Railroad from Crescon to Ebensburg.
We stated a few weeks ago, that the Pennsylvania Railroad Company intended constructing a branch Railroad from Crescon Station to this place, if they received sufficient encouragement from our citizens. Since then the project has been much discussed here, and all our business men and farmers, seem willing and anxious to contribute liberally towards "urging it on." We understand that several of the most influential and wealthy citizens of this place, intend visiting Philadelphia shortly, for the purpose of calling on the President of the Company, and ascertaining what arrangements can be made. The project is by no means a visionary one. If the matter is once taken in hands in earnest, from fifty to seventy thousand dollars, in stock will be taken in this place and vicinity. The Road if constructed will pay as well, if not better, than the Indiana Branch, and will not be so expensive to construct.

Fair in Jefferson.
Our Jefferson neighbors are making extensive preparations for the fair, to be held in that place on the 25th, 26th, and 27th, inst. We understand that the proceeds will be applied to the payment of the debt incurred by the erection of the Catholic Church in that place. The object being a laudable one. We have no doubt the attendance from other sections of the county will be large. The services of the Newry Brass Band have been secured to "discourse eloquent music" during the continuance of the Fair. We also learn that the very Rev. Father Hayden of Bedford, will deliver a lecture on the occasion. No one who attends with the expectation of hearing an interesting and eloquent lecture from the venerable speaker, will be disappointed. He has long enjoyed the reputation, of being one of the most eloquent men in Western Pennsylvania.

At the late annual announcement of Jefferson College at Canonsburg, Mr. R. J. Evans of this place, had the degree of A. B. conferred on him. Mr. Evans delivered an oration on "Modern Eloquence," which is spoken of as a production highly creditable to its author. We wish him every success in his future career, and have no doubt he will attain it by deserving it.

THE BURDELL MURDER.
The Fifth Act in the Tragedy.
Mrs. Cunningham Attempting to Palm off a Child.
SHE IS ARRESTED.
The general report that Mrs. Cunningham, who every body has supposed to have been pregnant for months, was safely delivered of a child this morning, would claim as heir to the Burdell estate, created by the will of the deceased, throughout the city, which was increased by the announcement that Mrs. Cunningham was under arrest, for what cause was unknown.

The following statement of the facts in the case, which were procured at the District Attorney's office this morning, and checked by our reporters, will shed some light upon the mystery, and disclose the history of a crime almost without parallel in this city.

Dr. Uhl has been in attendance with Dr. Catlin of Brooklyn, upon Mrs. Cunningham. Dr. Uhl had been led to believe that Mrs. C. was soon to bear a child. She had presented all the external appearances of one about to be a mother—as he expressed it, "growing larger and larger every week." But Dr. Uhl remarked about a month ago, that as yet there was no positive evidence of pregnancy, and told her that under the circumstances he thought it his duty to make a medical examination. Mrs. Cunningham appeared very reluctant, and put the matter off from time to time. Finally she told him plainly that she was not pregnant at all; that she had been only playing a game, and he (Dr. Uhl) must help her out with it.

Dr. Uhl, previously to this time, had consulted the lady, but this bold proposition took him completely aback. He immediately consulted counsel, and upon legal advice stated the whole matter to District Attorney Hall. Mr. Hall told him it was his duty to carry out the matter in order to develop a great crime, and supply the proof for the criminal's conviction. Doctor Uhl finally consented.

He told Mrs. Cunningham that he was acquainted with a California widow, who was about to be confined, and it would be necessary to dispose of the child together, as the lady was going on to join her husband in California.

Mrs. Cunningham was delighted. It was arranged that she was to know anything of the other. The "widow" was to be confined at a house in Elm street, and the infant to be taken thence to No. 31 Bond street.

Mr. Hall then imparted the matter Dr. De la Montague, and engaged him to assist in the counterfeit, whenever the critical time should arrive. Yesterday morning Dr. De la Montague went to Bellevue Hospital, and, with the consent of Governor Daily, selected a babe of Elizabeth Anderson, a beautiful little blue eyed girl, born on Saturday last. The mother kissed her baby, consented to part with it on condition that it should be taken and returned within twenty-four hours.

Dr. Uhl visited Mrs. Cunningham by appointment at half-past three o'clock in the afternoon and told her that he was prepared to carry out the thing at once that the California widow was about to be confined at No. 190 Elm street, and she must be prepared to receive the "baby" with proper ceremonies. Then said she would be confined that night if he would produce the child by nine o'clock. He was to come over and let her know at a quarter before nine o'clock, and she would send a woman to bring the child in a basket.

No time was to be lost. Mr. Uhl hired a room of a respectable lager beer seller at No. 190 Elm and immediately set down suitable furniture from his own house, including the basket for the baby. Dr. Uhl took possession of the premises, and he hardly got possession when Mrs. C. was seen passing the house and coming in closely.

Police were now judiciously posted, and everything arranged. The greatest difficulty was to get an "after birth." Dr. Montague immediately posted to Bellevue Hospital, and succeeded in getting what he wanted, as well as the assistance of an intelligent Irish girl named Mary Ragan, who was to act as the fictitious widow. A physician was also engaged to lie in bed with a night cap on and do the grooming for the "widow." This party arrived at No. 190 Elm street just in season.

Officer Wm. B. Walsh, of the Court of Session was posted in the street opposite, and Inspectors Speight and Dilkes in Bond street. The physician who was to receive the "baby" assisted Dr. Montague in certain operations necessary to give the child the appearance of a new born babe, and then went to bed. Some private marks were also made on the child's head with nitrate of silver. A messenger was sent up to 31 Bond street.

Shortly after Capt. Speight saw Mrs. Cunningham leave her home; followed her into a Fourth avenue car, where she was recognized by the Conductor and some passengers, who spoke to Capt. Speight about her. She was disguised in a quasi nun's dress. The Captain followed her in Elm street, until she disappeared into the lager-beer saloon.

He returned to his post. In a few moments Dr. Uhl came out and asked the officers opposite whether they had seen the woman leave the house. She had passed out so quietly that they had failed to perceive her.

The officers next repaired to No. 31 Bond street where they learned that Mrs. Cunningham had gone out, but had not returned, and that a man with a white hat had gone in. (This was Dr. Cutler, of Brooklyn, who was assisting Mrs. C. in good faith.)

Dr. Montague at once went to the corner of the Bowery and Bond street, where he met Mrs. Cunningham in the large basket in her hands, in which he placed the baby. She went in to her house.

It had been arranged between her and Dr. Uhl that she should send in urgent haste to his house. Accordingly he had appeared and went. He soon came out and walked down street.

The officers then went up by the District Attorney's directions, rang the bell and entered. They were met by two women at the door, who informed them that Mrs. Cunningham was very sick and could not be seen. They found her in bed with the baby by her side—one of the "nurses" giving her warm drink, from a dist over a lamp, from time to time, by the District Attorney.

Dr. Montague asked if that was Dr. Burdell's baby. Mrs. Cunningham replied, "certainly, whose else could it be?" The officers at length told her that she must be arrested, that the game was played out.

She was apparently under the influence of opium, in order to create artificial painless. One of the other remained at No. 31 Bond street, with Mrs. Cunningham in charge of the officers.

To-day affidavits were submitted before Justice Flanahan, and warrants were issued for the arrest of Mrs. Cunningham, her nurses, Dr. Cutler and others.

Summary of News.

It is said that spider's bites can be cured by dipping the part affected in cold water, and renewing the application as often as the water absorbs.

In consequence of the repeated failures in spirit-rapping, it is stated that the members of the Massachusetts Whig Central Committee have voted not to call a separate State Convention of the party this year.

General Ruak's seat in the Senate will probably be filled by Ex-Governor J. Pinckney Henderson, the intimate friend and former partner of Gen. Ruak, in the practice of the law.

LAFAYETTE'S BIRTHDAY.—The 6th of September will be the 100th anniversary of the birthday of Lafayette. The Boston Post suggests that the day should be celebrated in some special manner by the people of this country.

A good deal of excitement has been caused in Upper Canada by an order from the Superintendent of Education, compelling the recital of what is called the Apostles' Creed, in the common schools, on the ground that all sects of Christians believe it.

A husband advertises thus; My wife, Annie Marie, has strayed or been stolen. Whoever returns her will get his head broke. As to trusting her anybody can do so, as he thinks fit; for as I never pay my own debts, it's not likely I'll pay her's.

The irreverent Mr. Kallech has been preaching at Niagara falls; whereupon some one gets off the following:

No wonder we crowd there to see the grand sight, Of the fall rushing down in its terrible might; But, on this occasion, how much more appalling To see at a glance both the fall and the faller!

The Lieutenant Governor of Indiana receives the extravagant pay of a fraction over twenty-five cents a day for his services! This as an illustration of the economy of our republican institutions is good, but the laborer is worthy of his hire, and "poor pay poor preach" the world over.

It is stated in the Augusta (Georgia) Dispatch, that new superfine flour is selling in that State at five dollars per barrel, and the market is represented as being dull at that price. We have an idea that five dollars will be considered a pretty good price for flour hereabouts in the course of two months.

The Reading Advertiser of Tuesday, had no marriage to publish, but the Gazette cheers us as to the prospects of the next census of Berks county, by explaining that "the weather is very warm, and when harvest is over, and the nights begin to get cool, these matters will all come right again, no doubt.

The lady who could read the following and not "pity the sorrow of a poor young man," deserves to live and die an old maid:

I wish I was a turkey dove,
A settin' on yer knee,
I'd kiss yer smiling lips, love,
To all e-ter-ni-tee.

GENERAL WALKER.—In reference to the rumored intention of General Walker to return to Nicaragua, the Washington States says: "If General Walker leaves this country again for Nicaragua, he will do so without any violation of our 'neutrality laws'; nor will he, in our humble opinion, pursue any course calculated to involve this government in difficulties.

I remember, I remember,
When I went a hooking peaches,
How a dog came out and caught me,
By the surplus of my breeches;
How I lung fast to the bushes—
How the dog hung fast to me,
Till my crying brought a man,
Who flogged me most awful-tee.

—Mr. John A. Holden, of Watertown, Mass., has a hen, a cross between the Cochon China and Spanish breed, who has a right to be egg-olistic, as she makes a regular business of laying double-sized eggs. Five specimens of her ordinary production certainly are of extraordinary size, and furnish a powerful argument in favor of selling eggs by weight, rather than by the dozen. One of her eggs measures 8 by 6 1/2 in.

A curious wager is under way at New Orleans. Col. Williams is to eat one thousand eggs in a thousand hours, on a bet of \$1000. He has yoked himself to a difficult task. If it is under done or overdone, he will have to shell out. He will have a hard job even if the eggs should be soft boiled. It will take 41 days and 16 hours to accomplish the feat. He has made a big lay on those eggs and should hatch success.

A NEW WHITE HOUSE.—The Washington correspondent of the Press, Col. Forney's newspaper, says that "there can be little doubt that the erection of a new Presidential mansion will receive the favorable action of the next Congress." The propriety of the measure will not be questioned, we imagine, by any one except those who may have a desire to make way with our Presidents soon after their election.

EXCITEMENT IN KANSAS.—Murder of a Man—Two Men Hung.—Accounts from Leavenworth, dated August 6th, announce intense excitement, growing out of the robbery and murder of a man named Stevens, on Friday last, and the subsequent discovery of an organized band of murderers. Two men named Baines and Quarles were hung. Baines made a confession, implicating several respectable citizens as confederates.

A NEW VARIETY OF WHEAT.—A gentleman from Alabama received from the Patent Office some spring wheat from the farm of Abraham, at the foot of Mount Carmel, in the Holy Land, which he sowed during the past spring. It came to maturity in seven weeks, producing a large full head, with a berry in every respect equal to the original. This wheat is reputed to ripen in Syria in sixty days from sowing. It will thus be seen that our climate hastened its period of maturity eleven days.

—What a race of misers we are! According to the treasury estimate, there are about \$250,000,000 in gold, of which little more than a fifth is in the banks—leaving little short of \$200,000,000 to be found elsewhere. The treasury hoards very cozily from twenty to twenty-five millions, leaving \$175,000,000 to be sought among the people. Allowing \$50,000,000—a liberal estimate—to be in actual use, there remains \$125,000,000 which is hoarded by the people, and to an extent six times exceeding the treasury.

The Greensburg Abortion Case.
The Greensburg Argus devotes nearly a column to a review of this important case, which notwithstanding the statement of the Democrat to the contrary, appears to have created the most intense excitement throughout Westmoreland county. Miss Herwig, the Argus says, is "the grand-daughter, on the mother's side of a distinguished and much revered clergyman, who officiated for many years in one of the churches of this place (Greensburg,) and whose praise is in all the churches." She is respectively connected on the father's side, and is yet in her minority. Her father died when she was quite young, and her mother, marrying again, she was cast upon the world with but little worldly resources, and nothing to protect her but her innocence, her orphanage, her youth, her dependent situation, and the honor of those among whom she was called to associate. She supported herself principally by her needle. Speaking of her visit to Gardiner's, the Argus uses the following language: "As regards Miss Herwig, we have no doubt but that she is entirely innocent of any guilty knowledge of the object of her being inveigled into this horrible pit of hell. We believe that she was inveigled there under the pretext of placing her under the care of a skillful medical attendant, to remedy some derangement of health under which she had been laboring for some time, and that she was not aware of the design upon her unborn babe until the horrible tragedy was completed. Possibly, yea, we believe her seducer was also ignorant of the horrible crime that would follow her treatment at the hands of the fends, Cooper and Gardner. His crime is black and damning enough, without adding another still more appalling."

More Lynching—Two Men Hanged in Jones County.
From Mr. Jackson, a resident of Cascade, in this county, we learn the particulars of some recent acts of the Vigilance Committees of the counties of Jones, Jackson and Line. Between Monticello and Anamosa, there resided a Doctor Long and his brother, who had fallen under the suspicions of the community as persons engaged in horse-thieving operations.

On Friday night the Vigilance Committee arrived at Long's, and captured the brother and another person, charged with similar offenses, and hanged them. Dr. Long was informed of the approach of his enemies in time to make his escape, and fled toward Dubuque. In passing through Cascade, he informed a confederate named Parrott, a resident of that place, of his danger; a guard was raised, and the citizens resolved that the lynchers should not effect their purposes.

On Saturday night, two strangers rode into Cascade from the south, reconnoitered the town, strayed around a short time, saying but little and transacting no business, and finally departed as they came. They were supposed to be scouts of the advancing army of Regulators, and as the latter did not make their appearance, it is supposed that they thought the town too much aroused to permit of their success in securing Parrott.

We believe that up to this time, there have been nine persons langed by the Vigilance Committees, in Jackson, Jones, Clinton and Cedar counties. Where this matter is going to end is hard to say.—*Dubuque Republican, July 14.*

STRYCHNINE.—The source of strychnine, one of the most powerful poisons, is not generally known. In the island of Ceylon, and in several districts in India, the tree grows, from whose seed the poison is prepared. The tree is of moderate size, with crooked stem and thick shining leaves. In the fruit season it is readily recognized by its orange colored berries, about as large as golden pippins. The rind is hard, smooth, and covers a white, soft pulp, on which many kinds of birds feed, and within which are flat round seeds, less than an inch in diameter. The seeds are ash grey in color, and are covered with silky hairs. This tree is the strychnine *nux vomica*, and the seed is the poison nut. The Hindoos have long used the nut as a medicine, and its nature and properties were understood by their doctors long before its existence ever was known to the western nations. The natives of India often take it for many months continuously, much as opium-eaters use opium. They commence with taking the eighth of a nut a day, and gradually increase the allowance to an entire nut. They generally eat it immediately before or after taking food, as eating it at other times produce spasms. Of course the frequent and habitual use of it leads to fatal consequences.

An exchange, speaking of the present heavy grass crop, says it is in striking contrast to that of last year, when the farmers had to lather it and cut it with a razor.

THE DEAD RESTORED TO LIFE.
A few years ago it was generally supposed that gray hair could not be restored to its original color, or made to grow on bald heads; but since the advent of Professor Wood's Hair Restorative, many persons who dyed years ago are now seen daily in the various walks of life appearing in all the vigor of youth, wearing their own flowing locks, simply from having used this great Restorative.—*[Louisville Times.]—August 5—2w.*

If all our readers who are troubled with Liver Complaint, Jaundice or Dyspepsia, will read the advertisement in another column of Dr. Sandford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead despairing people as now meet our gaze at almost every corner, for there never was a remedy of which so much is said, and that it performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Bilioousness, and any of the little bodily ills that are common; and it does produce a pleasant state of feeling to the sick, and what is better after using it a few times these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. Now we wish to impress upon our readers with this, that the Invigorator is a medicine particularly adapted to family use, and where there are children subject to little diseases, as all children are, it is invaluable, and saves physicians' bills, and an untold amount of anguish both to mothers and their little ones.—38—4t.

Dr. Duponco's Golden Pills for Females.
INFALLIBLE IN REMOVING STOPPAGES or irregularities of the menses. These Pills are nothing new, but have been used by the doctors for many years, both in France and America, with unparalleled success in every case, and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent an increase of family by those whose health will not permit it. Females peculiarly situated, or those considering themselves so, are cautioned against using these pills while in that condition, as the proprietor assumes no responsibility after the above admission, altho' their mildness would prevent any mischief to health; otherwise these pills are recommended. Full and explicit directions accompany each box. Price 41.

GOLD WHOLESALE AND RETAIL, BY ROBERT DAVIS, General Agent for Ebensburg and vicinity. He will supply dealers at Proprietor's prices and send the Pills to Ladies (confidentially) by return mail, on receipt of \$1, sent him through the Ebensburg Post Office.
