permanent, now reign throughout all its borders.

Solicitude for the continuance of this auspicious state of affairs, is the only reason I have to offer for my presence among you upon this important occasion.

I am truly gratified to learn that most amicable and peaceful feelings animate the hearts of the large concourse of people, this day assembled from all parts of the Union to witness these land sales.

These are my sentiments, and I desire you to receive them, as I utter them, in the most conciliatory spirit.

The sale of land this day is by virtue of a treaty with the Delaware Indians, the United States making the sale, as the trustee for the Indians.

Justice to the actual bona fide settler, and the Indian, is the purpose of the Government. Upon the opening of the Territory for settlement, many of our citizens came here, settled and improved these lands. These men left their homes in the States and brought with them their energy, industry, skill and capital. Through many privations and in spite of most insuperable difficulties, they have extended our frontier, erected homes for their families, planted fields and fenced them and by their persevering labor have given value and consequence to these broad acres.

These lands now appraised at from one and a quarter to ten dollars per acre, were previous to the advent of these noble and hardy pioneers worth but one dollar and a quarter per acre. I also understand that the United States Government, the Trustees of the Indians, tacitly permitted this settlement and expenditure of labor and capital by never having given the settlers notice to quit.

These promises being granted, it is, in my opinion, the duty of the Government to protect the bona fide settler in the enjoyment of his equitable rights, and to see that he is not deprived of the fruits of his honest labor.

I am, therefore, in favor of assuring to the actual settler his title to the land upon his paying its appraised value, as fixed by the Government.

I then say, unequivocally, that I earnestly sympathize with the honest bona fide settler, and I invoke all good citizens, as they value justice and the peace of this Territory, to permit the actual settler quietly to take his land upon payment of the value fixed upon it by the Government.

While I recognize the claim of the occupant to the fullest extent, under all the principles of justice and equity to the land whose value is chiefly owing to his possession and labor, I must remind him that it is not right, according to the technicalities of law, and he should not endeavor to enforce this equitable right by force and violence. This would put him wrong before the bar of public opinion, which now universally gives him support, and present him as a wrong-doer, instead of an honest, law-abiding citizen. Let me then pray you to rest on the good sense and justice of the people, both citizens and strangers, and be assured that all the influence of those in authority, as far as I can answer for them, is thrown into the scale of your claim.

This position can do no injustice to the Delaware Indians. Their magnificent reserve, 40 miles long by 10 wide, with a population of but one thousand, is more than ample for all useful agricultural purposes, and the purchase money of these trust lands, will enable them to cultivate and improve what is left—indeed, the value of the reserve will be more than quadrupled by the settlement and improvement of these trust lands.

The enterprising and industrious settler has already given value and afforded a market and purchasers for land which otherwise would have been comparatively valueless. Thus the Indian gets an increased price for his land, which is useful to him, while the actual settler and laboring cultivator of the soil equitably receives the fruits of his hard earned toil. Nothing will assist me so much in rendering permanent and enduring the peace which now gladdens this beautiful country as the sale of the public lands, and their ownership by an honest, enterprising, industrious, Union-loving population. I am earnestly solicited to see every citizen, who desires to make his home among us, the proprietor of 160 acres of land. This policy will insure peace, bring prosperity and wealth, develop the moral sentiments of the citizens and make us a model people, and in the not distant future a model commonwealth.

A portion of this Territory, including an area of about 200 miles square from the Missouri river westward, possesses all the elements of agricultural and mineral wealth.—For richness of soil and salubrity of climate, for its finely timber-fringed streams and excellent building stone, it is unsurpassed by any portion of this continent.

Owing to the extreme productiveness of the soil, it is capable of supporting with but little labor, an immense population, and as fast as the Indian title is extinguished to the Reserves within its limits, will be populated by a thriving and industrious people.

There will be plenty of room for all good people who desire to cast their lots among us, and if I mistake not the people of Kansas, they mean to make no room for the bad.

I will co-operate with the citizens of this Territory so long as I am clothed with the Executive authority in rendering Kansas too hot for bandits and robbers, and affording full protection for life, liberty and property, to every good citizen.

To accomplish these beneficial results I must rely upon the virtue intelligence and patriotism of the people. Fellow-citizens, you aid me this day and during the progress of these land sales to preserve the peace and insure the prosperity of this Territory? I KNOW YOU WILL.

THE WHEAT CROP.—We see by the record that Pennsylvania is our greatest wheat State and estimated to raise this year 18,250,000 bushels; Ohio is next, raising 16,800,000; New York is next, raising 16,200,000; Illinois next, raising 14,600,000; Wisconsin, 14,000,000; and Virginia raises 12,600,000.

CALIFORNIA FOR BUCHANAN!

Late and Interesting News. The steamer Illinois arrived at New York on Saturday, with San Francisco dates to the 5th November. She brought \$2,000,000 in gold, most consigned as follows:

Table with 2 columns: Name and Amount. Drexel & Co. \$255,000; Wells, Fargo & Co. 350,000; Metropolitan Bank, 200,000; Howland & Aspinwall, 150,000; Charles Morgan, 165,000; G. H. Wines, 20,000.

CALIFORNIA FOR BUCHANAN!

By papers and letters, it appears that California has gone for Mr. Buchanan, by a majority of from 8 to 10,000, over Fillmore his principal competitor. The vote for Mr. Buchanan will probably exceed the united vote of Fillmore and Fremont in the State.

The Indians are still troublesome in California, several skirmishes having recently occurred between them and the whites on the Klamath River, and near the Bald Mountain.

The Ohio at Pittsburgh.

PITTSBURGH, Nov. 29, (evening).—There is now four feet of water in the channel, and the river continues to rise slowly. The weather is now cold and cloudy. The steamers Rosalie and La Crosse have arrived, and will leave on Monday for Cincinnati. The Denmark will also leave on Monday for St. Louis, and the South America is advertised to leave on Thursday for New Orleans.

Official Returns from Iowa. CLEVELAND, Nov. 29.—The following is the official vote of Iowa for President: Fremont, 44,127; Buchanan, 35,241; Fillmore, 9,444.

TO THE CLERGY.—Fremont being dead and buried now let us have the stated preaching of the gospel once more—not according to Kansas but according to those true apostles of real freedom Matthew, Mark, Luke, and John. No more campaign documents in our pews give us the Bible, King James version, just for a novelty.—N. Y. Express.

There is a sharp scarp in the above—and there are hundreds of Protestant clergymen who will not fail to feel it. The North is full of them. That they are all good and true men in their calling, we are not at liberty to doubt for a moment; but under strong temptation and a servile delusion, they have for months past made their pulpits and their churches mere rooms for political meetings and political stump speeches. There are many honorable exceptions—many bright exceptions—and we do not doubt that when the "madness of the hour" has passed, and calmness and reason regain their influence, those who have forgotten their holy calling and their rapid political apostles, will be ashamed of what they have done—aye humiliated—and will repent them of what they have done.—Eastern Argus.

A late Lebanon paper says the Lebanon Valley Railroad is fast approaching completion. A considerable portion of the track has been laid between Reading and Lebanon, and it is confidently expected that that division of the road, at least, if not the whole line, will be open for travel some time between March and May next.
