WEDNESDAY MORNING::::::JUNE 8.

FOR GOVERNOR.

WILLIAM F. PACKER. LICOMING COUNTY.

CHESTER COUNTY.

FOR CANAL COMMISSIONER.

NIMROD STRICKLAND.

The Meeting of the Tax Payers. The county meeting last night was very large and enthusiastic. The hard fisted yeomanry were there from all parts of the counof indignation against that accumulation of iniquity entitled "a bill to sell the Main Line." One important fact should be observed, that those citizens who live most remote from the public improvements, appear to be most thoroughly aroused at the injustice attempted to be inflicted upon the tax payers. Men of all political parties were pres-

whom the people would gladly have listened, but by reason of the lateness of the bour, the meeting was obliged to adjourn.

The Resolutions speak for themselves: they show that the people are in blood-carnest, and will not submit to tyrany and injustice.

Judge of the Supreme Court.

The Contral Railroad Company, not satisfied with having possession of the Legislature and the Governor of this Commonwealth, are endeavoring to deprive the people of their last tofeguard by making a conquest of the Supreme Bench. Their candidate is William A. Stokes, Esq., who hopes to secure the Democratic nomination by the judicious distribution of free passes to travel on the Central, among delegates, politicians, &c.

Mr. Stokes, who is a man of ability and ean talk "darned slick," is the Solicitor to the Central company. He is indefatigable in his efforts to serve them, and they owe him some reward. There is a rumor that the "blll of abominations' was drawn up by him .-Whether this be the case or not, we do not know. The fact of the distribution of free passes cannot be denied Among all the gentlemen whose names have been used in connection with a seat on the Supreme Beach Mr. Stokes is the only one, so far as our in formation extends, who has the power to grant them passes. It is a funny way for a Demoeratic condidate to electioneer.

We call the careful attention of the Democratic State Convention which meets at Harrisburg next week, to the resolutions adopted last night by the tax-payers of this county. particularly one :

Shall one of the wealthiest corporations on the globe, be exempt from taxation, while the richer, and the poor poorer? These are the for many years. The Kansas excitement has issues now to be met.

George N. Smith.

This distinguished gentleman has been in town a couple of days He is everywhere hailed with warm greetings by his constituents, who are justly proud of their honest and faithful Representative-there seems to be but one sentiment in regard to him. All agree that he has deserved well of Cambria county, and that she will not show hereby ungrateful.

The Latest Heax.

The Central Railroad agents, alarmed at the rising storm of popular indignation which is soon to overwhelm them, are resorting to every expedient to quiet it, and lull to sleep the vigilance of an outraged people. The latest story that they have put into circulation is, that they will not take up the iron on the eastern slope of the Portage, but will let it remain so that coal can be taken down to Hollidaysburg. This story is told in order to quiet the Blair county people.

They recently attempted to humbug the people of this county by telling them that the company intended to let the iron remain for a term of years on the Portage, and use it for the transportation of heavy freight over the Mountain They found nobody green enough to swallow their varns. The people here are fully aware of the fact, that the Central Rail Road Co has leased for twenty years the Pittsburg and Steubenville Rail Road. There is iron wanted to that road, and the other day at Harrisburg, one of the borers for the Central, an ex-Canal Commissioner, was counting up the amount of rails on the Portage, and discovered that there was just enough to supply the deficiency on the Steubenville So that the company intend to carry off the iron belonging to the people of Pennsylvania and make with it a railroad to Virginia and ty, and were unanimous in their expression | Ohio! Verily, that is a Pennsylvania Rail-Road Company with a vengeance.

A Ray of Hope.

We are pleased to learn on reliable authority that application has been made to the Supreme Court for an injunction to stay the sale opinion of some of the best legal minds in the State that the Supreme Court will not only grant the injunction, but that the act by which it is sought to divest the State of the main arm of her public improvements and indirectvest them in the Pennsylvania Railroad Company, will be declared unconstitutional. Thank heaven the interests of the Commonwealth may yet find protection in an unbought tribunal, whose actions are above the threats and beyond the reach of the gold of corrupt politicians and a monopolizing, soulless cor-

The bill contemplates the sale of the Portage Railroad, including the New Portage. The road bed of the old Portage has reverted to the original owners of the land, yet the wording of the bill, and the notice of sale would seem to indicate that the Governor means to sell to the Central railroad that which has become real estate, owned by private citizens. It is not likely that the people will submit to this.

As said above, the bill contemplates the sale of the sale of the New Portage Railroad Of course the road bed is an integral part of the New Portage Railroad, and when that Railroad is sold the road bed must go along with it, otherwise there can be no sale of a Railroad Iron rails and ties and ballast do not of themselves constitute a rail road; there must be semething to lay them upon. When the State took possession of the road bed of the new Portage, she did so without release from the owners of the land, and without paying them damages or consideration She took possession for a special and particular purpose of the land forming the road bed of the new Portage. She had no right then to take possession of that land for the purpose of selling it, and she has not that right now .-The State might as well claim the right to sell the personal property of the citizens.

The landholders along the line of the Columbia and Portage Railroads have ample cause to apply for injunctions. We specially commend these suggestions to the attention of the landholders in this county along the line of the Portage.

Virginia Still Democratic.

The Democracy of the Old Dominion covered themselves all over with glory, at the election on Thursday last. The returns are not all received as yet at Richmond, but enough is known to warrant the belief that the entire delegation to Congress, as also an overwhelming majority in both branches of the Legislature, will be Democratic. The Democrats also elected the Attorney General by a large majority.

It is a great triumph in the " Mother of States and of Statesmen," but nothing more than might have been anticipated from her indomitable Democracy.

WASHINGTON, JUNE 1 .- There were serious disturbances at several of the voting places to-day. The Mayor obtained from the President an order to call out two companies of marines, having had stated to him, upon the representation of credible citizens, that a band of lawless persons, most of them non-residents. had attacked one of the polls at which the annual election was in progress, and after maiming twenty good and peaceable citizens, bad dispersed the Commissioners of Election and threatened further violence in any attempt to carry on the election

The Mayor directed the Marines to proceed to the Northern Liberties, whither the rioters had conveyed a swivel. He then commanded them to disperse, informing them the troops were there solely to preserve peace. This order they tauntingly disregarded, when the wivel was wrested from its possessors. One narine was shot.

The most fearful alarm prevailed. Freuent shots were being fired by the rioters. The Marines returned fire; and it was soon discovered that five or six persons were killed. and twice as many wounded The larger ortion of these were innecent, so far as can e ascertained The verbal accounts of the particulars are extremely contrdictory.

THE PROSPECT BRIGHTENING .- The cry of short crops which was set up a few weeks ago, is becoming exceedingly faint as more favorable reports come crowding in from the graingrowing regions in all directions. Even from Illinois, where the cry was first started, and where a total failure of the wheat crop was predicted, inteligence is received giving quite a different color to the picture. The local press throughout the State, with few exceptions, speak of the grain prospects as most encouraging. A gentlemen who has travelled quite extensively over the Western States, writes to the Cincinati Gazette, that in his judgment, in Ohio, Indiana, Illinois and Kentucky, there will be a larger crop of wheat harvested the coming harvest than ever before.
