S M. Pettengill & Co , of New York, and J. Webster, of Philadelphia, are our authorised agents to receive and collect money due this office.

THANKS .- Our thanks are due to members of the Legislature for many favors.

THE NOMINATIONS.

The Democratic State Convention, which assembled at Harrisburg, on last Monday, nominated the following ticket.

> GOVERNOR, GEN. WM. F. PACKER CANAL COMMISSIONER. NIMROD STRICKLAND SUPREME COURT JUDGE. HON. ELLIS LLWIS

We will speak of the nominees at length. in our next number.

Sir John Miller.

" Smooth flow the waves, the zephyrs gently play Belindu smiled and all the world was gay."

Such was the general appearance of nature at the advent of Sir John Miller, into our quiet rural village. Altho' Sir John was incog, and was of the most retiring modesty, still the native quickness of perception of our inhabitants, early discovered that he was something more than a common man. The chaste elegance of his conversational powers, and the unobtrusive conduct of the man, gave evidence unquestionable that he was "a touch above the vulgar."

Sir John would take a drink at the bar, and play a rubber of whist with the common men of the town, but there was a grace and dignity about and would compel any reflecting man to exclaim what a treasure he would be at a tea party, or in a drawing room. He is gone, but he has left a memento -behind him in the shape of a piece of mechanism, that we trust will perpetuate his memory. He is said to be almost a martyr to science. Many of us in this village have never eeen an English nobleman before-

gheny Township, called at our office on last been an old line Whig; but that at the last fall election, he voted for BUCHANAN & BRECKENRIDGE; and the whole Democratic State and County ticket, and that he has identified himself with the Democratic party and will sustain its nominces in the future. Capt. Christy, is a gentleman of high charactor for honesty and integrity, and like many other old line Whigs of Allegheny Township; aided and assisted in electing Pennsylvania's favorite son, to the Presidency-all honor to the patriotic Whigs of Allegheny Township.

THE NEWS .- The William Sherrod, or Sherrard, killed in the recent affray in Kansas, was the man appointed by the Court to fill the vacancy occasioned by Sheriff Jones' resignation, to whom Gov Geary refused the commission on the ground of being an habitual drunka d. The Westport correspondent of the Reguldican says that Sherrod did not spit in the governor's face, but called him a liar, coward and scoundrel. The balance of the report, though not corroborated, is not contradicted. Letters from Lecompton are expected here to-night.

PUBLICATION OF THE LAWS .- A number of our exchanges, in different parts of the Commonwealth, have expressed in decided terms, sentiments in favor of the passage of a law providing for the publication of the acts of assembly, in prominent newspapers of the several counties. We are of the same opinion. Laws made for the government of society should be made public as possible. A specifie knowledge of all laws, legal terms and technical quibbles may not be absolutely beneficial to every person outside the legal profession, but a general knowledge of the principles upon which our laws are founded, and an easy access to the statutes of our Legislative bodies, should be secured to all. This can be accomplished by having them published in the leading newspapers of the respective counties. We hope the legislature will take up the subject and give it their favorable consideration.

Earnsbung Founday. - The eastings manufactured at this establishment are gaining a wide spread reputation-they are made of strong and durable iron, and not like castings purchased in the cities. Farmers and others in want of Plow ascertain the denomination. The weight of her fist. rates thau can be purchased in our village-

TER CAMPBELLS .- This company gave two concerts during this week to a very large and respectable audience. This is the first company that has visited our town for years, that appeared to give general satisfaction.

Hox. Jenn L. Dawson .- We learn with deep regret that this gentlemon is still seriously ill, at his residence in Brown sville.

COPPER COINS .- As the copper coins are cent" will not be an uninteresting thing. It was first issued as a United States coin in ter as a matter of news to the people of the 1792. It then bore the head of Washington on one side, and thirteen links on the other. The French Revolution soon after created : rage of French ideas in America, which put on the cent. instead of the head of Washington, the head of the Goddess of Liberty-a French Liberty, with neck thrust forward and flowing locks. The chain on the reverse was replaced by the olive wreath of peace. But the French Liberty was short lived, and so was her portrait on our cent. The present staid, classic dame with a fillet around her hair, came into fashion about thirty or forty

It is reported in New York that Governor King has sent written directions to the District Attorney, Mr Hall, requiring him to take the necessary legal measures for the removal of Mr. Connery from his office as Coroner. The charges upon which the Governor has proceeded in this matter, have, it is said, been drawn up by Mr. Clinton, counsel of Mrs. Cunningham, and are based upon the course of conduct he pursued in the investigation of the circumstances attending the death of Dr. Harvey Burdell. The Coroner is, it appears, to be impeached on the ground of incompetency and improper conduct; but he is determined to contest to the last the power and authority of the Governor, and for that purpose has already engaged counsel. The case will probably come before the proper court in the course of three or four days.

The project of a Mailroad from Lewistowa to Bellefonte and Snow Shoc is being agitated by the Lewistown folks. A public meeting has been held and steps taken to obtain the means for a preliminary survey

EXTRAORDINARY DELUSION. - A most remarkable case of delusion has been brought to light in Philadelphia. A large number of gnorant Germans have, it seems, permitted themselves to be victimized by a woman of their own race, named Ann Maister, who pretended to be the sister of Jesus Christ. She appears to have exercised unlimited control over them, extorting large sums of money, jewelry, &c. According to one of the witnesses Mrs. Maister was prepared to go up to Heaven, scated on a white horse, and at the Pennsylvania. Captain Augustin Christy of Alle- right side of God, and that angels were all round her - She could not go however as Saturday, and stated that he has heretofore she had to have a gold watch, gold pencil, and a gold ring before she could get into Heaven. Money was furnished her by her friends' to enable her to procure these articles

- Mr. Buchanan was accompanied to Washington by his nephew and private Secretary, James Buchanan Henry, and his nicce, Miss Harriet S. Lane, and Miss Hetty Parker. Miss Lane will remain at Washington to do the honors of the White House, but Miss Parker will return to take charge of Wheatland after the inauguration.

AT The crowd attending court is large. The interest manifested is more than usual, probably on account of the large amount of Commonwealth business.

A BOLD MATRIMONIAL SPECULATION NIP-PED IN THE BUD .- The Philadelphia Bulletin, of Saturday last, contains the particulars of a bold matrimonial speculation, which well nigh terminated in the inveigling of a wealthy retired merchant of Arch street, whose name is withheld. He has not escaped disgrace and censure, however. Being highly respectable, it was not before known, or even suspected, that he kept a young and somewhat handsome woman, on Fitzwater street, above Tenth, and that he spent much of his time there. Letters From Cameron.

We find the following cool letter from Simon Cameron, in the Pottsville Register, a Know Nothing paper. It appears to have been addressed to a Mr. Seiazinger, who may have been a good Democrat in the days of Jefferson, but who like many others, has sadly departed from the faith of his younger days. Cameron has the impudence to claim that he is still a Democrat. We don't know how the ter is characteristic of the man:

Shocking · Tragedy -- A Woman Murdered

and Her Body Burned. From the Toledo Commercial, 18th inst. On the evening of the 3d inst., Mrs Ward. the wife of Return J. M. Ward, in Sylvania, disappeared in a very mysterious manner. The ensuing morning her husband visited Mr. Allen's grocery, in the village, and informed him that he and his wife were going away, and desired Mr. Allen to tell those who might wish to see him that he had left the place. On the Thursday following Ward again visited the grocery, and had another conversation with Mr. Allen. He this time said that his wife had left him again. [She had once, in consequence, as it is believed, of ill treatment, left him for a brief period] Allen asked him, "When did she leave?"-Ward replied, "On Tuesday night last .-She took the cars here, saying that she was going to California." Ward made this statement to a number of the citizens, and it was so much at variance with his previous statement at Allen's, that suspicions of feul play ere immediately excited

These suspicious were furthered by other ircumstances, and it was determined that the affair should be thoroughly sifted. Ward was arrested and examined before Mr. Justice Clark. It was proved at the examination that Ward's last statement at Allen's eas untrue, but the evidence was not sufficient to warrant the Justice in committing him. Some of the citizens, however, were by no means satisfied of Ward's innocence, Secretary of the Navy-A. V. Brown, of and they endeavered to still more thoroughly solve the singular affair. They thoroughly searched Ward's premises, and found most Secretary of the Interior-Jacob Thomp- indubitable evidence that the woman had been foully murdered, and that her body had beer burnt in her ow. house. In a pile of ashes near the house human bones were found, an upper jaw, almost entire, and pieces of a scull. Two finger-rings were also found, which were recognized as those worn by Mrs.

> The citizens who mad the search found bundant evidence, as they thought that the effects of Mrs. Ward had been all burnt,-The lock of her trunk, pieces of dresses. hooks and eyes, and other articles, were found. The bel clothes in the house had the appearance of having been recently washed. On opening the bolster and bed the feathers were found covered with blood -Blood was also found on a mat in the upper part of the house. A minute search reveald traces of blood in other parts of the house.

Whether the woman had been stabled or shot they could not tell; but that she had been foully murdered, and her corpse burnt, they were satisfied; and at once proceeded to cause the second arrest of Ward. He was arrested and again examined before Mr Justice Clark, and was committed to the jail in this city to await trial before the next term of the Court of Common Pleas for murder in the

During Ward's trial the Justice's office was crowded to suffocation, and the excitement is tremendous throughout the township.

Ward is a tailor by trade. He has been sober, she made him "stupid drunk," and | married three times | He married the deceased in Adrian some time last Summer, and carried her to Sylvania. Important from Nicaragua. Rumored defeat of Walker's Forces.

From the N. Y. Times of Tuesday A bighly respectable mercantile firm in this city have received advices from their corresondents in Nicaragua; purporting to be of ater date than those a'ready published, conveying the important information that since the arrival of the N Orleans recruits, Walker's forces had suffered two important defeats at the lands of the Costa Ricans, and had ost in killed and wounded sixty men, that Black Republicans will like this, but the let- the attempt to ascend the river with his Colonel Lockbridge's present means had been abandoned, and that many of the soldiers from My Dear Sir.-I thank you for your friend- the neighborhood of Scrapique had come down the river, having escaped upon logs,

This letter is said to have been received by the Texas at New Orleans, which remained several hours after the departure of the Tennessee, and may possibly have brought later news. We are not inclined, however, to poisoning. place much credit in this rumor, inasmuch as it is scarcely possible the Texas should have brought such news without its becoming public immediately on her arrival. Besides this, the condition of Col. Lockridge, at the latest that he would so speedily sustain reverses so disastrous as those described.

From the N. Y. Courier and Inquirer. The accounts from Nicaragua which we published yesterday were to the effect that the steamer Texas, with recruits for Walker, had arrived at Punta Arenas, that the recruits having there joined the fore s under the command of Colonel Lockridge, the whole party went up th : San Juan to a point nearly opposite Serapique, a fort occupied by the Cesta Ricans, that they atter pted to go higher, but when absent of Scrapique, they got a shot rom the Costa Ricans which con-pelled them to retire, and that they were then waiting for reinforcements from New Orleans, to make a grand attack on Serapique. The following extract from a letter received in this city, and dated the same day the Tennessee sailed. gives later intelligence than that contained in the report of the Purser of the Tennessee, or in the Panama papers brought by that steamer, and shows that the expected reinforcements from New Orleans had arrived, that Serapique had been attacked and the filibusters had been repulsed with great loss: JUAN SAN, Feb. 12

"We have not as yet any communication with the interior, the Costa Ricans having possession of Scrapique, all the lake and Virin Bay. "Since that they have not renewed the attack. From the Lancaster Express Narrow Escape of the President Elect from a Vielent Death.

About the time Mr Buchanan returned from his late visit to Washington, we heard whispers of a singular and mysterious nature in regard to his illness and sudden return home. In prosecuting our inquiries we ascertained that Mr Humes Porter, of this city, came home from Washington with Mr. Buchanan, also sick, and was obliged to take his bed, where he has been ever since.

At the same time we were satisfied of the truth of the statements which we give below, but asextraordinary efforts were made here as well as at Washington, to keep the matter husbel up, we yielded to the solicitati in of friends, and withheld the facts in our possession. As they are now coming out through other channels, it is due to our readers to give them a history of the extraordinary case of a narrow escape from wholesale

When Mr. Buchanan went to Washing on he put up at the National House, where J. Glancy Jones, John L.
