Two hundred passengers were either drowned or burnt to death. The victims were mostly Scotch emigrants. MONTREAL, June 27 .- The steamer Mon-

of the passengers. The principal portion of the passengers in the ill-fated steamer have just landed here on

their way West. The captain and crew of the Montreal were among the number saved. Late advices say that the number that per-

ished will reach three hundred and fifty. Quante, Jane 27, Evening .- The following further particulars, relative to the burning of the steamer Montreal, have been ob-

The Montreal left here at four o'clock yesterday afternoon, for Montreal, with four or five hundred passengers, mostly Scotch inthigrants recently arrived from Europe.

Nothing unusual occurred until the steamer reached Cape Rogue, twelve or fifteen miles above Quebec, when the wood work near the furnaces were discovered to be on fire. Quickly after, the flames broke forth, causing the numest consternation among the passengers. Every possible effort was made to subdue the flames, but to no purpose. Capt. Rudolph, finding it impossible to save

the steamer, ordered her to be run towards the shore. The officers and crew of the Montreal exer-

ted themselves, at the same time, to get out the life boats. The flames spread with the most astonishing rapidity, and the wildest confusion and despair prevailed throughout the ship.

A number of the passengers threw them selves overboard and were drowned. Fortunately the steamer Napoleon, also for Montreal, was but a few miles in advance of the burning boat, and put back with all pos-

sible expedition to her assistance. The Napoleon succeeded in rescuing frem the burning wreck, a hundred and twenty-

soven passengers. Capt. Rudolph and the purser of the Montreal were amongst those who threw themsolves into the river. Both being excellent swimmers, they succeeded in reaching the steamer Alliance, and were saved.

It is quite possible that some of the others succeeded in saving themselves by swimming but as the steamer became unmanageable, doubt the most of those who threw themselves from the burning boat, met a watery grave. Sixteen of those who were saved died shortly after reaching the deck of the Napoleon that the total loss of life by this terrible disaster will not fall short of three or four hun-

The steamer Alliance arrived here this afternoon, with forty five of the dead bodies. We have not been able to learn the names of any of those lost, except that of Mr. Phillips, of the extensive lumber firm of Norcross & Phillipps, of Three Rivers.

The Montreal had on board two hundred and fifty-eight Scotch emigrants, several German families, and several American passengers.

They calculate dice, Dyspepsia, and numerous other com with great confidence upon an immense incures for consumption, taken in early stages,

that is now known. We take it for granted, as experience has proven, that diseases of the lungs are not enerally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent con-sumption, cure the liver and keep the system strong enough to throw off slight diseases of of the lungs.

There is not in the world a better liver emedy or a cure for debilitated system than Dr. Sandford's Invigorator, for it has been fully tried in a large and extended practice till its results are fully known, and now offered as a tried remedy, and one that can be relied upon.
